VOL. XVI—NEW SERIES, VOL. I. IOWA CITY, IOWA, FRIDAY, NOVEMBER 3, 1916 NUMBER 42

FRESHMEN FAIL TO STOP VARSITY IN HOUR'S SCRIMMAGE

LINE MAKES GREAT HOLES FOR BACKFIELD TO GO THRU FOR BIG GAINS

Von Lackum Back in Game for First Time Since Injured in the Cornell Game—Jones Pleased with Showing.

Coach Jones continued his efforts yesterday to develop the Iowa eleven into a stronger scoring machine. The varsity showed marked improvement and the result of the afternoon's practice was fully satisfactory to the coach, who, during the course of the work-out, frequently praised the men for their note-worthy performances.

The day's drill was concluded with an hour scrimmage against the freshmen eleven. The varsity was on the offensive thruout and not once did the yearlings hold them for downs. The Iowa line opened up huge holes for the backfield men and the latter plowed through for from six to fifteen yards on every play.

Second String Work

During most of the scrimage drill the varsity resembled the scrub eleven, as the coach did not want to take any unnecessary chances with his regulars, who are still somewhat crippled as a result of the battering received in the Minnesota game, and consequently many second string players were thrust into the fray. The three changes made in the line earlier in the week, however, were continued with Becker at right tackle and Hunzelman and Kelly at the guards. Bannick was again in charge of the team at quarter back and Jenkins cavorted with the scrubs.

Von Lackum Back Again

Von Lackum got into scrimmage for the first time since he received his injury in the Cornell game, playing in Triplett's position at left end. Reed was at Capt. Laun's end and Wyland was at center. Coach Jones used a multitude of backfield aspirants alternating Davis, Nugent, Berber, Duncan, Scott, Glatts and Van Pelt. Mendenhall was not in uniform.

Use Straight Football

The early part of the practice was devoted to instructing the linemen how to open up holes on the offensive. The backs and ends spent considerable time in practicing forward passes after which Coach Jones lined up the varsity against the freshmen. For almost an hour the two elevens struggled up and down Iowa Field and before Jones called it a day, the regulars had registered four touchdowns on the yearling squad. The varsity displayed unusual scoring efficiency and stepped into the shift formation with rapidity and smoothness. Only straight football was attempted and the entire scrimmage was a succession of powerful line plunges with the forward wall displaying the marked effect of the individual work that Coach Jones has doing this work. The regulars used the new batch of plays exclusively and there were very few hitches in running off the signals. One off tackle smash proved an exceptionally good ground gainer, the backs tearing thru for from ten to fifteen yards every time it was used.

The varsity will continue offensive drill for the remainder of the week and on Monday the coach will begin to instruct his men in defensive play, using the Northwestern plays as laboratory material.

All student classes of the Methodist Church Sunday school will have a party at the church Friday evening. Professor and Mrs. C. W. Wassam will chaperone.

"DAD" SCHROEDER NOW ABLE TO WORK AGAIN

After a six day's illness E. G. Schroeder, director of physical training resumed his duties at the armory yesterday, slipping away for a few hours without his physicians knowledge to see how things had fared during his absence. Mr. Schroeder regrets the length of his illness for the reason that during the last ten years he has missed only six days from his work.

He will undergo an operation during the Thanksgiving vacation, to obviate the chance of further sickness from the same cause, intestinal inflammation.

FACULTY MEMBERS BEFORE TEACHERS

HAVE IMPORTANT PART IN ANNUAL MEETING NOW IN SESSION IN DES MOINES

Members of the faculty of the University are having an important part in the sixty-second annual session of the Iowa State Teachers' association which is being held in Des Moines this week.

President Walter A. Jessup was most in demand as a speaker, for he will make four addresses during the convention. Yesterday afternoon at 2 o'clock he addressed the first meeting of the department of city superintendents and town principals. Later in the day he spoke before the college and university department. His fourth address will be today at 2 o'clock when he will speak to the city superintendents on "Surveys in Cities above 25,000 in Population."

Other faculty members who are taking an important part in the various programs are Dr. Ernest Horn, Prof. Elsworth Faris, Prof. R. H. Sylvester, Prof. N. A. Brisco, Prof. F. E. Goodell, Prof. Stephen H. Bush, Dr. John Van Horne, Prof. Charles Bundy Wilson, Prof. F. C. Eastman, Prof. G. N. Merry, Prof. W. E Hayes, Miss Aleeth Willard, Miss Alice H. Wilmarth, and Theodore A. Wanerous.

