VARSI'S YGUN CLUB TO BE ORGANIZED

Prof. Hank and Mike Tobin of the Head of Movement to Organize Trap Shooting Club.

It is reported that Mike Tobin and Prof. H. C. Horsington are working towards the organization of a trap shooting club in order to, in all men and women of the university, both students and faculty.

The purpose of the organization is to provide a place where those interested in the sport can meet and improve their skill. The club will hold shoots each week. These will probably be conducted under the right conditions of the Iowa Trap Shooting Association.

It is said that Mr. Tobin has organized several gun clubs before, while Prof. Horsington has been active in the sport for some time. Those two gentlemen will undoubtedly make it a reality and a success. Trap shooting is last between in Iowa and is very popular in the large and small colleges and schools.

Successful gun clubs are maintained at Harvard, Yale, Dartmouth, Columbia, Michigan, Wisconsin, Chicago, and schools of a similar rating. The proposition is an excellent one for the institution to make.

Dr. W. E. Wendt, welder of physical education and in charge of the gun-shooting, is expected to select the best collection of those twisting, whirling, ebony-dents of university will be representative of the collection. Mr. Alexander, president of the National Academy and one of the speakers, will have work in the rooms of the University.

The club will endeavor to select pictures, rather than relative excellence, and will be able to select pictures, rather than relative excellence, and will be able to.

The mixer or house warmer tomorrow evening will be an informal and agreeable affair. The university men inspect the place. No definite program has been worked out but official-styled last evening at a few unexpected pinches will be served some time during the evening.

BIG "FAMILY" DINNER

AT ARMORY TONIGHT

ALL IS IN READINESS FOR SIXTH BIG ANNUAL DINNER

Many Prominent Speakers, Are On the Guest List — Ten Minutes "Talk" to Be Presented at Evening.

Dinners preparations were completed yesterday and all in in readiness for the big "Family" dinner which will be held at the armory tonight.

James Burton and R. L. Kettler, the chairman of the committee from the Iowa Union and the Women's League, respectively, have worked hard and faithfully to make the dinner a success and to contribute to the purpose of awaking interest in art and giving insip to the establishment and up building of art collections both pub lic and private. The galleries will be opened to the public April 3-5 in the rooms of The Arts school, top floor of the palace buildings.

These three of the exhibition are now busy arranging the paintings.

The collection is representative of many of the greatest American painters, among the names who have contributed to the collection are Francis DeLorimier, the well-known American artist. The collection consists of fifteen pictures lent by the National Arts club of New York, six of which are in the possession of Prof. George S. Glendening, president of the Arts club. All of these works are of the artists themselves, and are of the best of American artists. The students of the university will be represented by Mary Hehir Koch of Davenport, and the faculty by Dean W. C. Raymond of the college of applied science.

The treasures under the direction of Prof. C. H. Brownson will be one of the special features of the evening entertainment. This will be one of the special features of the evening entertainment. This will be one of the special features of the evening entertainment.

The collectors of the exhibit have selected pictures which shall possess some special interest of painting and in the different works and personal judgment of the visitors will determine the ranking of the pictures, rather than by relative merit.

THE UNIVERSITY DINNER
This evening the all-university dinner will be held at the armory under the auspices of the Iowa Union and the Women's League. This is one of the biggest events of the year. It is one of the events when a great deal to university existence. It is one of the occasions when the student body meets on a common level to participate in a genuine booster program. Such happenings as these result in bringing about great and better feeling among the students of the university.

Dr. Marek will make his first public appearance before the student body, since his election to the presidency of the university, a time when loyal exercise and that only half the time the events which a man desires to happen are. Have a little amusement. Take the time to enjoy yourself as much as you can.

MUTUAL MOVIES ARE TO MAKE MANY NEW FRIENDS
"Mutual Movies make takefly" is a slogan that promises to bring a new Iowa City to Iowa University.

Beginning tonight, T. A. Masland will present to his ever-increasing list of patrons this splendid little musical adventure. The "Mutual Girl" series one of the better corner every Sunday, and the others, every afternoon and night. These Mutuals will be strictly up to date and will be the same as you would see were you in New York City. Chicago, or any other big city.

The Saturday evening post's great display "Add" made the Mutual Girl fascinate, and everybody will work to see her each week.

The Iowa program will embrace this man sets to the youth of the land, and to the average jobholder. He claimed that he had been em-This is a regulation hour is greatly felt. At present, the students who desire to turn out for athletic activities must sign a statement and turn in for training whenever a little time can be spared from study and recreation. The medics, the law, the men and the engineers have a schedule that requires nearly every minute of available time for study and recreation. Why would not a student set aside the athletic recreation be desirable? Those who are training for track must appear on the floor every day and every fifteen minutes at each appearance in actual work. Each and every one declares that his study time has been made more profitable by this exercise, and that only half the time formerly required in necessary now, and only one half hour is lost by this training. It is so good, the web is in the track men, would it not be as beneficial for all men of the university?

If such a period set aside for athletic recreation did this much for Iowa, would it not be a profitable venture to devote the same to the student?

Iowa Shooters defeat Nebraska

Local Riflemen Have a Hundred Point Margin in Special Match
With University of Nebraska.

The University of Iowa decisively defeated the University of Nebraska in a rifle match the last of the week by a score of 1377 to 1177, ten men comprising the team. The match was not one of the regular contests of the national association but one especially arranged at the solicitation of the Nebraska school. That university expects to send admittance to the national competition next year, and are endeavoring to get a little match practice, and also determine approximately to what class they will be admitted. The first five men of the Iowa team scored 907 which is about the average of the work they have done all year.

The individual scores of the ten Iowa shooters are as follows:

LETTER ARRIVED FROM MR. J. J. MCCONNELL

States a Few of His Personal Impressions Upon Landing--Has Big Week.

Joseph J. McConnell, Jr., L. A. A. 1910, is making an enviable record as secretary of the Y. M. C. A. of Lahore, India. Followed in the guise of a long letter received from Mr. McConnell.

Mr. first impressions on landing in India, aside from the new and interesting sights of a new country was the appalling need of the country to be led up from its ignorance, suffering, and vice. My letter impresively verified this.

Out of 410 graduates of the Punjab university, hardly one in fifty has been found fit for the religious work which India needs; their educational system should be remedied for it is only through those men that the nation will ever get out of her present un-Christian condition. There is here in Lahore a section of the city where those students make their home, the wounded conditions of which is licensed, that exists in the world. Until those affairs are at rest, the situation will never become better morally. It is here that Christ has never even been heard of, which is a condition that Christian people will have to be led up from. What is done today will be of great amount to those who will be the missionaries of Christ in this land.

The Mohammedans are now sitting at a common boarding house with men of other religious which is a great step in advance. At the present I am conducting a class of sixty non-Christian students, although aside from the work of the colleges, I feel that they will develop their lives to their fellow men instead of to material pursuits as is their own wish.
