COMMITTEE CONSIDERS HIGH SCHOOL PETITION

Decision on Accrediting to be Announced Soon—Extensive Requirements Considered.

Applications from 13 High Schools for accrediting were considered at a meeting of the board of secondary school relations and the board of inspectors of state schools held at the university of Iowa, Monday morning Tuesday of this week. The final decision will be announced at a later date.

The applications considered were from the following institutions: New York, Newark, Atlanta, Ula, Central Point, Virginia, Michigan College, Lawrenceville Western University, University of Iowa, Iowa State College, Howard University, and Morgan. The board of foreign schools, the board of inspectors of state schools, and the board of secondary school relations are considering applications from the following institutions: New York, Newark, Atlanta, Ula, Central Point, Virginia, Michigan College, Lawrenceville Western University, University of Iowa, Iowa State College, Howard University, and Morgan.

The Compass club will hold its annual regular meeting Thursday evening at 8 o'clock in the home of Mr. and Mrs. Townsend at 150 S. Dubuque St., at which time recommendations will be considered.

APPLICATIONS TO APPEAR IN CONTEST

John Gabriel, the university representative for the fraternal society of the N. G. L. content, left for Wisconsin last night to compete in tomorrow's contest. Gabriel, it will be remembered, by winning first place in the annual university contest last winter also won the right to participate in the major contest. He has worked hard ever since, under Professor Merry's training, on the motion "The New Pacific" and he is expected to bring back one of the first honors. Iowa has always ranked high in oratory and this year is no exception to the rule. Benjamin Swab has already won first place in the Hamilton club oratorial contest this spring and it will probably find its reflection in this contest, in order to finish out the year in fine shape. Professor Merry has left with him to attend a meeting of the officers of one of the candidates.

WOOLFE TO CLINTON

Harry Woolfett, a senior in the L. A. college, has just received a position in the Clinton high school as head of the physics department. His salary will be $1,200.

"WANTED--A HUSBAND!"

This is but one of the touching ballads that the Women's Glee Club will sing at its Concert Next Thursday Evening. You will be captivated by this plaint of Wylie after his forlorn and unrequited love. For, as Wylie said, "It will be a victory for the men if you will choose not to notice it, because the men are in the wrong." The women will have their say, too, and "The Men Trying to Keep Their Own in the Happy Days" will have their moment of triumph. And how can you resist the melody? It is a touching ballad of unrequited love, and the women will sing it with deep emotion. The concert will be on Friday, at Wienieke's, 25c; at the wharf, 5c.

**A COLLEGE man is fonder of his sweater than of any other garment. This is why you should wear a "Bradley." It's worthy of your regard. It's a friend that will stand by you all during your college years. It's made of the "stuff" that will never go back on you—that will stand all you can give it and never lose its shape or newness.**

**"The Bradley" K N I T W E A R**

Here we illustrate the Bradley Jumbo—big, heavy, made of big, warm yarn. It is a fine-looking garment—looks as warm as it is soft. College men everywhere pronounce it a cocky style.

**PHARMICS SWAMPED BY LAWS IN OPENING GAME**

Legal Lights Trim Drug Mix But Tie 0 to 0 in Score

First Pan-Hellenic Game Played at Black Spring by Sigma Chi and Phi Delta Theta.

In the second game of the interdepartmental schedule yesterday the lawmen had a walk-away over the Pharmacists. Free hitting and rugged fielding predominated both teams showing the lack of adequate practice. Krick had the Pharmacists at his mercy throughout while the law men staged from the club and treated his successor, Arvidsson, pretty roughly. Wolfe secured a reprieve and a home run and there were doubles and two singles and a walk in six trips. The score up for the Law was Miller, 1; Olsen 2 and 2, Inman 1, Heering 1, Palms 4, Olson 10, and Engstrom 10.

**AND THE GREEN GRASS GROWS ALL AROUND.**

Prof. Irvine: If you can't keep it, then we'll! tackle it. If the law men are too slow, then we'll! tackle it. If the law men are too weak, then we'll! tackle it. If the law men are too big, then we'll! tackle it. If the law men are too clever, then we'll! tackle it.

NEW MAGAZINES and BOOKS AT LIBRARY

Here listed are Works on Advertising Preparing—New Theatre Magazines on File

The Iowan hopes to keep the serious body posted on the many new features that the library is adding from time to time. A splendid lot of new books is ready to go on the "new books" shelf today and they are worth the browsing of those who make any pretense of keeping up with the Drama League or general interest. The books noted below are now ready for general perusal and the new set will be ready for the public after they have been on exhibition for a week.

A very attractive and informing folder of books on advertising has recently been prepared. Every phase of the subject, from the psychology of the thing, to illustrations of posters and display ads is treated.

Two new magazines have been added. The "Art and Progress" is the official publication of the American Federation of Art. The other is a queer little English publication called "The Magpie." It is a most interesting publication of plays and the stage in general. It is naively but at times almost savagely truthful and delightful. It publishes poems, theatre magazine, the other two being "The Drama," and "The Theatre." The former is the official publication of the Drama League of America. It is published quarterly and always contains one full play. "The Theatre" contains sketches and reviews of plays, both musical and otherwise, and is exhibited on the shelf, with cards on staging, actors, source, and interviews. The Drama League bulletins are posted in the library from time to time.

On account of the illness of Mrs. Barry Gilbert, the recital which was to have been held at the heart of the middle of May, George Gillett left last evening to attend the distant concert. It will be held at Wisconsin university at Madison.

easy to use smaller type than former years and run it in closer style.

In other words "5-ct. sold." Add to these points, the new gold border for the page, the additional color work, the type illustrations, and other merits on the artistic side, say the editors, and the students are resulting the best results ever for their $1.50.

In fact the staff maintains that from their experiences this year, the price of the book will have to be increased to at least $2.00 next year in order to keep up the standard of excellence. Other schools find that in keeping with the growth of the material the prices of the year book has had to be advanced, if the publications maintain their standard.
