About PERSONS

C. F. Hambrecht has become a member of the new firm, Dutcher, Davis, and Hambrecht. Mr. Hambrecht was graduated from the law college in 1894. He practised law in Omaha until 1909 when he came to Iowa. He entered at the post office of Wade, Dutcher, and Davis. His intention to membership in the new firm was announced at the first of the year.

A THOUGHT FOR 1912

"We live only one moment—that which is passing," said Edward Henry Burnett in a short talk delivered at the Altoona Country Club. The talk might stretch our life, but it would still be only the passing moment. It is only while we are in the grip of life that we can utilize it. Thus the result of the whole depends upon our use of the passing moment. It is in our choice to live—or, our only use.

In the Magazines

Woman's Heart

Further "Notes on the Intelligence of Woman" by W. L. George have been published in the January number of the Atlantic Monthly. It is asserted that the discussion will be defeated by the following numbers of the magazine.

In his latest notes Mr. George says that woman is still something of a savage. "She is less civilized than she should be, because she has not been educated. This may be a good thing, and certainly it is an agreeable thing to the man's point of view. Whether women consider a man's attitude in the law, in social service, or war, it is the same thing. In most cases it is her way, she will obey the law because she is afraid of it, but she will not respect it; e.g., whether the influence of woman, more conveniently barnes, more anxious than man, will react in the breaking down of conventions or the downfall of the law, I do not know. But if the world is to be remedied I think it much more likely to be remedied by woman than man. Woman's rebellion is everywhere localized; her brilliance, her failings, her unreasonableness, all these are excellent signs of her revolt. She is ever revolting against her own beauty; often she neglects her beauty, her teeth. This is a pity, but it must be taken seriously. Man is an active service giving beast, and we

In the days when the Sultan's Wife's Sister was fending off an approaching demise, by investing the short story, the harrowing tale of the Barber's Brother got no further than mere words. Now Griffith, Ince, Sennett, the modern magic masters, have taken over the story telling business for the world; they are the newest exponents of the Thousand and One Romances. These men are the triple foundation of the Triangle Idea.

Would you have romance? Griffith will book your journey in the realms of his wondrous fancy. Have you a desire for thrills? Ince will sweep his debt fingers over the harp of emotions. Is your wish laughter? Sennett will unwind fathoms of it for you.

Dr. F. M. Foster of the Latin department introduced to his classes the results of an investigation trade recently at the Rochester, New York, High School-regarding the same terminology courses here and now on the staff of the Western Reserve medical school.

The average grade of a non-Latin student was 65 per cent; of a student with one year of Latin 65 per cent; with two years, 93 per cent; and with three years 78 per cent.

The law faculty report an interesting meeting of the Association of American Law Schools at Chicago during the holidays. All members were present. The association had the largest attendance in its history. Walter W. Cook of Chicago university was elected president to succeed Harry R. Reynolds, dean of the Wisconsin law school.

The regular meeting of the association will be held again at Chicago during the holidays and only special meetings will be held with the American Bar Association. This will make the Illinois law school faculty to attend easily. Before the annual meeting this year has been held with the American Bar Association in September. The faculty of the meeting participated at Champaign Illinois. Iowa men say that the law schools of the west are not as far away as the eastern schools are ranking as high as the eastern schools.
