As we go to the main entrance, a thin golden-brown light is shed upon our face, as the soft glow from a yellow-shaded lamp. The fallen leaves of the same sympathetic hue give forth beneath our feet the foot step sound familiar to the student.

HUBBARD TO COME AGAIN

Harrah Hubbard, who has raised national prominence and favor through his work in dramatic reading, is to appear in Iowa City for the second time this year on Tuesday evening, October 31, when he will give his "opera talk" on "Leophringos," in the natural science auditorium.

Mr. Hubbard gave several of his "opera talks" before the convention of the Federated Women's Clubs of Iowa which met in this city last May. The "opera talk" is a highly dramatic piece, the sentiment and situations of which are intensified with musical passages given simultaneously with the reading. His work here was very well received.
