NO REDUCTIONS IN YEAR TICKET PRICES

Manager Kellogg expects to sell $1500—Now Is the Time to Buy

Approximately 1200 year athletes tickets have been sold and by the announcement made by Manager N. A. Kellogg yesterday.

"We are very dubious of selling $1500 this year," said Mr. Kellogg, "and it depends, of course entirely upon the student body. There will be no reductions made in the tickets this year. Therefore those holding them off until after several football games have been played are simply losing out."

The remaining football games will cost $4.75, which is only twice as much as the tickets sold last year will cost this year. It is believed that the athletic association made the proposition of selling tickets at two dollars last year in order that the great number of future ticket buyers will have a better chance to compete. It is not possible for the student body to be aware of the great number of students who are interested in the games this season.

W D.U.O.S. TO TALK BEFORE "Y" MIDWEEK MEETING

"I S Hydrant" is to be the subject discussed before the mid-week meeting of the Y. M. C. A. this week. Dr. G. R. Woods, of the normal school, will be the speaker. Dr. Woods is a comparatively new member of the Iowa, having arrived here last year, but in the time during which he has served the medical college he has made a host of friends and admirers.

He formerly made his home in Indianapolis, where he practiced as one of the leading physicians and surgeons. This great deal before the colleges and universities of the state on the matter of education. He is a member of the state committee of the C. M. C. and has been asked to address the international committee of the Y. M. C. A. to devote his entire time to lecturing on this subject.

The meeting will be held at the Union on Wednesday at 7:30. All students are cordially invited and asked to attend.

UNION DANCE FRIDAY NIGHT

First Event of Year for Iowa Union—Forbes' Tango Band to Play

The first dance of the season, under the direction of the Iowa Union, will be held on Friday evening. This is the announcement that was made last night, when the Union made sure of the university armory for the event. Forbes' Tango band will be the feature of the evening. Although the Union is not quite as large as in the past, the University Armory is not quite as large as in the past, the Union is now more than ever the favorite of the student body.

The meeting will be held at the Union. All students are cordially invited and asked to attend. The meeting will be held at the Union. All students are cordially invited and asked to attend.

DENNAI...:::

The man who dares waste an hour of time has not yet learned the true value of his moral life.
— Darwin.

TO IOWAN READERS
As is the case with all college and university papers, the getting of live news stories, each day in a big way. The staff of the college paper consists entirely of students. No one man can pelt all in all of his time in getting a line on the happenings of the day. All big events come under particular notice and are therefore always written up. It is the small events, the doings of some minor organizations that are difficult to get. Often the members of the editorial staff are asked why such or such an event was not written up. Nine out of ten, the news had not been brought into the office, and no one had thought to mention the item to a representative of the Daily Iowan.

Today we print for the first time the Daily Iowan staff. We ask that the student body kindly cooperate with us in getting out the paper every day. We must honestly believe all news that comes into the office. Every reporter or other member of the staff will be glad to receive any news item. If you have anything for publication, even a personal, do not hesitate to let the Daily Iowan know about it, either by telephone or by informing some member of the staff.

We particularly ask the student body to read the names appearing in the staff head, and to become informed concerning the various positions on the paper. None of these positions are secure. Each individual has added his place on the staff through competition. Others are anxious for better positions on the staff and positions are given in accordance to the work done.

CROSS COUNTRY MEN WORKING EVERY DAY

TRAINER WATSON GETTING MEN IN GOOD PHYSICAL CONDITION FOR HARD WORK

Thirty-Five Men On Course Every Afternoon at 3 P.M. - Practice

New to Work - No Rules of Try-outs Arranged

Although there has not been much concern regarding the Hawkeye Cross Country work, Trainer Jack Watson has "this outfit" on a pretty good outing with thirty-five men out every evening.

Although Captain Hartson is the only experienced man on the team, there are a number of other men making a good showing.

The light work with which Trainer Watson started out the squad is, in vague, the men are getting in good condition and it is probable that something this week will be thrown into a stride over the course.

Prospect cannot be over praised. As has been said before, practically every man is green at cross country work, and there cannot be a great deal of success the first season.

However, Trainer Watson is doing his best with the material at hand and the best possible team under the circumstances will be put in the field.

The dates of the try-outs have not been announced and the date of the field is not yet known.

COSMOPIOLITAN CLUB SPENDS SOCIAL HOUR

Chinese and Japanese Students Have Large Increase in Enrollment

This year -

The first annual social of the Cosmopolitan club was held for the new students last Saturday in the Liberal Arts dining room. About forty students were present to enjoy the program which had been prepared. Some of the students in getting the Fred Morris acquainted with another man.

Then President Tang opened the regular program by a talk describing the work and aims of the club. It was followed by a talk of Prof. Stark, the former advisor of the foreign students, who with the special advantages enjoyed by students at Iowa and other universities. Prof. Porter, the present advisor, addressed the students then welcomed them in the names of the university.

After a social hour, refreshments were served. This proved an effort to increase this year among the foreign students, especially the Chinese and the Japanese, despite the flu season. War the prospect for all-around successful year in the work is good.

There seems to be no indication around the university that the Cosmopolitan club or its foreign students will be alone, but this is not the case. American students are welcomed a well and a large number are members of the organization. We are not sure in our customs to the fair sex either as to us and Cosmopolitan club to be really successful must be composed of all classes and nationalities.

PERSONALS

Our joint friend Leeland "Pat" Morris is superintendent of the Associated Schools in Gilbert, Iowa.

Miss Ruth Bishop, ’18, spent the week-end at her home in Davenport, Saturday afternoon. Miss Wantland, head of the Home Economics department, entertained at an informal tea in honor of Miss Donovan and Miss Gourley, new instructors in the Home Economics Department.
