One hundred and forty-eight athletes, representing twenty-two high schools of the state, will clash on Iowa fields, starting tomorrow, when the seventh annual interscholastic track and field meet will be held on Iowa field and under the auspices of the state university, at Carver stadium, Monday. Nearly all details of the event are worked out and with a good weather day by the weather man, this will be one of the best meets ever held.

More than the usual amount of interest is centered in the meet this year. Owning this in the second year that the Iowa high school boy has had opportunity to become well trained and in perfect condition. Already there has been a number of meets, in the last few months, at the Cornell university and several dual meets between high school boys, have given the men opportunity to become better trained.

Athletic authorities of the state expect several records to be broken Saturday. Just what will be done, of course is problematical, for in track and in almost every branch of athletic contests there are few and far between. Where Buffalo is putting up a strong show in the field this year and will no doubt have with a strong aggregation coming eventually to take the meet points, according to those who know the high school varsity boys, the high school athletes of the state. This portends sending a team, destined to make the other schools of the state eat up and take their records. The records this spring have been good and there is no chance for them to keep the score line up with the other schools.

More schools than ever before are present this year. Alpena, Bur. Bur. Grinnell, Fort Dodge, LeMars, Orange City, Hampton, Indiana (Continued on page four).

HANNABY WARD HEADS STAFF AND CAMPUS
Elected President Yesterday—Eleven New Members; Society Helps Dean of Women

Hannabay Ward was elected president of staff and circle yesterday. The new members of the campus and the society were elected for the coming year.

Following is the list of members.

Dorothy Dondor-e, Martht Hach, Ruth Medan, Marjorie Pickettcr, Jeanette Royal, Fay Stahl, Gertrude Tafi, and Edna Westfall.

Staff and circle is an organization of university girls, and has for its object the assisting of the Dean of women in her duties. Whenever any girl is in need in the social life of the university, under the jurisdiction of the Dean of Women, the members of Staff and circle are called upon to assist.

But perhaps the greatest work done by the association is in the meeting of troubleshooters at the station, supplying them with food and blanket pieces, showing them the way around, and in various ways making them feel at home. Throughout the first year a great deal was done by the students to get the university, draft and circle made it a point to stand by friends to the utmost of their power, and helping their brothers as much as possible.

Election to Staff and circle is restricted to one of the highest honors of the campus, and is given to a university woman, and is highly priced accordingly.

JUNIOR LAW CLASS HELD DEBATE DINNER
The Junior Law class held a "debate" dinner last night at the North Jefferson hotel. They were furnished with the legal lights present. After the "feed" the class adjourned to Brown's American where they were the guests of "Budsh."

LIFER PROGRAM
Five subjects can be more familiar
with the printing and advertising business, and who have seen
samples of this year’s annuals, are ex-
pressing doubt that the management
will be able to pay the expense of publication.

The financial success or failure of the
year-book is a matter of concern for the
students of the university as well as for the business managers, and the
failure to make ends meet on the 1915
book will discourage the best efforts of
next year’s staff only. The students’ co-operation can only be a success.

There would be no co-operation, if everyone
would realize the tremendous amount of work and worry connected with the
publication of such a book while trying
to carry on regular university studies.

After leaving the farm connected with the printing and shipment of the
1915 annual, the students, will feel sure, hear with the Hawkeyes
of the former days. A comparison of the
former dates of Hawkeyes sales with the one announced for this
spring will result in a little more optimis-
im in this matter.

There will be no dance at Co.
Army Saturday, May 15th.

LEATHER SHIRTS

University Intercollegiate Records for 1914

110-yard Dash—Hort, Greenfield, 16 seconds.
110-yard Hurdles—Greaves, Cedar Rapids, 14 4-5 seconds.
440-yard Dash—Powder, Cedar Rapids, 53 1-5 seconds.
Second Hurdles—Nelson, Ordalton, 52 2-5 seconds.
220-yard Hurdles—Cedar Rapids, 21 1-5 seconds.
880-yard Run—Powder, Cedar Rapids, 5 minutes 6 2-5 seconds.
1-mile Dash—Hort, Greenfield, 23 2-5 seconds.
1-mile Run—Barlow, Mason City, 8 minutes 46 seconds.
Poly Yacht—Pine, Anamosa, 19 inches.
Boys—Cincinnati, 12 feet, 9 inches.

There will be no dance at Co. Armory Saturday, May 16th.

SOLDIERS OFF FOR ANNUAL ENCAMPMENT

(Continued from page 1.)

The bridge may be followed as far as the Bridges over the river and then across the fields directly to the meeting place.

The camp site is on the target range which is the property of the government. Permission was given to the regiment to use the ground for camp site and the neighboring land owners were permitted to have their pasture and woodland used for the camp. A little store on the road is a short distance from the camp site. It will supply little luxuries to the men before they are broken Mon. afternoon and the men will return shortly before six in the evening.

