HAWKEYES EASILY DEFEAT TEACHERS

KEATS' MEN DISPLAY BRILLIANT TEAM-WORK AND WIN

44 to 16.

Kentwick, Von Luchow, and Stan- dick are individual stars for Iowa Game was Roughly Played and Frequent Foul Calls Were Made.

With a deadly display of basket churning and brilliant team-work in the first half, Iowa over the hapless stiff team from the State Teach- ers colleges of the feet on the arm-

Kirksey, Von Luchow, and Stan- way first half, and easily defended by a score of 44 to 16. Kirksey, Von Luchow, and Stan- dick were outstanding defensive players in the game. Kirksey, Von Luchow, and Stan-dick were outstanding defensive players in the game.

At the meeting of the Baccio- nian club Friday evening Professor H. R. McDonald gave a lecture on "Faraday's Law of Induction." Professor Ford gave a brief history of electric waves and their properties, emphasizing their iden-

HUMANITY SOCIETY MEET.

The Humanity Society will meet in the house of Dr. and Mrs. R. H. Volland.

The meeting was changed from Tuesday evening so as to avoid conflict with the Monday evening meeting of the English club.

Lope Mateo.

Mr. Jonas Rubenstein will speak at the Literary Luncheon in the first place, Thursday evening at 5:45.

January 20, 1915.

HAKE AIRCRAFT QUESTIONS

Throughout the year there have been many questions concerning the possibility of biological aircraft. The results of various experiments have been reported in the scientific literature, but none of these experiments has been sufficiently conclusive to warrant serious consideration. Theoretical investigations have suggested possible solutions, but these solutions have not been confirmed by experimental evidence.

In view of these uncertainties, it is desirable to investigate the problem further. The Department of Aeronautics is now conducting experiments to determine the feasibility of biological aircraft. These experiments will be carried out under the supervision of Professor Rubenstein.

PHOTOPOSTER VOTED FOR SHORTCUT.

Waiting for Selection of New Members of Cast. Miss Sullivan's Class.

The Photographic Club meets.

The club meeting was held Monday evening in the University Auditorium. The meeting was well attended and the program was enjoyed by all members.

DECEMBER, 1914.

BOGRAPHY.

Miss Sullivan's Class.

The photography class met Monday evening in the University Auditorium.

Miss Sullivan's Class.

The meeting was well attended and the program was enjoyed by all members.
Energy will do Anything that can be done in this world, and no circumstances, no opportunities will make a man without it. Get the idea impressed in your cranium that you can do as well as your competitor, then prove it. Always remembering—

**PECONUT CRISP**

*The Real Food Candy*

Speaking of energy—Peconut never suffers the stream of your energies to cease and stagnate. It stimulates interest, prods the laggard, spurs the incompetent, stimulates the small to be great and the great to be greater. Keep Peconut around—it drives away dull care, sends a stream of cheerfulness thro' your system continuously. This toothsome, tasty mufﬁn is made from Virginia's finest peanuts and milky-white grated coconut, cooked in streaming, stealing pure cake syrup. Two large, wholesome bars wrapped in wax paper and sealed in dust and gum proof box and sold without comment at 5c.

**THE POWER**

*"As you were doing, so will you do" (Matt. 6:34)*

*Curly Helenflippin says i t when she remarks that one can never completely inﬂuence a man for the exercise he bears so soon after Christmas.*

**FASHION NOTES.**

*The gillie that we used to know were mighty that name to-gether or so.

But now the really stirring sorts, were shirts and things that ﬂare like this.

**WATCH YOUR STEP.**

*“Trade me a dancer?”*

*“Sorry, old man, but I won’t. You may full now.”*

**WHEAT GOT OFF CHEAP.**

*“Wheat Dope About Two Cents.”* —Headline.

We know several that have stopped a blazed sight more lately.

**A RAL STATEMENT.**

One studying Economics is a picture of packing his hair in the middle.

We are in excess of an inquiry as to when the faculty number is coming out. We don’t know. Ask your Prof. —T.

**NEED MORE HE SAID?**

*Washing advertises a motherly cause in the army.*

—T.

We predict a large crowd and recommend it to the Iowa Union as an excellent money maker.

We may start a new poetry section calling it WEBER AND WEBER. Not that we’re German sympathizers but because it would be so apposite to the situation.

—T.

