Jane Addams is Chairman

American Women to be Head of World Peace Conference

Dr. Addams is to head the American delegation to the World Peace Conference at the Hague this fall. Miss Jane Addams, noted woman worker for peace, will be head of the American delegates at the peace conference in The Hague.

Miss Addams was chosen by the council of women in America to be the American delegation to the peace conference.

Jane Addams was a delegate to the international peace conference in The Hague. She was also a delegate to the conference in Paris. She is a member of the American Women's Peace Federation.

The American delegation will consist of 150 women, including 100 delegates and 50 alternate delegates.

CULTURE AND VOCATION

BY SPECTATOR

I wonder how many students realize that, within the last few years, the professors and officials of the State University have shifted an Atlas from the shoulders of the student body. That this is no empty boast is proved by two or more instances of this year's experience. The university has become aware that a great deal of student labor is being wasted, and that the waste is due in a large part to the irregularity in the work of the students. The university has also realized that the students are not getting enough out of their time, and that the lack of organized work is making it impossible for them to get the best results.

The university has taken this situation in hand, and is now engaged in the task of straightening out the work of the students. This is being done by the establishment of a system of class work, which will be carried on by the professors and officials. The system will be based on the principle that each student should be given the work which he can do best, and that he should be given enough work to keep him busy. The system will also be based on the principle that each student should be given enough time to study, and that he should be given enough time to think. The system will be carried on by the professors and officials, and will be supervised by the president of the university.

The system will be carried on in the following way: The professors and officials will meet together and decide what work each student should be given. They will then assign the work to the students, and will superintend the work. The students will then be given the work, and will be expected to do it. The professors and officials will then meet together and decide what work each student has done, and will give the student a grade. The system will be carried on in this way, and will be supervised by the president of the university.

MINISTER BALLS IN WEST

Rev. Robert C. Glass, a graduate of the state university of Iowa, in the class of 1899, died from pneumonia after a day’s illness at his home in Des Moines, on Wednesday, April 21. He was buried last Sunday. He was about seventy years of age and was for many years a prominent Methodist minister in the northwestern part of the state, having pastored in Sioux City, Lenora and Cherokee. His wife was Mrs. Ave Eyr, a convert of the late Mrs. W. C. Foster. His brother, a sister of Hon. Milton Redland of this city.
