**LEEFEVRE CONTEST WON BY KROEGER**

"Wendell Phillips" is Title of Winning Ovation of Annual Meet

On Tuesday March 31st, the fresh man oriental contest for the names of the Iowa State College was given a new lease of life when Mrs. Anna Leefevre, of this city, held the grand prize of $100 for the name which was the most original and distinctive and the most suitable for a fresh man oriental. The contest was conducted in connection with the annual meet, and the prize was awarded to "Wendell Phillips" of the Iowa State College. The name "Wendell Phillips" was selected by a committee of judges composed of Dr. J. T. W. H. Smith, George W. Smith, and George W. Smith.

DEAN OF WOMEN TOURS HOLLAND

MISS ANNA KILGENHAGEN WIS VISITS UNIVERSITY OF IOWA IN CONFERENCE

Leave Saturday night, sailing April 12 from New York on the Noma
dnia for Rotterdam—Attend Important Meeting

It was announced at the university this week that Miss Anna Klin
genhagen, head of women's work at the University of Iowa, will repre
sent the school at the peace conference, to be held in Holly
land during the last week of April and called by the women of Holly
land under Queen Wilhelmina.

Representatives, all of them wom
en, of educational institutions from throughout the world will be there to
consider a large number of plans looking to the securing of peace among
the warring nations of Eu
rope.

From among the plans sug
gested one is to be adopted and de
deployed by the women of the
earning peace.

Miss Kilgenhagen leaves Iowa
City Saturday night, sailing from New York the following day on the
ramp Noma April 12. The voyage will be a happy one, the prop
er conditions of the English chan
nel, for one thing, banding together the trip several days. Miss Klin
genhagen has been promised assurance that the boat will probably dock at
Holland April 15.

The dean has not yet decided where she will go from Holland to meet the
peace conference but her passports give her access to England, Ger
many and France. She announces, however, that it is her intention to
return to Iowa City for the biennial meet
ing of the Iowa Federation of Women's Clubs, hence her stay abroad
must of necessity be short.

Dr. Aurner's Work Receives Praise

Dr. Aurner, of the educational de
partment, was recently praised by E. Winslow in an article in the en
hancement number of the "Journal of Education," for his recently publish
ed "History of Education in Iowa." Mr. Winslow expressed his opinion of Dr. Aurner's work in part as fol
ows:

"No other state has so complete an
description and up-to-date history of
its state education as is the great work of
Dr. Aurner. Massachusetts, New York and Pennsylvania have been
brilliant educational leaders, but their records were closed, so to say,
about 1860. Before that time, while Dr. Aurner's history is not closed, it is
complete through 1912. Of course, Iowa's educational history is very
imperfect as compared with that of Massachusetts, New York or Penn
sylvania. It would take many vol
umes to do justice to this work of
one of whose authors Dr. Aurner has
done for Iowa, but he has achieved
something never before thought of
by any other state."

The "History of Education in
Iowa," by Clarence Ray Aurner, con
sists of two volumes of 416 and 268
pages respectively. It is published
by the State Historical society.

ANNIVERSARIES IN STEAL ON ELKINS

Y.M.C.A RECITALS PLANNED FOR

EXCEPTIONAL FINE PROGRAM FOR 1915-16 Plannned—Excitement and In ROCs; Among Three Big Events

For next season the Y. M. C. A.
Advisory Board has arranged an ex
ceptional fine season of concert
performers for the local audience.

The season will open in Novem
ber by Paul Althouse who is the
coming leader of the Metropolitan
Opera Company and who is not tak
ing the leading tenor role in "Tha
issius and "Madame Sans

First he will be followed early in
January by Mr. and Mrs. Davi
Damrosch, violinist and pianist. Mrs. Mo
er was Clara Damrosch, sister of Walter Danrosch, director of the
New York Symphony Orchestra. The ensemble playing of Mr. and Mrs.
Mo
er is spoken of only in super
lative terms by the New York Wash
ington, and Boston press and in fact by all the papers in the larger citi
es.

In February patrons are to hear again the Equitable Singing Quartet
which so thoroughly delighted the audiences that heard them this pas
t season.

The last concert will be given in
March by the New York Symphony
Orchestra under the leadership of the
famous conductor, Otto Wagner, who is a
member of the Strauss Family. It is expec
ted that the orchestra will be in the pio
terior of some of the leading com
posers of the country, among whom
are Mahler, R Strauss and Bruckner. It is hoped that the events of the season

C. E. BORGADGE Proprietor and Manager
Drake Relay of Big Interest Now

Everything of interest in track circles throughout the Big Nine, and elsewhere for that matter, is now centered in the Drake relay which takes place at Hatch's Field in Des Moines, under the direction of Drake University April 11. A recent report from Iowa City is to the point, while at the same time it was learned yesterday that Kansas university had notified the Drake management that it would center its efforts this year in the four-mile relay. The work of the Kansas team in the indoor meet with Missouri in convention hall, Kansas City, is responsible probably for this announcement.

