Iowa Gained 12 Per Cent In Registration During Fast Year—1996 Students

SPORTS WRITE

Iowa gained 12 per cent in registration during fast year—1996 students.

The actual total for student registration, 3,277.

For last year the registration was.

The registrar and those who have worked with the admissions department believe that the Registration is the best ever in Iowa's history.

The 3,277 students represent a net increase of 373, or 12 per cent, over last year's total.

Since the registration at Iowa is not kept on a regular schedule, the registrar does not expect the registration to reach the level of 3,000 students until next year.

The registrar has predicted that the registration will continue to rise for the next few years, and that the total for 1996 will be around 3,300.

They had a field of not less than 40 miles of running and forty-five on one day alone. The track is not equal to the abilities of the many men added to the track. The track was one of the most magnificent in the world. The races were run on the other day at Cooks Field, near New Barg, near the City. The races were run on a course of about one mile.
