This is a fortunate man.

He has at least nine overcoats, and he is just about fixed for this fall and winter—maybe a little more.

Well, anyhow, it's a good picture to emphasize overcoats; you'll admit that. So we're using it to get your mind on the overcoat question.

How many do you need?

One or possibly two. And you can have your choice in this store now of the finest display of overcoats you ever saw. Made by

Hart Schaffner & Marx

There are ulsters, great coats, box-backs, the famous Varsity Six Hundred overcoats. Soft rich materials, rough coarse materials, warm-without-weight stuff, raincoats, utility coats, just ask to see them.

Coasts'
the CONKLIN is always on the job.

You can't help but write better with a Conklin, and the better you write the higher your class standing. It's "first aid" for the college man or woman—a downright necessity for the student's "tool-kit."

The old steel pen, all rusted and scratching, will never do. It will write like a charm.

The Conklin was the first self-filling pen—it has over 1,000,000 enthusiastic users.

Conklines are sold by stationers, jewelers, druggists and department stores at $2.50 and up. Every Conklin dealer can fit your hand. To, for there is a Conklin Point specially designed for each kind of hand writing.
STATE GEOLOGIST SEE

Says Iowa Material for Building
Highways to 95 in Develop-
ment of Resources

In a forthcoming report of the
Iowa Geological survey, Dr. George
F. Kay, director of the survey and
head of the department of geology in
the university, will make the fol-
lowering statement regarding the roads
and highways of Iowa:

"At a time in Iowa's history when
it is necessary to know fully the
resources of an area to which we
may put, the geological survey is an
important factor in the develop-
ment of the state. In connection
with the proper location of
roads and highways, we are glad to
make available the results of the
survey's work. The two reports to
which we especially refer are
those issued for 1918 and 1919.

The survey of the director of the
county survey and the bureau of
agriculture in Iowa, and thus the
methods of study may be com-
pared favorably with the best
roads of other states of the coun-
try. Fortunately, in
county in Iowa the
number of acres of
suitable soil is.

A Class-Filled
Every class in this department is
filled to capacity. Even in the
new course there is an average of
twenty-five to thirty for the class.
Instructors in the department of
economic studies that the student
in his course exceeds last year's
registration by twenty-five per cent.
This new course has been added in
the department of Romance lan-
guages. Professor Bush has a class
in beginning Portuguese. Dr. Yan
Waddell has a class in Spanish li-
terature, and D. W. Wadsworth
offers a course in French prose.
In this department Spanish classes have been the
most popular in the United States.
In English literature, D. L. Lilin
and Alice Lilin have this year's
registration increased to the faculty in this de-
partment.

New Greek Courses
The department of Greek and his-
tory of art has also increased the op-
tunities for study this year.