FOOTBALL AT KANSAS

Herman Olson, of Utah, was elect to coach the 1915 Jackson football team by the Board of Administration this morning, following a recommendation by William C. Hamilton, athletic manager. Olson was picked by memory as 20, athletic, and only after Manager Hamilton had discussed the matter at length with the Athletic Board and Q.A. Team came. The contract runs for three years, and requires the new coach to devote his entire time during 10 weeks to the training of the team.

Dean Raymond Tells of Expenses

The public, which has so generously supported the efforts of the Y.M.C.A. advisory board in encouraging musical instrument by furnishing instruments of a high grade given by the leading manufacturers of the country, is perhaps entitled to know what is done with the money that is contributed for this purpose, according to a statement made by Dean Raymond yesterday

The work has been done now for seasons and such artists as Daniel Smith, Fritz Kreisler, Adolph Bolander, Gerhardt Allen, William Steinberg, Adolph Busch, Charles Milller and Evan Williams have been heard with many others.

The first season the board lost $150, according to the same. The second season this was recovered and $150 profit was made. The third season a profit of $50 was made. The fourth season there was a loss of $250, and the fifth season a loss of about $100, and the sixth season just closed there was a profit of $126 as that the board stands just even for six seasons. The foregoing states the odd amounts and there are, as a matter of fact, $140 carried at a balance for next year.

The board had two objects in view in establishing this series of musical concerts, says Dean Raymond; first, to furnish high grade scales for the city and in devoting a line for one of the higher arts; and second, to disburse as indigences of the Y.M.C.A. in the community. It was not expected to make very much money in any season as it was intended to put mostly all of the money that was received into the concerts that there might be of it high character as the common people seemed to have been signed. The advisory board hoped that there would be a slight surplus each year which would gradually discharge the debt. The board will expect that the patronage of future years will justify the undertaking and that the loss of good stands will be more and more developed and the small debt of the association gradually reduced.

Baseball at Mines

Minneapolis-Work on five new baseball diamonds north of the gymnasium will be begun shortly. One of those will be given over to intramurally and the five will be used for the inter-fraternity baseball league, one to the intramural league, and the remaining three to the Inter-class teams.

University Men at Conventions

Dr. Henry Allen, Dr. A. L. Quay and Dr. C. E. Novy, of the department of physiology and bacteriology at the state university attended the annual meetings of the American Association of Pathologists and Bacteriologists, the American Association for Cancer Research and the International Association of Medical Museums which were held at St. Louis, April 1-2 and 3.

Dr. Albert presented a paper on "Chordoma with a Report of a Case" before the Association of Pathologists and a paper on "The Microscopic Preparations in the Study of Pathology" before the American Association of Microscopists. Dr. Novy presented a paper on "Gangs at the Bowl of the Skull" before the association of pathologists, and two reports on "Methods of Preserving Specimens in their Natural Color" and "Measuring Specimens for Permanent Preservation" before the museum association.

DAILY IOWA RECEIVES INTERESTING ACCOUNT OF PREPARATIONS IN CANADA

Of Interest Here Owing to Fact That C. H. Howard of the Iowa Medical College is Budapest in Personal of Party

(Ths following was received late Monday morning from Montreal, Canada, from the McGill Daily:

Several important preparations in connection with the McGill General Hospital, its training and departure were made last evening by Colonel Strickland of the Expeditionary Force. For Kilkenny has been promised in the rank of Colonel, commanding the Hospital which has been enlarged to 1,000 beds, with a personnel of thirty-six officers, including two dentists. These appointments have all been made and the beds are now railed. Only the very best of several hundred students are being taken—both physically and technically. An order has been received from the Elementary and Melita headquarters to the effect that any one found unfit on medical inspection England will be sent back to Canada at the expense of the individual examiner. Students from the five medical schools in London have been sworn in and have received their uniforms. On Thursday, April 4, the men will go into barracks at St. Mary's hospital, now known as St. George's hospital, and now in readiness to receive the men and women who will sleep and eat in the barracks.

B. H. Harper, of Canada, will inspect the unit until June 20th of the week of April the 14th. Professor Lewis and Professor Macdonald are now in the country and are taking charge of the medical unit which will begin training company next fall. The men in charge have been greatly disappointed in the result of their attempts to create a new unit at the expense of the military.

If there is any man in the State who has not yet heard of the unit which will be formed in the fall, he is probably not a reader of the IOWA CITY Press. This unit will be composed of two companies, each of which will consist of 150 men. The captain of the company of the first year men, and the captain of the company of the second year men, will be appointed from the officers of the unit. The men in charge have been greatly disappointed in the result of their attempts to create a new unit at the expense of the military.

We are sorry that some of our present captains have the wrong idea that they can operate their unit and make it a success because they are in the unit. This work is voluntary on the part of the captains and is to be done by all of the men who are in the unit. If there is any man in the State who has not yet heard of the unit which will be formed in the fall, he is probably not a reader of the IOWA CITY PRESS. This unit will be composed of two companies, each of which will consist of 150 men. The captain of the company of the first year men, and the captain of the company of the second year men, will be appointed from the officers of the unit. The men in charge have been greatly disappointed in the result of their attempts to create a new unit at the expense of the military.