NUTTING TELLS OF TRIP TO BAHAMAS

TWENTY ZOOLOGY STUDENTS MADE THREE MONTH TRIP FOR SPECIMENS IN 1893

The Bahama expedition made in 1893 by a class of twenty zoology students was the subject of Prof. A. C. Nutting's lecture Thursday morning. The lecture was largely composed of steriopticon views with discussions on each one.

The trip lasted about three months, the time being mostly spent at the West Indies and Florida Keys. Over 5000 miles were covered.

The entire cost, including car fare to and from the port of Baltimore, did not exceed $200 for each student. In some cases this was refunded. The students were given for their own use a share of the specimens which they found. These were sold to other schools, the proceeds often exceeding the entire cost of the student's trip.

A carload of specimens brought back have been used by the students in the zoology department. Part of them form the invertebrate exhibits in the museum.

Achoth sorority will hold a dancing party at the Masonic temple Saturday evening. Dr. Mary K. Heard and Miss Fausta Heard will chaperone.

SECURE SPECIAL TRAIN FOR AMES GAME ON NOV. 18

WILL ARRIVE AT DESTINATION AT 11:45—WILL RETURN AT 6:45 P. M.

Accommodations Assured For All Wish To Go—Round Trip Fare Will Be $5.35 Says Director Kellogg

That there will be a special train out of Cedar Rapids to the Iowa-Ames football game at Ames, November 18, was announced yesterday by Director N. A. Kellogg. The board in control of athletics contracted with the Northwestern railroad for the train, which will consist of five or six cars. Director Kellogg is assured that there will be accommodations for all who desire to make the trip.

Fans will leave Iowa City November 18 on the 7 o'clock interurban for Cedar Rapids. The special train leaves Cedar Rapids at 8:15. It will stop only at Marshalltown, and will arrive at Ames at 11:15. Coming back it will leave Ames at 6:45, and, making a no-stop run, will reach Cedar Rapids at 9:45. Special interurban cars will bring the passengers from there to Iowa City.

The round trip ticket will cost $5.35. Director Kellogg believes that $10 should very easily cover the entire cost of the trip.

INTEREST IN THE CLASSICS KEEPS DR. WILEY YOUNG

TELLS OF PRACTICAL VALUE OF LATIN IN EDUCATION AND THE PROFESSIONS

Is Necessary for Advancement of Science—Without it One Door in Scientific Progress is Closed, He Says

"My interest in the classics is keeping me young," declared Dr. Harvey W. Wiley in his address Wednesday night on "The Practical Value of Latin in Education and the Professions.

Dr. Wiley appears to have the vitality of a man of forty-five, though he is seventy-two.

Last night he apepaled to scholars to "put a soul in education and prevent degeneration into a scramble for efficiency through exclusive study of the sciences.

"The Latin language is still the language of the scientist, and to it and the Greek he goes back when he has discovered a new bone in the head, or a new animal," Dr. Wiley asserted. "In this sense Latin is necessary for the advancement of science and without it we close one of the doors of progress in the great fundamental sciences.

"The cause for the neglect of Latin is the craze for the practical. Material progress, much as it is to be desired, may be the cause of the downfall of nations. The purpose of life is not to make an invention but to do something for humanity, to give it an idea, to alleviate its suffering, not only by vocational training, but also by mastery of thought and expression. It is the classics which put the spiritual into education."

Wayne Prudhon, a junior liberal arts, has been in the hospital undergoing a minor operation.

Miss Baller, a freshman dental student is in the University hospital threatened with appendicitis.

TICKETS HERE SOON TO NORTHWESTERN GAME

Tickets for the Northwestern game will be received the first of next week, according to Director N. A. Kellogg. There will be 200 tickets in all—100 tickets with reserved seats at 50 cents each, and 100 tickets, also reserved, at a cheaper price. Iowa students get their tickets to the Northwestern game at the same price they give their own students, and Iowa accords Northwestern the same reduction; hence the low price.

TRACK WORK BEGINS TOMORROW MORNING

GRADUATE STUDENTS TO TAKE ANNUAL HIKE—TO MOUNT VERNON THIS YEAR

Hear, yea! Hear, yea! Ye graduate students, take notice!

You'd better get out that old track suit, hie yourself down to the track on Iowa field and endeavor to reanimate those tender and unused pegs of yours, FOR

You are going to have to use them tomorrow to the extent of twenty-two miles.

