Hedges Approves Baldwin's View

Frank Baldwin, publisher of The Iowa, received yesterday from C. C. Hedges, a letter accepting his article in the forenoon section. "Hedges' letter follows:

"Dear Frank:"

"I read your article in The Daily Iowa of Nov. 17. I think that you hit the point in your article especially where you mentioned the state capital. For your opinions, I believe that if the majority of the Iowa always worked together, along the lines you suggested, our state would be a better state. I hope that you will do the best you can in your work with the Iowa."

"Yours very truly,

CAP HENDRICKS.

SUNDAY AND MONDAY

American Theatre

The success of the play was the result of Miss Angel's art. She has been Antigone, Electra, Eugene, Juliet, was Beverly, a wide range of roles in different situations. Yet she adapted her powers of artistic interpretation and made them fit the part of the moment that ended only in bursts of laughter as she never did to the powerful appeals to heart and soul in her "Tragedy." A spirit of her eyes, a calmness of her voice, a quiet sincerity, a quietness of her actions. This seems to provide for the habitual apprehensiveness of undergraduates in one institution.

GUNNAMEN NOT READY FOR WORK INDOORS

No choice for swimming—Water in tank for Ornamental Purposes.

Drivers in loans by the tempestuous weather, all hockey classes in the woman's physical training department were suspended Friday.

Mrs. Alice Brown, head of the department, has given notice that the new gymnastics is not ready for use; hockey and other outdoor work will continue as long as the weather permits. It has been the custom, in former years, to take the classes from the field on play Ground No. 1, right after the regular work is over, but this year hockey will occupy us after the Thanksgiving recess.

"This is absolutely no chance for swimming or elective classes of any nature, under the present conditions," Mrs. Brown declared. The football program has been turned into the pool room and the place reserved for exhibition purposes. The shower booths and heating apparatus are all we have been installed. The entire interior equipment, plumbing and lighting facilities are lacking, and for this reason the regular gymnasium work will be delayed.

IOWA UNION GIVES SERVICE

During the Saturday evening, the union was the busiest it has been in the history of the institution. It was headquarters for the Ames band and orchestra and practically all weather, all classes in the former years, to take the classes from the field on play Ground No. 1, right after the regular work is over, but this year hockey will occupy us after the Thanksgiving recess.

Many of the alumni eagerly in tents to the name and purposes of the union and practically all of them voiced their sentiment in favor of the union, and good high contract. The place it fills in the Iowa student body.

BULLETIN ON GRADUATE WORK

A new edition of the university bulletin has just been issued on the subject, "Graduate Study in Ames," with the title of the union.

The Bulletin, in giving the general idea of the bulletin, is not meant for the general public and can be procured by the students. The following is the general body of the bulletin.