STUCKY DELAYERS

COMMENCEMENT ADDRESS

Stuckey, Instructor in the history department, left yesterday for the Iowa State Normal at Cedar Rapids where he will deliver the high school commencement address.

I. M. Stuckey, superintendent of schools at Crawfordville, is a former student of Mr. Stuckey's and will attend the summer session of the university.

There will be no dance at Co. Armory Saturday, May 16th.

INTERCOLLEGIATE MEET IS THE BIG EVENT TOMORROW

(Continued from page 18.)

(Rest of item above)

and West Des Moines are the schools that have never before competed here.

Contrary to past custom the drawings will be made Friday night before the meet, but all drawings will be made for positions on the field immediately before the preliminaries are made.

The preliminaries will be held Saturday morning at 8:00 o'clock and are as follows:

Track Events
100 yard dash
120 yard hurdles
220 yard dash
220 yard hurdles
Field Events
Running Broad Jump
Running high jump
Pole vault
Discus

MEAL TICKETS

Did you ever see a Union Suit that was Coat Cut, with actual closed crotch and a closed back? Well, here's one, and the only one—

COAT CUT UNION SUITS

UNION SUITS give the man of today — as well as yesterday — a neat, trim, self-respecting appearance. The man who wears a Union Suit today is the man who must be clothed — in cool, comfortable, and pocketable clothing.

Prices from $1.00 to $18.00. At your dealer. For free booklet, address Union Suit Book, 246 Broadway, New York.

Remember! If it isn't cut-out it isn't OLUS

OLUS UNION SUIT CO.

CATHOLIC STUDENTS TO ELECTION OFFICERS

All Catholics In University Members of Society—Last Meeting of Year

Special meeting of all the Catholic students in the university is called for Sunday, May 17th, at 5:00 o'clock in the Alumni Club room, the center of the Union. This is in the interest of electing officers for the coming year, in the Catholic Students' Union.

This is a most important business and attendance is expected to be present as this is the last meeting of the year, Thursday, May 21st.

The Kansas Woman's Home Bureau Council with the consent of the woman, desired that any and the best business here—broadening the correct position is maintained throughout the entire course.

More than 500 entries have already been received by the officials and in charge of the Illinois Intercollegiate meet. The winner of this competition is thought to be responsible for the great number of entries. The housing of the athletics is in itself a small task and the ability of the management is to be estimated.

The graduating class of Illinois Normal was well received at the Bel- loron Memorial.

PHILOMATREAN INITIATIVES

Two men, Reynolds and Lauer, were given in the Philomatrean hall Wednesday evening.

City Car Pool Offers Till After Dance

Skeels' 4-Piece Orchestra
Some More Plain Speaking

Students of the University like to think that they are on a par with those of any institution in the land. In natural ability they are. In taste and appreciation of some of the best things of life they are not.

That's a Bitter Pill to Swallow

Yes, but isn't it so? Don't get a "Grouch on." Face the facts and don't be too self-satisfied. What are some of the "best things" we speak of? Well, just now we have reference to music. For instance, last winter Carl Flesch, a violinist of world-wide fame, played here to an audience of 400 or 500 people, very few of them students; a little later he played at Ann Arbor before 5,000. The inference isn't very flattering to students of Iowa. Michigan men and women show by their deeds that they appreciate such things.

Take Another Example

Ann Arbor this year has the Thomas Orchestra for four days, (five concerts) and adds a number of great artists. This they have done for several years. They have even built an immense music hall for the special purpose, and they handle the proposition easily. We use Ann Arbor as an illustration because the town is of about the same size as Iowa City, though the number of students is greater—partly for this very reason.

THIS IS THE POINT

We are to have the Thomas Orchestra here on May 21. You don't need to be told again how great it is. You ought not to need to be told that it is an opportunity you cannot afford to miss. You owe yourself and your University a duty. It costs around $3,000 to get the orchestra here. No one profits from it unless you pay your part.

You say you can't afford it, that $2.50 is a good deal for two concerts, that you would like to attend but don’t see how you can.

NONSENSE

You can if you want to. You can find money for things of less value. As a matter of fact, the rate for these concerts is low. You know it is. Grace up and do something that will improve your taste.

These Concerts are Not High-Brow

You will enjoy them very heartily. This is the choicest music of the world. Save on some trifles and hear the best there is. You can still get season tickets, at Wienieke's, for $2.50, at the rate of $1.25 a concert.

No! No!

We are not trying to force you. We can't, and wouldn't if we could. But we should like you to make it think. Then you will act. Everything, good and bad, in the way of entertainments is advertised so extravagantly now-a-days, that it is hard to weigh values. One is forced to use a stiletto to get under the skin.