The above advice is based on an announcement yesterday by John Briggs, athletic manager of the graduate college, which reads as follows:

There will be a meeting of graduate students at the main entrance to the campus Saturday morning at 7 o'clock. Come prepared for a twenty-two mile cross country hike to Mount Vernon.

Last year the hike was made to Cedar Rapids. The course this year has been laid out in such a way that anyone who becomes indisposed or otherwise inconvenienced enroute may quickly reach the interurban line and return to his native heath.

Mr. Briggs intimates very strongly that he will not be numbered among those who give up the golden quest, but he thinks that the disgrace of such an act will be in no way comparable with that of being caught stealing chickens.

INTERFRAT COUNCIL PASSES REGULATION

QUALIFICATION FOR MEMBERSHIP IN ORGANIZATION ARE DECIDED UPON

Any fraternity not already represented in the interfraternity council of the University may become a member by presenting the following qualifications: a good fraternity house, a sound financial standing, a membership of at least twenty men, and a good scholastic rating.

This was a decision arrived at by the inter-fraternity council in a meeting at the Psi Omega house Wednesday night. David R. Porter, secretary of the International Y. M. C. A. committee spoke at the meeting in the interests of the campaign that is being waged in the University for the prisoners' relief fund.

As a result of Mr. Porter's talk plans were made whereby members of the faculty will visit each fraternity separately and raise whatever amounts the individual fraternities may be disposed to give.

Dr. Norris A. Brisco and Dr. C. W. Wassam will attend the meeting of the Western Economic association next week in Chicago.

Dr. Albert H. Beifield of the University hospital is back at his work after his recent operation.

FUND FOR RELIEF OF PRISONERS IS RAPIDLY GROWING

TWELVE HUNDRED DOLLARS SUBSCRIBED BY IOWA STUENTS LAST EVENING

Most Hearty Response is Coming From Boys and Girls Working Their Way Through School, Says Aldrich.

Twelve hundred dollars had been pledged by Iowa students up to 5 o'clock Thursday for relief of prisoners of war in Europe.

The largest single contribution of the two days' since the campaign began was $50. Secretary Guy V. Aldrich declined to name the donor, saying that the general policy of the campaign is not to tell the amount individuals give.

Many contributors gave as much as $25. A woman student was among the contributors of this amount.

The campaign was carried to the fraternities in an organized way yesterday. At noon the following fraternities were visited by the workers noted: Delta Tau Delta, C. W. Wassam; Sigma Chi, W. W. Gethmann; Phi Beta Pi, A. C. Trowbridge; Phi Kappa Psi, G. W. Stewart; Sigma Nu, David R. Porter; Phi Delta Chi, Geo. F. Kay; Phi Zeta Epsilon, the Rev. H. B. Boyd; Sigma Alpha Epsilon, A. W. Hixon; Phi Kappa, A. O. Thomas; Alpha Tau Omega, K. A. Kennedy.

In the evenings calls were made as follows: Phi Rho Sigma, Lorin Stuckey; Psi Omega, Mr Trowbridge Delta Chi, Mr. Gethmann; Beta Theta Pi, Mr. Kennedy; Nu Sigma Nu, Mr. Hixon; Theta Xi, Mr. Thomas; Delta Sigma Delta, Mr. Boyd; Cosmos, Mr. Wassam.

The workers were everywhere cordially received. They gained confidence that contributions everywhere would be liberal.

"The most generous response is coming boys and girls who are working their way through the University," Mr. Aldrich declared last night. They were first to give and they have and they have given in the largest amounts."

POTTER SENDS CARD

A card bearing only an indistinguishable postmark and his signature was received recently from Ray S. Potter, a former student in the University, who is now fighting with the Allies near Verdunx by University friends. It was dated October 15.

ENGINEERS ON TOUR

The senior electrical and civil engineering classes are going on an observation tour the last of this week. Chicago, Milwaukee, and Keokuk will be visited. They will leave Sunday night and return the following Sunday night and return the following Sunday.

HIGBEE AT BACONIAN

"Thomas Jefferson's University" is the subject of the weekly Baconian paper to be given by Prof. F. G. Higbee of the college of applied science on Friday evening. He will discuss the early history of a great university and a great man.

Professor G. T. W. Patrick received a telegram from his sister, Dr. Mary Mills Patrick, yesterday, sent from Amsterdam, Holland. She is now on her way to America from Constantinople, where she has been head of a girl' school.

