FRIDAY

7 p. m.—Purdue mass meeting, N. S. auditorium.
7:30 p. m.—Baconian, physics lecture room.
8 p. m.—Men's literary societies meet.

SATURDAY

2:30 p. m.—Iowa Purdue game.

SUNDAY

4 p. m.—Vesper service, N. S. auditorium.

IOWA TAKES CARE OF HER ATHLETES

EVERY PRECAUTIONARY MEASURE POSSIBLE USED IN SAFEGUARDING ATHLETES

The board in control of athletics has just completed arrangements whereby the health of University athletes is to be carefully guarded, and it feels that it has taken all possible precautions for keeping them in good physical condition.

Trainer Jack Watson is with the athletics practically all the time they are in practice, and attends to all sprains and bruises.

Dr. L. W. Harding attends all scrimmages and goes with the men on all trips to take care of broken bones and to give medical treatment in cases where expert medical attention is required.

Arrangements have been made with the University hospital whereby all cases of breaks and sprains which do not yield readily to treatment will be subjected to X-rays, a photograph taken and submitted to the hospital authorities for their united judgment and advice.

Dr. F. J. Rohner of the hospital staff is making a series of examination of all University athletes. If any

JESSUP TO ATTEND Y. M. C. A. LUNCHEON

IN HONOR OF COMMISSION WHICH IS SURVEYING SOCIAL CONDITIONS

President W. A. Jessup has accepted an invitation to attend a luncheon on tomorrow evening to be given by the Y. M. C. A. in honor of the Commission of Reference which will be in session here October 18 and 19. This commission is a body of representatives, student pastors and Y. M. and Y. W. C. A. secretaries which is working in typical state universities, and its purpose is to study the social and moral conditions at these places. Iowa and the Universities of Minnesota and Ohio are the places where the investigation will be carried on by this commission.

The University Y. M. C. A. will give a luncheon for the visitors Wednesday evening which will be followed by a conference. The president of the University, the pastors of the churches of Iowa City, members of the advisory boards of the Y. M. and Y. W. C. A., the various student pastors and the secretaries of the local Christian associations have been invited to attend.

The prominent persons who are to be here for the investigation are the following: David R. Porter, who heads the works of the student department of the Y. M. C. A. nationally; Wellington H. Tinker, special secretary of the international committee of the Y. M. C. A. for colleges; Miss Leslie Blanchard, who holds a similar position with the Y. W. C. A.; Dr. M. W. Lampe, leader of the religious work of the University of Pennsylvania; Dr. L. Padelford, of the Baptist board of education; Dr. F. L. Sheldon, of the Congregational board.

FOR SALE—Remington typewriter, in perfect condition. Price very reasonable. Inquire at this of

the men are in his opinion unfit organically to take such athletic exercise he takes them before the medical clinic and has their condition passed upon there. None of the men examined so far has been passed upon unfavorably. The board feels that these precautions are ample.

STEAM LABORATORY HAS NEW TYPE OF ENGINE

A 100 horse-power uniflow steam engine which has been loaned to the University by the Murray Iron works of Burlington for testing and experimenting is being set up in the steam laboratory and will soon be ready for service.

The engine is of German development and gives about three times the efficiency of the old style engine of the same size cylinder. In the manner of handling the steam in the cylinder the uniflow engine is altogether different from the old type. Steam is admitted at both ends of the cylinder, alternately, and is exhausted through ports in the middle instead of at the end. Adjustments are also more simple in this type of engine.

There are very few such engines in the state and the engineers are anxious to get this one to working that they may give it a thorough study.

RESULTS OF NATIONAL ELECTION BY WIRELESS

Results of the national election November 7 as they come in by wire will be sent out from the University radio station every half hour from 9 o'clock until midnight.

This service was tried out last election. Reports were picked up by many Y. M. C. A. and other public stations as well as by many private instruments within 500 miles of Iowa City.

TO WORK AMONG CHILDREN

The social service committee of the Y. W. C. A. has begun definite work among the children of the orthopedic department of the University hospital. One university girl visits the crippled children for an hour every afternoon to tell stories and entertain them in various ways. Anne Weissinger is chairman of this committee.

ROMAN SOUVENIRS DESCRIBED

Professor Eastman has just issued a catalogue booklet listing and describing the replicas of articles used in Roman households which he has recently secured from Naples for the Latin department of the University.

FACULTY WILL LEARN

A seminar on valuation of public utilities is to be introduced into the college of applied science by Dean

Raymond for the benefit of faculty members. The first meeting will be held Oct. 19, at 4:30 in the Dean's office.

KAY HEARS FROM NOTED HUDSON BAY EXPLORER

Dr. George F. Kay, head of the department of geology, has received a long letter from Dr. F. M. Van Tuyl regarding the latter's geological field work in the Hudson Bay region. Some most interesting experiences are related in the letter. Dr. Van Tuyl secured valuable geological data.

The work of Dr. Van Tuyl is of particular interest to Professor Kay because he himself has spent three seasons in northern Ontario and in the vicinity of Hudson Bay.

Dr. Van Tuyl earned his B. S. A. and M. A. degrees at Iowa and his Ph. D. at Columbia. He is an instructor in geology at the University of Illinois.

