is there someone in the uni-

interest to produce an Art class?

For several weeks now, the com-

One night a request came in from

the interest of the university.

The committee was then formed.

HOLD SERVICE CONFERENCE-

ground Meeting of Miss McCluskey's

and Dr. Haywood's Student

In 1936, the first meeting was held.

Dr. Haywood's Monday Night:

The first meeting was held last

Friday night of the new social ser-

vice conference, composed of the stu-

dents in the Sunday School Miss

McCluskey of the extension depart-

ment and Dr. Haywood's classes.

The meeting will be Friday

October 22, at 7 o'clock, room 114

in the academic building. Miss Mc-

Cluskey will speak on flood relief

in Dayton. She served there as a

Red Cross nurse in charge of one of

the relief stations.

After the meeting the students

will hold an orchestra and anyone

interested in playing is invited.

Dr. Haywood himself will direct

the orchestra and there will be

open discussion of various social

questions.

There will be no formal organi-

zations and attendance on the

meeting will be voluntary.

The time from 7 to 9 is early enough

not to interfere with other week-end

activities.

In addition, the homecoming of

the two classes will be celebrated

by the music department.

NOTHING MAKES SOMETHING

There are always some very small

things in the psychology of reli-

gious class this week—judgments based

on impromptu impressions. For example,

notings and getting something.

Mr. Starbuck declared the other night

that the "celestial weather of an institution

but, these things are not entered in the con-

text. In the university there must be

many students with both the mus-

ical and literary tastes required for

song writing.

There is yet time in which to get

the signs in. The council will not

draw until November 1. Materials

LIEBHARDT GETS OLD BOOKS

Three rare old volumes with the

copyright date of 1824 have been sub-

mitted this week to the Liebhardts' new

books. In the quaint language of the

Bible leaf, these volumes are, "The

Most Ancient and Famous History of the

Renowned Prince Arthur, King of

Bohemia, by Sir Thomas Malory.

East, London. Printed by William

Blower, for Jacob Blount, 1707".

The books are two inches in width

and five inches in length. The lettering

is so small that the naked eye reads it

with great difficulty. On its front

cover the price is given as "3/6

in Boards." On the whole the books

are very well preserved.

RELATABLE INVESTIGATIONS

Prof. D. J. Keller of the sci-

ence department was selected

Thursday to examine the Ten feet of

examination, which is as perfor-

mance. In this case, it was occasioned

by an investigation of the death of