Phi Rho Sigma will hold a dancing party at Co. A hall Friday evening. Dr. and Mrs. A. N. Alcock will chaperone.

RESPONSIBILITY

At some time during the college career of every student comes the opportunity to assume responsibility. How many of us have ever considered the value and training of this? Do you seek activities involving responsibility or do you assume duties merely because they are forced upon pou?

The man who succeeds in the world is the fellow who is not only able to bear burdens and assume responsibility but who seeks to do so. Education is a big word and means far more than a knowledge of books; it implies an understanding of the practical affairs of life. So if we are to get the best possible education out of our university life positions of trust and responsibility should be sought for.

The graduate is immediately thrown into a world of responsibilities so the experience one gains in college will not be amiss. Strive to get into student activities, work your way into the confidence of your associates by a display of trustworthiness and a willingness to assume burdens and don't shift duties onto the "other fellow."—Daily Kansan.

CAMPUS EVENTS

TODAY

8:00 p. m.—Baconian club meeting. Men's literary societies meet. Close hall.
Cosmopolitan club meets at school of music.

TOMOORROW

10:00 a. m.—Professor Weller's art lecture, "Giotto and the Revival of Painting." Room 105, liberal arts building.

"A STRANGE COAT OF ARMS"

(There will appear in this column from day to day, under the direction of the Y. M. C. A., quotations from modern writers and speakers, letters from alumni and friends of the University, and statistics relative to men and institutions.)

"Then there is a great company whom nobody ever yet has numbered, of every nation and neighborhood, who plainly believe that to have, to possess, is the chiefest thing in life. The taint of this infection seems to have gone into all circles. Nothing escapes its unhallowed itch. It has become an epidemic in our own country. The old Hebrews had but one calf. Americans are more prodgal with their calves than that. We have two at least, the paper calf already spoken of and the golden; though the golden can no longer be properly spoken of as a calf. It is a matured bull, but not of the polled type; it has full-grown horns."

SPECIAL IOWAN DELIVERY SERVICE

Any city subscriber not receiving The Daily Iowan by eight o'clock in the morning may have a copy sent them by special messenger if they call The Daily Iowan Office, telephone 935 between eight and eight thirty o'clock.

A REPRESENTATIVE PAPER

"The Daily Iowan is better than its predecessors, and it is more representative of the entire University. In general the proof reading is better and I think the paper on a whole is very good."

The foregoing is Professor Charles Bundy Wilson's opinion of this year's student owned and student controlled daily publication of the University of Iowa.

KAY AND SHIMEK TO INVESTIGATE OTHER BUILDINGS

TO VISIT BOTANY AND GEOLOGY DEPARTMENTS IN OTHER UNIVERSITIES

Experience Gained Will be Used When New Building is Constructed Here in Near Future

Professor G. F. Kay and Professor B. Shimek, in company with the committee of the board of education, will leave Friday to visit the departments of geology and botany in the universities of Kansas and Nebraska. They expect to return next Tuesday and will leave the same day on visits to some of the other large universities. The purpose of these visits is to investigate conditions at the various schools, in order that the departments of geology and botany may profit by the experiences of similiar departments elsewhere, especially with regard to the equipment of the new biulding which is to be built here in the near future.

FOUND—A bunch of Keys. Owner may have same by calling at The Daily Iowan office, proving ownership and paying for this notice.

ART STUDENTS LISTEN TO TALK ON POTTERY

A talk on American art pottery was given Wednesday night before about fifty art students of the University by C. J. Barnhorn, who has charge of the modeling work in the Cincinnati Art museum. Mr. Barnhorn is stopping in Iowa City as the guest of Prof. C. A. Cumming, and will go on to Des Moines today where he will give an address before the graphic and plastic arts section of the Iowa State Teachers' association.

Mr. Barnhorn explained the differences in manufacture of various kinds of pottery, and told how the glazes and other artistic effects are obtained. He also described the differences between American and Japanese art. The Japanese excel us in some ways, according to Mr. Barnhorn. They come to America, are shown about freely, and given every opportunity to learn. But if an American goes to Japan, as Mr. Barnhorn did, he is unable to find out a thing about their methods and processes.

"One of the great things in art education is to make someone else happy," Mr. Barnhorn said in closing. "Art study for any other purpose is selfish."

The Political Science club will meet next Monday evening at Professor G. G. Benjamin's home, 1207 East College street.