FINAL DATE SET FOR JUNIOR ANNUAL SALE

UNSTEAD OF PAYING 885 POSTAGE

Lanugages go to De Wolfe to receive Books Transferred—Annuals Will Be on the Campus not Later Than May 27

Monday, May the twenty-fifth— not later, possibly earlier—that is the final date set by the managers for the sale of the university of Iowa year-books.

The books could have been brought here earlier. They could have been shipped by express at the cost of $3.50. In view of the fact that the trustees of the junior annual have struck a near shipwrecked, is not, the management thought best to do a little wistful waiting and trust to the mercy of the freight rates.

The staff of the Hawkeyes are just as anxious as the student body—more anxious, no, to get the books on the campus and have the books here in the sale of the year-books, but...

The manager and editor will go to De Wolfe Monday morning, the time when the annals are supposed to arrive early next day, and see that proper provisions are taken to insure the correct transmittance of the books. Then if the subsequent survey of the 1915 annuals spells speed, there is a chance of getting the books on sale here by Thursday, the 24th. Otherwise, as two days of school are enough for the best delivery, the delivery of the Hawkeyes will have to be postponed till Monday. The students are assured, however, of getting the books, and as before the eyes of the faith, but actually in paper, ink and leath, on the campus.

Some doubt has been cast upon the promise of the board to present free of charge a leather copy of the book to anyone who does not receive a book in the annual. Here is the agreement as restated by the management yesterday:

"It is understood at the university whose name appears in the student's directory will be represented in the 1915 Hawkeyes by picture, cartoon, tale or other means. Any student not as represented, and reporting that fact to the editor of the Hawkeyes, will receive without charge a leather-bound edition of the book. This is a bona fide agreement that we will carry out to the letter."

Former Editor V. T. Vincent took an over a sample copy of the book yesterday afternoon and pronounced it the best annual he had seen at the university since its founding.

"I don't see how the manager can make the book break even this year," he said, on noticing the unusual amount of engraving work, the extra heavier edition, and the increased size of the volumes.

Students of the university of Kan- sas and the famous third Regular of having fourteen Kansas alumni of statewide prominence speak on the subject "The Press and the Sculpt." Each speaker treated the subject in a different manner.

ENGINEERS MAKE SAME BOILER TEST

Senior Electrical and Mechanical En- gineers are Put to Testing Hos- pital Heating Plant Boiler

Putting the knowledge and learn- ing which the senior mechanical and electrical engineers of the university have received into practice was the task set before them in this test on the boiler of the hospital heating plant. The test comprised a run of ten hours and was made as an attempt to determine the cost, amount of horsepower, the amount used per square foot of grate area and the most important of all to determine the extent of overhaul that the boiler could carry. It was interesting for the stu- dents in that department to see how closely the marks of the boiler lived up to their specifications.

On account of the immense stock of the heating plant which is twice the normal size, unusual care must be taken in the firing and operation of the boilers as an over capacity of steam in their high and odious. One of the purposes of the inspection was to show the vanity is regard to the boiler.

This test was made possible by the able direction and expert assistance of Mr. M. F. Fink and E. S. Echel

The arrangement of the men was as follows: Mr. Walligren having charge of the log and graphical re- work, Messrs. Knyaznik and Mackey the determination of the amount of water used and the tem- perature determination of the same, Mr. Garner and Carncik, the de- termination of draught in the chim- neys, and Mr. H. M. Smith, smoke determinations, responsible for the use of the boiler in the boiler also boiler press. Mr. Guiller and Eyre the pipe work determination. Mr. Swath, the determination of coal consumption. Mr. Bemelm, the products of 1914, their rate of change, Mr. Stearns the determination of fuel temperature based on the actual temperature of the steam used and also its temperature.

There will be no dance at Co. I for the next two days, as there is a lot of work to do. "Press Books will be sold at 50c."

View of Determining Need of Vital Statistical Law

Professor Drinnon's Class in Polit- ical Work: Example of Original Work to University; Iowa City Birth Rate Sear

Fifty students in the class of In- dustrial Sociology, took a birth cen- ter of Iowa City recently, under the direction of Professor J. L. Delu- cus, the department of political pol- icy and sociology, with the result that out of 122 births in Iowa City during 1915, 22 were found to have been recorded.

Another interesting discovery to be made in the birth rate was carried low, being 15.5 per thousand, whereas a rate of 20 births per thousand is necessary to keep popu- lation stationary. The rate was found to be highest in the third and fourth wards, which in- clude the best residential sections of the city, and those areas where the proper regulations are strictly enforced.

The figures for Iowa City are in- dicating a somewhat more promising condition for Council, whose only 19 of the 50 births found to have been recorded.

VISIT CAMP MACHINE

The R. F. T. riders will be in town at the State Rifle Range, Saturday, May 18. Round trip via the Interurban, etc.

VACATION WORK

Everyone knows of the many camps that have sprung up along the Highways. We have a little investigation to make in connection with this movement, and can give statistics of all the camps. Mr. B. E. H.