If You Want to Teach

next year, you can secure a position through the Midland Schools Teachers' Agency, of Des Moines, Iowa. It places more teachers west of the Mississippi each year than any other agency and its terms are the most liberal offered. It covers the entire territory west of the Mississippi river, except California, Louisiana, Arkansas and Texas.

For one dollar you receive an enrollment, a year's subscription to the Midland Schools and an Iowa high school teacher's directory, showing the names of all Iowa high school teachers with subjects taught and salaries received. Any one of these is well worth the price.

Arrangements will be made so that you can secure blanks and enrollment directions at The Daily Iowan office.

Read his announcement in this issue or write directly to C. R. Scroggie, Des Moines, Iowa.

EUROPEAN WAR EFFECTS ZOOLOGY LABORATORIES

The zoology laboratories of the
university are feeling the effects of
the European war. Difficulty is ex-
perienced in obtaining staining mat-
erial for use in the making of slides.
The dyes which were previously se-
lected from the coal tar colors from
Germany cannot be substituted by
the dyes used for coloring fabrics,
as they are of a much more delicate
composition and can only be obtained
through very careful processes.

"If some substitute is not found
very soon our laboratories will in a
very short time be completely out of
all staining material," Dr. Houser of
the department of animal biology de-
clared yesterday.

Orville Olsen, graduate in dentistry
last June, is spending a few days
at the Pi Omicron house on his way
to Chicago.

F. L. Mackey, '16 graduate, is at
the Phi Alpha Delta house for the
week end. Mr. Mackey is now assist-
ant attorney of Boone.

Prof. Plum is to talk on "The
Candidate for the Presidency" be-
fore the Young People's Society of
the Unitarian church this evening at
7:00 p. m.

Dr. Arthur Steindler, orthopedic
surgeon of the University hospital,
left Thursday for Des Moines, where
he is doing some surgical work.

Marjorie Peters' parents visited
her at Currier hall Sunday.

John Egan, Grinnell student, spent
the week end with Paul Lovegren at
the Phi Psi house.

Albert Block and Robert Kaufman
of Davenport, Frederick Parker of
Grinnell, and Mr. Parker of Rock
Rapids spent the Sunday with Law-
rence Block.

Dr. C. E. Seashore was in Cedar
Falls on business yesterday.

Dr. R. H. Sylvester has gone to Du-
buque to make a second series of
measurements on grade school chil-
dren. These measurements will be
compared with similar measurements
made last year.

Dean Anna M. Klingshagen is in
Chicago.

Charles Maruth, freshman here
last year, came back too late to re-
gister this year. He left Iowa City
yesterday to take a position in west-
ern Iowa as salesman.

Francis Cronin, '20, spent the week
end at her home in Marengo.

Irene Barrett, '19, came back yester-
day from her home at Logan
where she was called by the tragic
death of her father in an automobile
accident.

Loren Schiff was initiated into Del-
ta Tau Delta last night.

Morley McNeal, graduate of the
University, has been elected president
of the Y. M. C. A. at Johns Hopkins
university where he is now a student.
Frank R. Menagh, graduate of the
University, who is also attending the
Johns Hopkins university, has been
elected chairman of the Y. M. C. A.
social committee.

LIBRARY NOT USED SO MUCH AS AT FIRST

Studying is not so popular now as
it was the first two weeks of school
if one can judge by the decreasing
number of students to be found in
the library during the course of the
day. During the first few days the
library was so crowded at times that
students were unable to find seats,
especially during the mornings and
about three o'clock in the afternoon.
During the past two weeks, however,
the difficulty seems to have disap-
peared.

ZOOLOGY DEPARTMENT GROWS

The zoology department has passed
the 500 mark in registration this
year. This is the largest registration
the department has ever had in
its entire history. The increase
has been going on steadily for a
number of years and now shows
that ten per cent. more students have
registered this year than last. The
department is particularly well
equipped and also ranks very high in
regard to laboratories.

WELLER DESCRIBES ANCIENT PALACES

TELLS OF MANSIONS OF ROME, FLORENCE, VENICE, PARIS AND LUVERNE

"Palaces of Italy and France" were described by Professor Weller Saturday morning to an audience that heard his lecture in room 105, liberal arts building.

He dealt with the old palaces of Florence, Rome, Venice, Luverne, and Paris. The description was made vivid by use of slides which showed the exterior and interior construction of various types.

The early palaces were strongholds for kings and very wealthy people but later, as times became more peaceful, bars were taken from windows, as were also other evidences of fortifications.

In Venice the palaces were owned by the wealthy people of the country. They were huge mansions built of stone, roughly hewn, and were as a rule three stories high. The early days of Venice were troublesome and the palaces were made to serve as fortresses.

One of the earliest palaces in Florence was that of Belazzo Vecchi, built in 1298. It was three stories high and in the center was a great court.

In Rome, one of the early structures was erected in 1489. Much of the material was secured from the old Coliseum. Rome now has

the largest palace in the world. It contains large courts and about a thousand apartments.

WANT TO GET ACQUAINTED
The house economics department will soon organize a home economics club. The object will be to provide girls in the various classes a means through which they may become acquainted. Every girl taking the subject will be eligible to membership. Teas will be given.