UNIVERSITY DAY IS NEXT SUNDAY

COLLEGE THEMES WILL BE PRESENTED AT ALL CHURCHES IN IOWA CITY

Next Sunday will be observed in the churches of Iowa City as University day. Ministers will preach on college themes at the morning session, and a union meeting of all churches will be held at the Methodist church Sunday evening. Gwendolyn McClain will preside, and talks will be given by Stub Barron, Miss Adelia Dodge, and Guy V. Aldrich. The University quartet wil sing.

The interesting program of music study meetings which the music study section of the Iowa City Fine Arts association is to have this year was opened Tuesday morning with consideration of Bach at a gathering of members of the club at the home of Mrs. Preston Coast. Madame Charlotte Lund, an invited guest, complimented the club on its work.

Miss Eleanor Steinberg, first year law student, has been absent from classes for several days on account of illness.

Marion Marquardt is at the Mercy hospital convalescing from an operation for appendicitis.

HISTORICAL SOCIETY ELECTS

At the regular monthly meeting of the board of curators which was held in the rooms of the society on Wednesday afternoon at 4:30 o'clock, the following persons were elected into he State Historical society: Mr. A. H. Cummings, Mason City; Mr. John W. Foster, Guthrie Center; Mrs. C. F. Johnston, Sheffield; Miss Emma Lemon, Guthrie Center; Rabbi Eugene Mannheimer, Des Moines; Mr. J. H. Moore, Guthrie Center; Mr. W. J. Pilkington, Des Moines; Mr. I. W. Shambaugh, Clarinda.

MAY FORM SPANISH CLUB

Students who are interested in the formation of a Spanish club are requested to meet in room 119, liberal arts building, next Monday evening. Possibilities for such an organization will then be discussed.

DIRECTORIES OUT MONDAY

The student directories will be on sale Monday morning at the secretaries office, Whetstones' and Coasts'.

The University Music council met at the school of music Thursday afternoon.

Professor and Mrs. R. B. Kittredge will chaperone an Engineer's dance at Majestic hall Saturday evening.

Dr. Arthur Steindler, orthopedic surgeon, was in Des Moines yesterday.

Dr. Morse, who is practicing dentistry at Elkader, was in the city yesterday on professional business.

Professor G. H. Dunlap was in Davenport last Saturday for a consultation concerning the sewage disposal plant that is being installed in the new buildings under construction for Battery B.

MEN'S GLEE CLUB PLANNING VISIT TO TWIN CITIES

WILL TAKE LONGEST TRIP IN HISTORY DURING HOLIDAY RECESS

Coast to Coast Trip on Sante Fe Fails to Materialize For This Year—Program Now Being Made

The Glee club will make a trip to Minneapolis and St. Paul during the Christmas holidays, if present plans hold. Emerson Davis, manager of the club, has visited Minneapolis and is now trying to make engagements in Cedar Rapids, Albert Lea, Northfield, and other cities on the way to the Twin Cities.

An attempt was made to make a coast trip on the Santa Fe railroad, during the holiday recess giving entertainments at large terminals for the employees of that railroad. Action was taken too late, the manager of the Glee club states, and hopes for such a trip this year have almost been abandoned. The Glee club, however, will start negotiations with the Santa Fe company next spring for the trip next year instead of waiting until fall as the ydid this year.

The trip to Minneapolis wil be the first trip taken by the Men's Glee club outside of the state and the longest thus far taken by any Iowa University Glee club.

Katherine Klay, who attended the University two years ago, is visiting at the C. S. Smith home in tihs city.

Cash Taxi

BEGINNING NOV. 1ST, 1916, OUR TAXI SERVICE WILL BE STRICTLY CASH TO EVERYONE

On close investigation we find that the cost of the clerical work necessary with so many small accounts, is greater than the total amount involved warrants. And also the higher cost of operation in general, demands reduced expenses. We have therefore decided to try to meet these conditions to some extent, by putting the TAXI business on a strictly cash basis to everyone, even those who may have other accounts with us. In order to accommodate those who care to take advantage of the opportunity, we have provided

COUPON BOOKS
$6 in Service for $5

These $6.00 books cost $5.00 cash, but you save $1.00 on each book, for it contains $6.00 worth of coupons, giving TWENTY-FOUR regular 25c rides or the equivalent thereof.

We thank our many customers for their past liberal patronage, and will endeavor to give better service in the future, and ask your cooperation.
