RATLING PROSPECTS PARTICULARLY BRIGHT

The wrestling team is preparing for a major tournament, and the prospects for success are good. The team has been practicing hard and is looking forward to the upcoming matches. The women's wrestling team is also expected to perform well, and the dual meets with nearby colleges are being eagerly anticipated by fans.
I'm... D. R. Brown, medicine sources, we venture to say that the men and women large majority of students here are many who are making their entire, or physics lecture room Friday evening conserve his money. The class has learned to save, or rather son of the is an art, but a still greater art is to save money. The majority of a person has been equally successful the business world? We believe that success is the most good. Their judgment to choose that which is good, and er and woman today? Practically everyone of this latter the square. He has learned of that amount, by virtue of the official training. Entering the business world the individual is advanced easily upon his worth, and his worth is determined by the most critical judge. The individual must have a certain amount of training in the school of experience. The student who works his way, who depends upon himself, has had that training in experience. The rate he has had at the time of his view in college will get this experience after he got through, and it is much harder to be relearned to fundamental practical business principles and to recognize the simple but certain rule that a pawned money is a penal earned.
