LEADING HIGH SCHOOLS

BATTLE FOR STATE TITLE
Eight Basketball Quintets Here To Start Annual Championship Race This Afternoon-- Ottumwa And Clinton Favorites

AFTERNOON SCHEDULE
3:30--Red Oak vs. Council
3:30--Davenport vs. Marshalltown
3:30--Ottumwa vs. Jefferson.

With five of the high school bas-
ketball five which will battle for the same title today and tomorrow in the city at the Clinton three scheduled to arrive during the normal hour, interest in the an-
ual championship tournament is at its peak and every indication points to the most successful tournament the local authorities have ever held. The first game will start at 3:30 for state honors, will be at 4:30, which afternoon and simultane-
ously Clinton and Ottumwa will take the floor for the first meet.

Every university student is ex-
picted to do his utmost to give the season its most brilliant climax, and all of the teams will be housed at the fraternity chapters. Large delegations of high school, will arrive in the city this morning to cheer their favorites on to basket-
ball honors.

The teams, which will compose the tournament are, Clinton, Ottu-
wa, Council, Davenport, Ottumwa, Red Oak, Jefferson and Marshall-
town. Five of these teams were pre-
determined in last year's title tilt in- cluding Clinton, Ottumwa, Fort Daven-
port and Davenport. Cedar Rapids was the champion of 1914.

Ottumwa and Clinton are expec-
ted to furnish the entourage in the final championship game of the tour-
nament. Both teams are uncondi-
tionally strong and seem to stand out head and shoulders above the other.

Jefferson was defeated by P. I. Dodge in the district games and is there-
fore not seriously considered as a candidate, while Ottumwa seems to have successfully eliminated Daven-
port by decisively defeating the lat-
ter in the district tournament, 24 to
17. Four of these teams were pre-
determined in last year's tilt titles, in- cluding Clinton, Ottumwa, Fort Daven-
port and Davenport. Cedar Rapids was the champion of 1914.

**WRESTLERS LEAVE FOR TRAINING MEET**

Iowa Mat Men Will Clash With Pro

Due Tomorrow at Lafayette, Indiana

Six husky Hawkeye grapplers leave this morning for Lafayette, Ind., where tomorrow afternoon they will face the Purdue University wrestlers. It will be the first meet of the year for Iowa mat artists and it will furnish better supports. A chance to get a line on the meet is the reason that director Frederickson has built up the latter. The meet will considerably exceed the usual.

Crown Grappler will attempt to wrest the laurels from Purdue in the lightweight division; Stimson in the lightweight division; Hemming in the lightweight; Gickboff in the middleweights: Tripule in the middleweight; and Batter in the heavyweight division.

Changes appear good for at least two conferences championship this year. Crown is looked upon as certain to retain its crown, while Kock about has been making great form. Crown Grappler is expected to give any other lightweight opposition a serious battle for the championship.

The Hawkeyes will have Sunday and will meet Nebraska grapplers on the local mat March 27. Every man on the team left this morning in the best of condition. The Iowa has arranged to get the returns from the Purdue match immediately upon its completion tomorrow.

FOR RENT—Furnished room with lighted and heated, near the university. Phone 1203.

ENGINEERING IN IOWA
BY IRVING B. BRANT

The kind of engineer a man is, his means and methods depend upon the degree to which he possesses the natural qualities of an engineer, and partly upon the way these qualities are developed in his education.

Since the success of the engineer in practice depends directly upon his training, it is obvious that he must make sure that his education is of the right sort. He must demand certain elements of strength in his engineering school, and in particular the following:

First and foremost, strong men for instructors.

Individual attention from the faculty.

Complete equipment for work.

Opportunity to mingle with men of varied professions.

A spirit of loyalty, enthusiasm, and honesty.

It is with particular reference to the above qualifications that this article is written concerning the Engineering College of the University of Iowa.

THE ENGINEERING FACULTY

The engineering faculty of the University of Iowa is the college faculty that is in the foreground, the one that meets the student body, who determine the grade of work carried on by an engineering school, more than it is determined by any other factor.

The Engineering Colleges of the University of Iowa is rich in its material equipment. It is equipped with two mammoth stone buildings, with extensive and thoroughly equipped shops and laboratories in maintenance, but it is richest of all in its faculty.

The heads of the various departments are chosen as their ability for teaching, and their character as men. All of the professors of the engineering faculty, are a bulk more of the heads of departments in Liberal Arts, known throughout the United States for the standing of their students and science.

The engineering faculty consists exclusively of members of the engineering faculty, and their character as men. All of the professors of the engineering faculty, are a bulk more of the heads of departments in Liberal Arts, known throughout the United States for the standing of their students and science.

The engineering faculty consists exclusively of members of the engineering faculty, and their character as men. All of the professors of the engineering faculty, are a bulk more of the heads of departments in Liberal Arts, known throughout the United States for the standing of their students and science.

The engineering faculty is a whole of the heads of departments in Liberal Arts, known throughout the United States for the standing of their students and science.

PROF. HILL

The value of strong men

It is not often said that an engineer is more than a mechanical
engineer. The engineer is more than a man, and designed a
researcher. He has made an
important contribution to the science of
internal combustion engines.

In 1885, Professor Fleming erected a
wood-working machine in the University
of Iowa stronger than in
any other institution.

At a meeting of
the American Society of Civil Engineers,
Professor Fleming was introduced
as an expert on gasoline engines, and has
been called an
expert on gasoline engines, and has
been called the
expert for various purposes.

Professor Fleming has written
a number of
books on the
same subject.

“There Never Was a Coed in the Engineering School,” Riley and chorus.

“That’s the Reason I Want You,” Wills and chorus.

“The Bench from Old Iowa,” Wills, cast and chorus.

Between the acts—Iowa City Talkative Trio, Captain Shadrach, Captain Sparks and Colonel Hands. Act II—Same place, the next morning.

“More Jack, cast.

“Will I Be to Get Back Sooner,” Riley.

“Old Gold for you and Me,” Wills and chorus.

Epilogue—Same place as the prologue, a few hours later.

“A Night in Dreamland,” Coffee.

“Finals,” All.

Note—The show is not over at the end of the second act.

**THE THEATRE ENTERTAINMENT**

PL-Beta Phi, organized as a final dinner party Wednesday evening, was at the chapter house in honor of Alumni Jean Richards, Florence Blackmore, Meriel Roberts, Anna Widgoff and Elena Detlys. The dance tickets were in accordance with St. Patrick’s Day and the affair was very successful.

On Monday evening the Beta Phi held initiation exercises for Gracie Marie Swidn of Dubuque, Iowa. At the close of the ritual a “soddie-shirt” was held in which a number of the alumni participated.

**NEW PAN-HELLENIC BELLE**

At a meeting of the girls’ local Pan-Hellenic the following rules were passed. All requiring inviting any expense shall be assigned upon petition, subject to the discretion of alumnae or parents shall be abolished with the exception of two parties by each member to be held before January 1. The number of freshman girls at those parties shall be unlimited.
