**A MATTER OF FINANCES**

When you are in need of money you are in need of your confidence, not one who has a spotted record.

Experience in saving money is necessary. You naturally consider the man who understands the principles of short time loans. We have no loans and we are not ashamed of it.

H. Tarnopol has loaned money for years. He is in the business and understands it as well as you will. If you need any money you are certain that your needs will be taken care of by H. Tarnopol and that all transactions will be absolutely confidential. Confidence has been one of the reasons for his success in lending money.

THE POWER
91.6 INCREASE
AT UNIVERSITY

IOWA SHOWS TANGIBLE INCREASE IN PAST TEN YEARS STATE REPORTS
Graduate College As Well As Others
Gets Big Boom—One-third of Students Here Come from Rural Districts of Iowa.

In the last ten years the attendance at the State University of Iowa has increased 91.6 per cent. This is shown in the biennial report of Registrar Forest C. Rigdon just made to the university and the State Board of Education.

For 1912-13 alone the total registration was a 2.5 per cent increase over the preceding year and the enrollment for the second academic year of the biennium—1913-14—represented an 11.6 per cent increase.

The report shows that during the last university year 49 men and 84 women more than thirty-five years of age were registered in the state and professional colleges. This plainly indicates that the courses of study in the university are attracting increasing numbers of mature men and women, says the report.

Every county in the state had students in the university during the last biennium and there were also undergraduates representing homes in almost every part of the state. Thirty-eight students were attracted to Iowa from foreign countries.

Almost one-third of the Iowa students came from the country as against two per cent indicated that the occupation of their parents was agricultural.
