The feature of the meeting was a paper read by President Lowell of Harvard on "Equality of Time in Education." The next part of the paper that he could not be opposed to a college course extending over two years. The man said, would make a good man more fitted to the students of the country than the Iowa man, and to the men shooting high score entertain a big delegation of Iowa students. The charts will be returned to the men shooting high score. The high scores may be enough to make the highest score registered on the yard range. The high scores were shown at the monster mass meeting on the morning of Oct. 21. The freshmen came back with a touchdown by a worse score than at home. The score of 35 yards kicked again after runs by Barron, Kerwlck and Ellingson. The freshman game cann't be taken seriously. The freshmen were the best Hawskhaws in the Midwest. The conferenr of the western intercollegiate association for women's self-government to be held at Ames, on Nov. 21. This conference is the usual meeting of the women's self-government association of the middle west.

BIG CROWD WILL GO TO AMES SAT.

Preparations are being made for the reception of Iowa students at Ames next Saturday. When games from the state colleges the Hawskhaws men and women will be quite welcome and that a score of 300 yards on the high range. The high scores of the day were made on the 600 yard range. Collier scored 142 and Truchet 123 out of six points. Some of the men showing high scores on the 600 yard range were prevented from showing because of lack of time, thus showing high scores were left incomplete.

The rapid fire work over the 200 and 300 yard ranges showed a marked improvement over the work of last week, and Lieutenant Truchet expressed himself as being especially pleased with the shooting that was made. The scores show that the men who stand highest in the gallery are the men who are doing the best work.

Lieutenant Truchet has made the announcement that hereafter, all men except last year's team members, who wish to participate in the weekly range practice must pass a (Continued from Page 2)

The city of Andover has repeatedly asked that the extension department of the university return again and stage another community institute for the benefit of the people and in the neighborhood of Andover. Owing to the numerous towns and cities of the state asking for these institutes, the extension department has just arranged a time in which it will be possible to satisfy the people of Andover. That time will be the first of January. Although definite plans are not yet made, the program will be similar to the one held there last year.

Work House is Place for Idle

House A. McCracken Lectures at Fifteenth Number Under Political Economy Dept.

Miss Annie A. McCracken of the extension department continued the meetings of the series of lectures under the auspices of the political economy and sociology last Friday afternoon at 4:45 in the liberal arts auditorium. She took up the question of housing in Lodging Houses and His Primitives. Miss McCracken spoke especially on the system of lodging houses throughout the country for the aid of the transient tramps. It was not the relief of physical condition that the system worked for but more the idea of mental aid in trying to help the tramps on the right path. She stated that there are now as many as ten of these houses open for relief and the structures range as high as $100,000 in value, this one being one of the greatest in New York City.

The evil of sending the tramps from one county to another was also brought out and a remedy to bring the work houses and posy farms into a broader work and turn some of the cases over to them. The meeting was well attended.

The next meeting will be held Nov. 13, with Associate Professor B. E. Lewis as the leader.

The freshness of Pan-Hellenic society will be held tonight at the Kappa Sigma house.

The Power
"No man ever gave the gifts to us as others gave to us."

CURLEY, RHEINGTAPPERT reiterates that this is the latest Indian move, forニュース still swimming in the taking the "soil" up the river.

To date we know of two very pro-
range sources for whereas that are be-

ing passed up. The coast has not re-

ceived all share of publicity, and there is still a great deal, to be said concerning Mary and her livelihood.

We also regret to have a call at-

tion to the missing "Oven Crew" which proved so popular last year.

Tomorrow we shall hold a bar-

tain day. We shall devote the en-

ire evening to it. This is a good-

chance to break into the town on very slight pretension. We shall print any names that come in in the matter how "good" it may be. This offer is good for one day only.

HOSPITAL NOTES

P. B. Paul has been taken ill and is worse with influenza. Our past three weeks have been a steady attempt to remove the finances available by absorption, and the effort has been successful, so successful, in fact, that there is small possibility of his being able to leave Iowa City before next Sunday.

CROSS COUNTRY MEETS
WILL BE RUN FRIDAY

Cross Country Final Tryouts which Were to Have Been Held This Week

The cross country final tryout was composed from last Saturday; the number of the members of the sound could participate at that time, and will be staged Friday afternoon instead. Mr. Proctor, Foremaster of the college of law, that it is Friday the thirteenth makes the more superstition among the candi-
dates false to the outcome. Sanders had an easy time win-
ing the freshman tryout last Sat-

day. He led the field all the way and gained a considerable lead. Hind was second and Archibald third. The squad is working hard for the tryout and after that will take things easier, no other event being scheduled until November 21, when the team goes to Evanston to partic-

ipate in the annual conference meet.

Sunday to fifteen to eighteen schools will be represented by six men teams. Iowa has ten entrants and the competition Friday will be opened to make the tryouts worthwhile. If Iowa can get an entry contender for conference honors in cross country as well as in football.

In the meet last week all old Illinois men finished ahead of the first Indiana man.

But the anxiety of the students will cease to end at the same moment for the detectives have made an authoritative announcement in regard to its appearance this night, at the mass meeting, so let no one there to get a glimpse at this "piece of wisecrack."

A MATTER OF FINANCES

When you are in need of money you must be worthy of your confidence, not one who has a spotless record. Experience in saving money is necessary. You naturally consider the man who understands the principles of short time loans.

We have money to loan and we are not out of kilter. H. Tannopol has loaned money for over 10 years. He is in the business and advertises himself as such and is an honest, reliable, and steady business man. He will get a square deal and a straight business deal from the moment you come in. In need of money you are certain that your needs will be taken care of by H. Tannopol and that all dealings in the business will be confidential. Confidence has been one of the secrets of his success in loaning money.
