HAWKEYE HOPE TO ANNEX TWO GAMES

Coach Kent sending men through hard school—much improvement is shown in basket shooting and central all around play.

Coach Kent is sending his basketball team through hard school work to prepare him for the hard contests of the coming week. On Tuesday night the Hawkeyes will take on Ohio State on the court floor, while on the following Saturday they will face Minnesota. The old Iowa news has summoned to hand with both of these games and thus been their conferences standing.

The men are showing much improvement through hard work, and they are sure to win both games of the tournament.

The Iowa team has always been good on the defensive and have looked forward to a great offensive game. But their lack of height to build up a scoring machine wasn't true this time. The game was really not different than usual.

Coach Kent declared that in their present form the Hawkeyes have more than an even chance to defeat both Ohio State and Minnesota next week. Both games will be hard battles, and should prove as thrilling as the other games on the university floor thus far this season. The same line-up that has been started in previous games against the Big Ten, with the possible exception of Kervin, who is starting an all-star with Garst for the point job. Either one may start next week.

IOWA CITY STUDENTS

SCHOLARSHIPS TO CALIFORNIA

Ransom Goodliff of Marion, a former student in the college of applied science, passed away yesterday morning (Friday) at 4:45 in the hospital after a few days illness. He was on a business trip, and he was connected with the company for many years, but a few days ago when he was removed to the hospital, he was never expected to live a day. His family, who are in the city for the funeral, and his father, who is a commercial traveler, could not be notified in time for him to reach the city before his son's funeral. His name is still fresh in the minds of many, and his death has been a great sorrow to his family.

JOHN M. THOMPSON, a graduate of the college of law, has recently been made a member of the Iowa State faculty at Denver University. He will give courses in the fields of political science and public administration, which he has recently been added to the curriculum of that college. His appointment is a good one for the college, and a good one for the college of law.

GAYE GRADUATES BECOME MEMBERS OF OCE FACULTY

Pauline LeRoux, a graduate of the college of law, has recently been appointed to the faculty of the school of law at the University of California. She will give courses in the fields of constitutional law and public administration, which she has recently been added to the curriculum of that college. Her appointment is a good one for the college, and a good one for the college of law.

day's great gold rush. These picturesque and vividly imagined pilgrimages that commenced with the Spanish-Indian wars continued with the journey of the pioneers over the great plains and the mountains of our west, in the days of ’49, and concluded with the terrible rush to the Klondike or the selling over seas to the Arctic shores of Nome.

In proving the "prophecies" for this stage that runs hundreds of miles up and down the Pacific coast from Washington to Alaska, it was necessary to charter vessels for voyages. The steamships, "Ohio" and "Santa Maria," were engaged for this service, and half a hundred vessels were leased to give life to the foreground or background of the water scenes. Special railway trains were secured; locomotives were handled to serve the desperate venture of strong men fighting with every energy and resource to take their own possessions from their oppressors. In some scenes of the play hundreds of people were employed, and the landing at Nome is remarkable for its showing of types, as the famed songs "Constitutional" over which spread the emblems of national
