"Special Reservation," instead of "Sixth Prize."

It was intended merely that the

IOWA WOMAN’S CLUB

ONLY ONE KIND

(Continued from Page 1)

university students and faculty members compose the club. The membership committee composed of Mrs. Ginter, Mrs. Watman and Mrs. Frankel is anxious to get the names of the ladies who have been this fall and who are eligible to become members of the club.

The Iowa Woman’s Club holds a unique place in the social life of the university. It is the only organization in the kind in the country. It has for its purpose to promote the social life of those who have come to Iowa City with student members of their family.

The club was organized a number of years ago, developing from a social hour club, the membership of which was composed of the wives and students in the university. Mrs. Willey was the first president of the organization. At a later session, the members and students of university students in become members, and at this time the organization was named “The Iowa Woman’s Club.”

Last year the club had more than sixty members, but met one each week of the house of one of the members. Each meeting is divided into three parts: the business section, a program of interest to the members and the third part of the meeting is the social session.
