EDUCATION SUBJECT AT TRINITY CHURCH

TRUE MEANING OF EDUCATION

The topic of education is of great importance in today's world. The true meaning of education goes beyond merely learning facts and figures. It encompasses the development of the whole person - intellectual, emotional, physical, and social. Education is not just about accumulating knowledge, but about fostering critical thinking, creativity, and problem-solving skills.

The following quotes highlight the importance of education:

- "Education is not the learning of facts, but the training of the mind to think." - John Dewey
- "We must learn to think for ourselves, change for ourselves, cease for ourselves." - Albert Einstein
- "The function of education is to teach one to think intensively and to think critically." - John Dewey
- "Education is an instruction, not a灌.." - William James

In conclusion, education is a fundamental aspect of human development and enables individuals to become contributing members of society.
Official Notices

Notices intended for this column must be signed by a responsible person and must be in the office of the University Editor, A. L. Baud, Building Room 211, by 4:00 p.m. of the day preceding the day for publication.

The literary club will meet on Tuesday evening with Miss Barker, 210 North Long. The program will consist of a paper on "What the Library Should Be to Its Municipal Departments and Business Men" by Mr. James Holbrook, a book reviewer for "For Library News" by Miss severe.

V. ANTOINE, Vice-President.

A Remington-Made Typewriter

For Every Taste  For Every Need  For Every Purpose

There never has been such a typewriter line. For completeness and comprehensiveness, it is hard to see how this line can ever have a rival.

WHATEVER the need of the type writer user, whatever the purpose for which he intends to use the machine, whatever his preference for one form of construction over another, there is bound to be some typewriter in the great Remington line that will suit his purpose—his every purpose—better than any other machine.

It matters not what purpose—whether straightforward writing or any variety of special work, including writing, adding and subtracting—there is always a Remington-made machine that exactly fits the need. Variety endless, but only one standard of quality—THE BEST.
