FOR THE WOMEN

There's a good time coming. and it’s almost here.

In this week's Bulletin of the Young Women's Christian Association, March 3. Beginning February 28 with a membership rally and banquet, the days leading up to the annual meeting will be characterized not only locally but nationally by especially prepared programs designed to disseminate the Y. W. C. A.'s information and to rally every individual member.

Members will be asked to speak about their projects in some phase of Y. W. C. A. work: posters will be put on the bulletin boards to inform the public of the work that is being done, a special jubilee number of the membership magazine will be published, new programs will review the history of the parent organization and that of the local society. Pleaser, membership and financial features will prevail as well as evangelical efforts. It is hoped that many new members will be added. The numbers described as "a unit of happiness and a sisterly gift," such for the others, will pervade everywhere during the coming month.

The jubilee is the chance of a lifetime for members to realize that they are a part of the big women's movement. It holds out possibilities for bringing in a new way of membership to those who already belong, as well as those who the great text read. It is hoped that in any way we can our Iowa Association can bring to the larger vision, the most effective work, and the greatest influx of vitality. It has ever received, just because of those jubilee feast of days.

COMMUNICATION

The Student's Responsibility

To the Editor:

My attention is called to the article in the Daily Iowan concerning the little club. The conditions of the university walls and campus and I assure you that it is not because of any lesser degree of respect on our part, you will admit that. I appeal from the feeling and sharing the men of Iowa and I believe that they do all who belong to the Student within the best condition of last. With our hands tied the constant subject of several men and day that they were all except close.

There is a ruling in the President's office against the distribution of hand bills on the campus and I am asked to try this as not respected and when the students are spoken to them they simply get outside of the frame and assume the attitude that the University has no jurisdiction.

Every student feel ashamed of the filthy condition about the entrance to our main dormitories due to the recurrence of some students who throw down manure, cigarettes and other stuffs and spits out toilets now.

Our justices are instructed to pay special attention to the campus but the refusal matter becomes frozen and it is difficult to gather. I often wonder what kind of an impression is taken away by the waiter who makes these things.

Will the students co-operate to keep these conditions with the assurance that the University will do the best in Iowa.
