Prof. A. G. Smith, who retired from the chairmanship of the University Hospital in 1908, is now residing at 400 State St., in Urbana, Ill. A recent visitor to the hospital, Dr. Smith stated that the hospital is greatly improved by the new surgical ward and the new hospital building, and that the patients are much more comfortable and better cared for than in the old hospital. Dr. Smith has been a valued member of the medical profession for many years and has done much to advance the cause of medicine in this community. He is a man of warm heart and kindly spirit, and his presence in this community has been a blessing to many.

Candidates for Degrees at the Nineteen

Under the rules of the university, candidates for degrees must present certain fixed requirements by or 95 semester hours, respectively, for instruction for hygiene and military or physical training.

Liberal Arts Credit for courses in the Colleges of Law, Medicine, Homoeopathic Medicine and Dentistry.

The following provisions were adopted by the faculty of the college of liberal arts on November 11th: No credit for courses in the college of liberal arts shall be officially classified as sophomore, junior or senior until he shall have a record of at least 35 semester hours, 50 semester hours, or 80 semester hours, respectively, for instruction for hygiene and military or physical training.

MRS. WHITMORE, Jane Brown.

L. R. FAIRALL, H. E. WEBB

From various colleges and universities all over the country the undergraduates as a body, are doing much to help the sufferers of the European war. At Princeton, for example, the students are required to be collecting clothing and rolling bandages. At Yale there has been public meetings and collections have been made for the Red Cross society.

We believe that it is better late than never to do something along this line. We believe that the State University should do something along this line and we follow out the example set by the people of this state. There are a number of organizations in the university that could inaugurate a movement along this line, and once started we are confident that the student body would heartily respond.

TRUE ease in evening clothes comes from art, not chance. Ease is a matter of comfort—of being conscious that you are looking your best. The man who "looks well in a dress suit" is not necessarily tall or short, stout or slender, young or mature. His clothes simply fit him, and because they fit they look good and because they look good he feels good.
