EVERY MINUTE COUNTS

The last five weeks of the academic year is at hand. These five weeks will be full of interest, with the final week of enthusiasm for the university, ending with the farewell and partings of friends, some of whom perhaps forever. But it is of the last five weeks that we wish to write this week. Students have laboriously done their work this semester, in the hope of finding the system among the chapters on the campus which will allow much cooperation. The most interesting point about the rules is the question whether this spirit, which has succeeded in producing the system, will be strong enough to enforce the law. Will the system stand the stresses and strains of next fall? If it does not, it will be for one or two reasons: one, the system is too inflexible. In the case, there need be no occasion for gloom; because the same spirit which created this system will be perfectly competent to improve into a workable scheme; or it will be because the spirit of co-operation among fraternities is strong enough to get a system of rushing on paper, but is not strong enough to enforce it. In that case, there will be cause for genuine despair. However, no amount of speculation can give the right answer to the problem of what will occur next autumn; there is nothing to do but wait and see. And by way of reminder—the passage of the running rules clears out of the way one of the big unfinished tasks which are still to be done in order to round out the achievements of the year, the spirit remains. What of the student council system?

WHAT OTHER NOTIONS + THINK

THE PROFESSIONAL HAND

The Michigan Union election rules provide for professional politics, bellman methods, boost and in a word all of those distinctively ward bearing means of the "outside, practical world." It is as if he should be able, at any time, in any place, to step into an office and feel just pride, if he has not been put there solely by his own "bravery." In the matter of placing the home- run, the college and the big leagues have fortunately confided in the only real honest one. As a nominee and as an officer, he has been a recipient of appreciation and trust from his followers.

A discussion of the qualifications of this type is to be highly desired. That is a question. And what a success this system has proved to be? The present and past efficiency of the Union is based upon the non-rushing and nomination scheme, without the shadow of a doubt. The student body has cause to congratulate itself. The combination system within forty men who are too sensitive and honorable to mix in gangs. And so the prohibition does not prohibit and the men who have gone into the closest service of the Union have gone in with clean hands—Michigan, Del.

three here a short while ago is now lecturing to the students of Minne-

sota. Mrs. Effy Simonson, H. N. '95, of Moorhead was Miss Palmer Tues-

day and Wednesday.

As a result of Northwestern's recent

want shake up over the placing of two fixtures on the varsity line, the tickets were discarded from the squad. First baseman Utley was suspended, two games were canceled, Coach Grady and Captain McCool resigned. The lat-

ter has since been dismissed from school. These however are not the least of the results. It has originated Northwestern's nine both in players and spirit and furthermore it has left a hatch upon her athletic name