A word from the wise—One Prof. says that if instead of these scientists turning their attention to pocket wireless apparatus they would try to perfect a pocket ornithoscope they would save the exasperating chaff of these “Dog’s” that enjoy an occasional (?) sight out.

—T.

**MORE PHEASANT STUFF.**

Prof. Wasanm catered on a lecture tour.

—T.

Mr. Wasmann is home from a lecture tour.

—T.

Attention of make-up man. Automate these.

—T.

It is also rumored that with all due respect to prohibitions, more such come in more than in oct.

—T.

ATKINSON LEADS HOMESTEAD SPEAKERSHIP

FORUM OFI FOOTBALL STAR

HONORED AT MEMORIAL DAY CELEBRATION.

Clarkeville Man, Graduate of 1900

Low Class of University—Lee

Elwood of Howard county, also

N. L. E. Man Pre Par To Teach.

Another Iowa graduate has come to the fore in the political sphere of Homestead. Stanley Atkinson, the

Clarkeville Man, is a graduate of 1900

who has brought renown to himself and his alma mater. Yesterday afternoon

the cause of the republicans met

the home of the branch of the state legislature upon Atkinson as their candidate for the house seat

The position of Atkinson in the legislature, as the republicans are in control of the council by a big

majority, seems to indicate that the

Clarkeville Man will prevail over the house during the coming session.

Atkinson won out after an interest-

ing contest with Dr. R. C. Walker. He

was accorded a big vote in the caucus and thus displayed

his popularity among his fellow

legislators. His selection as speak-

er adds another to the long list of

honors which have been ac-

claimed upon graduates of the

former students.

Mr. Atkinson of “Bill” as he is

better known, graduated from the

University of Iowa in 1900. He

was a fit man in school and has a

big acquaintance. He is now serving his third term at Des Moines.

Lee W. Elwood of Howard county,

another Iowa graduate, was also

honored by the republican caucus.

He was selected as speaker pro

tem of the council. Elwood was

graduated from the school of the

university in the class of 1909.

NEW ADDBITIONS TO ELECTRONIC DEPARTMENT.

New Switch Board and Wireless Apparatus Features this Year.

—Increase in Enrollment.

Some very remarkable additions have been recently made to the laboratories of the electrical engineering department. One of the features which is attracting attention is the latest installation of a new wireless apparatus. This new apparatus is now being tested. A switchboard covering two sides of a large room at the basement of the 29th street building, the features which make it so much less in size than the apparatus has recently been acquired. The switchboard will augment the facilities already available and demonstrate many new points to the students in the electrical engineering department. One of the outstanding features of this installation is the fact that it is the first of its kind in the history of the university. The apparatus now available makes the department the one most advanced in the country and adds still further to the already large reputation of the University of Iowa. The wireless set has proven to be a conductor of interest and attraction to the students.

IOWA STANDS FIRM WITH NEIGHBOR—US.

Three Larger Universities Lose in Enrollment—Interesting Data Found

Iowa is holding her own when it

comes to number of students enrolled this year and is doing herself proud when she takes into consider-

ation that Minklow, Yale, and

Pittsburgh, all larger universities

fell a long way down the ladder.

While Iowa does not stand high in the rankings of the universities in the West

as so much as she is glorying in the growth of two large schools, Amana and Forest,

which put together would make a

notable standing.

The summer sessions which are

a comparatively new thing in the

universities are said to be one reason

for the drop in the enrollments.

It is interesting fact has come to the

public when it was found that an

university last year almost quivered

more than 100, against four last year, tending to bear out the theory

that colleges have, large increases

during times when economic condi-

tions are bad.

YEAR LAW STUDIES

HAVE ONE EXAMINATION.

Dean McCallum Announces that Law Students to be Given More Time for Study.

Dean McCallum of the law school has made the announcement that there will be no

first semester examinations for fall semester beginning this coming semester ending.

The plan is not a new one in the

minds of the college faculty members

and has been called a real

change for the better. The plans are to continue the system

until the faculty see fit to change.

The reasons for this new plan are

that law students have been

angry and told to respect them

in much the last in so much as

they do not have any real signifi-

cance in the grade of the student.

The change in the way of the

time will be beneficial to the

students and it is be-

lieved much more benefit could be

realized in allowing the student the

time for study.

LATIN CLUB MEETING

The Latin Club, with the help of two new members, will hold its regular meeting in the Latin Library on

Jan. 21st. The program will

be interesting to all of the students.

Cassar, T. Lucretius, Carpe,
