The system of marking final grades is one now unpublicized by the College of Liberal Arts will be used by the College of Pharmacy hereafter. This system of grading was first used here a year ago by the University of Illinois and was introduced in Iowa through the efforts of Prof. Smith a few years ago. This system is considered by many to be the fairest system of grading. The basic idea of the system is to give a larger limit without the actual figures, so no man can possibly set an exact amount of another man's work.
