STUDY IN JOSEPHUS AT HUMANIST MEET

The meeting of the Humanist society was held last evening at the home of President W. A. Schnable.

The discussion centered around the question of Josephus, a first-century Jewish writer, and his role in the development of early Christianity.

Cuts Half the Labor
Cuts All the Leaks

The way to cut out your accounting worries is to use the

Remington
Adding and Subtracting Typewriter
(Wahl Adding Mechanism)

This machine cuts half the labor by combining two operations, writing and adding, in one.

It cuts all the leaks by cutting all the errors. The machine itself is error proof and it spots any errors made by others. As a mechanical check, it is perfect.

Either one of these things makes the Remington Adding and Subtracting Typewriter worth many times its cost to you. And remember that the range of this machine covers billing work, statement work—any kind of work where writing and adding are done on the same page.

A demonstration, on your work, will be given on your request—no obligation involved. Send for our illustrated booklet, "The New Remington Idea."

(Continued from page two.)
defensive game, is big and fast and handles himself well. In the opinion of not only the men making the selection, but other experts as well, he is the best standing guard in the state. He plays his position well and occasionally finds time to slip down the floor for points. He outplayed every man he opposed this season and there is no guard in the state that is his equal. It was hard to decide between Sumner of Ottowa and McElroy of Port. Dodge, Sumner was finally given the place because of his scoring production, speed and wonderful defensive work. One of the deciding factors against McElroy was his small size and also in his inclinations to become big-headed. Sumner plays a great guarding game and was a big factor in the success of the Ottowa five.

The above quotient would not only comprise a great scoring mechanism, but is capable of playing wonderful defensive game. Kelly is a remarkable floor-shooter and could take care of that department in the state, but Ritter and Remington are by all odds the best forwards in the state. Ritter and Remington are the four men that are adept to tossing baskets. Kelly by reason of his dangling work against the other teams is given the great position, while McElroy and Reeman are granted the guard positions because of their all-round general defensive work. McElroy was given the cap-tainty of the second team because of his spirit and "pay.

Paige and Wright lead the other forwards for the positions on the third five. The latter was unable to display his true ability here because he was with a weak team, but playing on a team with four other men of his own ability he would pull up a great game. Paige is also a star and aside with buckets with ease. He is also given the captaincy. Next to Brinkis and Kline, Christie is the best center in the state according to the experts. His combined speed and skill with basket-shooting ability and is a good point-getter besides playing a great defensive game. Morrissey and Arneil are the new best guards and choices for the third squad.
