THANK YOU

Iowa men who were so fortunate as to attend the Iowa-Ames football game will never have occasion to regret the trip, either because of the game or the treatment they received from the sister school. The game was all that one might desire, and no word of complaint can possibly be uttered against the hospitality of Ames. Never were fans better treated, never feeling or proper hospitality shown a visiting team. Every effort was made to show Iowa that the feeling of rivalry is just as keen an ever, but that it is the rivalry which grows out of mutual respect and kindly feelings. Next year we again have the honor of entertaining our sister school. At that time we hope to respond up to the high standard of hospitality which they have shown. In the meantime we thank you, Ames, we thank you.

LAW MAKING NEEDS SCIENTIFIC HELP

(Continued from Page One)

ed by Professor Shankbaugh.

First comes, legislative reference, which means the collection of all sorts of data and information relative to contemporary legislation. This work is already carried on in Iowa under the direction of the Law Library of the State, but great support of need is needed to make the service more effective. In the sec-

ons place, but of even greater impor-

tance, is scientific research, which "involves (1) the careful and im-

partial investigation of all the sour-

ces of information; (2) the expert in-

terpretation of all the facts; (3) the expert definition of the standards of regulation, of legislation, and of ad-

ministration; and (4) the applica-

tion of those standards of legislation and administration to existing needs and conditions. This function has been performed in recent years by the State Historical society through the publication of "Ippolito Historic Monographs." Precisely, there is great need of expert but not the legislative reformers in the world can create, the scientific research will not produce satisfactory laws if bills are written on blank slates."

MOTION PICTURES OF THE FOOTBALL SEASON

PICTURES WILL BE SHOWN IN MANY PARTS OF UNITED STATES DURING WINTER

Sioux City, Long Beach, Calif., Oklahoma City, Okla., Seattle, Wash., etc. Have Sent For Requests for the Film—More Calls Coming

Iowa alumni in every part of the United States will have an opportunity to see every big game that the last Hawkeyes team of this year has played during the season. This is the announcement made by H. M. Harvard, of the Alumni bureau of the university last evening. Already a number of requests for the motion pictures of each of these games have been made and all requests will be filled as far as possible.

The first request for the pictures comes from Robert H. Hunger, a graduate of the university at Sioux City. It is the purpose of the Sierra City S. O. U. club to show the pictures at a big booster meeting and caravan to Sioux City for the game during the Christmas vacation.

The S. O. U. clubs in Oklahoma are preparing to show the pictures in a group of towns in Iowa during the season. This will be the purpose of the Alumni bureau of the university at Sioux City.

A letter from the editor on the Hawkeyes’ first year.

The series by a signal trial other under the sheet.

The yearling varsity and the Iowa State varsity started, heavy work, too, no trouble. But we must hold them for there was then even, Hawkeyes won or just as the ball game.

The Freshmen will feel the Hawkeyes’ strength.

The ball with the lights and musk at the end. The grade gained, the final got away only a year, and looks like any more.

The heated corps began to fade and the season made in order, the grade. Competitors had made use of the center, the most offensive for the Nebraska gang on the nation. The competition is inevitable to see with any interest the game, the game, as the first base and a hit.
