PLANNING THE GYMNASIUM

In the interests of the State University of Iowa, their mission being to study gymnastics structure, equipment and arrangement, in order to place an adequate gymnasium in the university, the State Architect, the Superintendent of grounds and buildings and the chairman of finance committee of the university, the evening, through the east at the present time.

The planning of a gymnasium for a large and rapidly growing university is a great task. Many problems must be taken into consideration.

One of the greatest problems to face when planning a gymnasium is to see that it will meet the needs of a student body of five hundred, ten or twenty years from now. To fulfill what will be demanded by a student body, obviously a building

The state board of education has wisely directed these men to go into the subject of a new gymnasium, sparing no time or money to give to the university the best that the state of Iowa can produce. We believed that they mean to study these men, who know and understand the needs of the university, to visit various gymnasiums of the country is the one thing which will give to the state university a new gymnasium which will adequately meet future demands.

TODAY

When the President and faculty of a great university, feel that they are justified to suspend classes, so that the student body may attend an east at the present time.

We believed that the student body will support the efforts of the university in bringing this rare opportunity to Iowa City.

YOUNG MEN TO TAKE CANOE TRIP

To Make Trip Up River In Canoes Next Sunday Morning for Services

A canoe ride, and all for the price of the canoe ride is the attraction which the Y. M. C. A. has to offer for next Sunday morning, which has been put aside as the occasion of the annual spring river trip.

In years past it has been the custom each spring to make a canoe trip up the river and that dawn while breakfasting in an address by some speaker, or after having breakfast at some point a mile or two up the river. The trip on Sunday will start from the Fitzgerald boat house at 8:30 in the morning and the party will be back in town by 1:30 or shortly after. All intending to make the trip should notify the Y. M. C. A. affairs in order that a canoe or rowboat may be reserved for them.

After trying hard to get a special speaking engagement, it has just been received a telegram from Bobs A. Hadley that he will be here to speak to the men. Mr. Hadley is the national editor of the secretary of the press and is a graduate of Penn college, Iowa. He was state student secretary of Iowa for a number of years and took some work at the Harvard theological Seminary. The fact that he is well acquainted with Joe McConnell, Iowa's representative in Congress, will add interest to his talk.

All members of the university and all members of the faculty are invited to make the trip.

Northwestern complaint that he students are losing interest in their splendid museum and this is even more apparent now that the temperature is in the last few years.

PLEASE READ THIS, OUR PARTING WORD

To the people of Iowa City and the University:--

We have spent a lot of money during the last few weeks, and months, trying to bring to the people of Iowa City and the University a consciousness of the opportunity that lies before them to hear, right at home, the famous Theodore Thomas Orchestra. Whether we have gone about it the right way, and whether we have succeeded in arousing interest remains to be seen. We have made the effort and we have made it for your benefit. No one is to profit from it if you do not; we pay for our tickets as you do.

After all our task has been an impossible one. Who can explain a sunset to the blind or a symphony to the deaf? You must cultivate your own sense of the beautiful. No one else can do more than exhort you to "taste and see." Let Karl von Hackett, the great musical critic of Chicago, try to say our last word for us:

"What a wonderful thing it is just to listen to the tone of a great orchestra, to bathe in the hushes of sound as they flow over you and give your soul up to the sense of well-being which they bring to you. There is misery and sorrow enough in this world of ours, but when the Chicago Symphony Orchestra plays the first concert of the season we lose consciousness of the sternest facts of life and for a short time feel that all must be well."

The great orchestra and its artists come tomorrow from Grinnell, sixty-five or seventy strong. It is having one of the most successful tours in its existence. Iowa City is a favored town. We want Iowa City to continue to be favored, to be the musical center as it is the educational center of the State of Iowa. It rests now on the people of Iowa City to manifest their appreciation of the best in music, or their lack of appreciation.

FOR THE MUSIC ASSOCIATION,

C. H. WELLER

LAW'S DROP GAME

TO LIBERAL ARTS

Hackett's Poor Judegng in Last Frame From Same Away

Yesterday afternoon the liberal arts team with Kerwick and Colvin, crossing the bow box defeated the Law's with Kirk on the "ship" to T. The Law's only garnered two singles, Swab and Pritchard being the ones who connected safely. Pritchard's hit came in the first session and added to a walk and a boot by Swab produced the only Law tallies.

The L. A. scored in the third and tied the count in the fifth when Kerwick bunched safely driving in a run. More scoring in this inning was prevented by a pretty double play. Wott to Kirk. In the last half of the final frame Cobbs settled to center, went to third on two passed balls by Swab and scored when Pritchard ran on a fly ball and let it go over his head.

Score by innings:

L. A. 0 0 0 1 1 3 - 6

Laws 0 0 0 0 0 2 - 2

DENT ENGINEER CONFLICT

Owing to a conflict of class periods the dentists and the engineers were unable to play their game of baseball per schedule. By mutual agreement the date has been postponed until the end of the series. If it is necessary the game will be played then. Five more games remain in the interdepartmental series. That "Director" Schneider wishes to have finished by the end of next month in order to leave the first week of series entirely to examinations.

Beginning the season in class C, the Illinois rifle team ended the season ranking eleventh in class A.

SEASHORE SPEAKS AT CONVENTION

Dr. Carl E. Seashore of the department of psychology will be one of the principal speakers at the tenth convention of the society of Music Teachers of Iowa. His subject will be "The Measurement of Musical Talent." This is along the lines which the department of psychology has been investigating.
