NUMBER 58

## JIMMIE HAS RIGHT IDEA CONCERNING VICTORY OVER AMES

### EFFICIENCY OF IOWA TEAM AND NOT LUCK DECIDED THE GAME

Jimmie Says So in His Own Way. Meaning That it Was Iowa's Ability, Developed Under Jones, To Take Advantage of Opportunities, That Won

"Nineteen to sixteen, nineteen to sixteen, nineteen to sixteen," repeated Jimmy Barry joyfully as he lighted his morning's cigar, rubbing his hands in inexpressible glee the while.

This without a doubt expresses the sentiment of the entire University in regard to the victory over Ames. Although the Chicago Tribune is insistent in its claims that the victory may be attributed to Iowa's great amount of luck, it is the opinion of the fans and those who witnessed the game that it was Iowa's superior celerity in taking advantage of opportune openings, with her superior headwork, that inclined the victory toward the State University.

It is the opinion of the Iowa line men that the Ames line offered many loop holes through which the Hawkeyes could easily stop the Ames plays before they were well under way. This assumption is substantially borne out by the work of Becker, who on many occasions broke through, spilling the plays for a loss.

Becker's stellar work in this battle as well as in all the battles preceding has occasioned honorable mention in the Chicago papers, which maintain that if Becker were an Eastern player he would undoubtedly be in the lime-light as a wonderfully aggressive tackle.

It is a singular coincidence that in the year 1916 the score should be 19 to 16, and the result will easily be remembered by these like figures.

Everyone is enthusiastic about the way in which Coach Jones has developed such a heady aggregation. With a shortage of material at the beginning of the season, and with the loss of good men through serious injury offering a serious handicap, Jones has nevertheless developed a fighting aggregation that bids fair to end the series of defeats suffered at the hands of Nebraska, on the Iowa field next Saturday.

Nebraska was unable to cross Ames' goal line this year, and, though the margin of points in both the Iowa-Ames and Nebraska-Ames game was three the superior offensive work by Iowa at Ames indicates a balance in favor of a victory for Iowa next Saturday.

### CATHOLIC STUDENTS INVITED

The Newman club invites all Catholic students of the University to attend an open program to be given this evening in the Knights of Columbus club rooms. The program will include a report of the recent convention of the Catholic students' association.

### MISS PAXSON AT Y. M. TONIGHT

Ruth Paxson, national secretary of the Y. W. C. A. for China, will speak at the Y. M. C. A. Wednesday evening, November 22, at 7:30.

May G. Schuch and Mrs. Nellie S. Arner, instructors in English, consider The Daily Iowan a representative paper far better than past publications have been. "There are more touches of real University life in its columns than any other student paper which has ever existed at Iowa," they agreed.

### BOX-CAR IS CLASS ROOM FOR MEXICANS

A box-car formed the class room in which the first English classes for a group of Mexican section men were held last Monday evening. The classes are well filled and will be continued as long as the group remains stationed here. Glenn Eastburn and Clarence Lane have charge of the teaching.

The organization of these classes grew out of the work done by Fred R. Rindge at the time of his visit to the Y. M. C. A. a few weeks ago. Mr. Rindge's lectures are on the relation of the college man to the industrial worker.

### SPECIAL FEATURES FOR 'I' MEN AT HOME COMING

Former Football Captain A. H. Gunderson is receiving many letters from "I" men stating that they will be present at the Iowa family dinner Friday evening of this week. A special table will be reserved for these men and their wives. Immediately after dinner they will attend the student mass meeting in a body and after that they will hold a business meeting of the I club in the men's gymnasium. The toast program for the dinner will be short in order to enable the alumni to attend the mass meeting.

### COMING SPEAKER OF PASSION PLAY FAME

#### TOOK PART OF MARY MAGDALENE IN 1910—TO SPEAK HERE DEC. 4

The Passion play of Oberammergau has come to the front again owing to the lecture which is to be given here December 4 by Marie Mayer who played the part of Mary Magdalene in 1910. Literature has been set out at the University library so that students may read up on the subject if they desire.

Miss Mayer has appeared three times in the Passion play: in 1890 as one of the children of Jerusalem, in 1900 as the Angel in the Garden of Gethsemane, and in 1910 in the role of Mary Magdalene. For generations members of her family have had most conspicuous parts in the Passion play. Josef Mayer and Anton Lang, both world famous for having played the part of Christ, are her cousins, and among those mentioned as the probable Christ for 1920 is her brother Paul. Miss Mayer's father has been associate stage director of the Passion play since 1880. The lecturer is said to have a most magnetic and attractive personality. Her voice is sweet and powerful and her English excellent.

### GOODRICH COMING BACK

Edgar Goodrich, a freshman in the University last year, will be released when the Third Minnesota regiment returns home and will probably resume his work at the University. Mr. Goodrich is a sergeant in the company. He is a brother of Prof. H. F. Goodrich of the law faculty.

### BAILEY BUILDING MUSEUM

Fred Kent has received a letter from Alfred Bailey, graduate of last year, which tells of the latter's work in building a museum for the State University of Louisiana. Bailey's latest trip was a two week's cruise around the islands in the Gulf of Mexico and further south. He collected birds for groups, and took pictures of them—both snap shots and "movies."

Lucille Douglass, Aechoth, was able to leave the hospital yesterday morning. Today she will go to her home in Maxwell where she will remain for the rest of the semester.

## AMATEURS MAY NOW TAKE UNIVERSITY WIRELESS COURSE

### SEVENTY-FIVE LESSONS TO BE FLASHED OUT TO AID BEGINNERS

#### S. U. I. is Probably the First School to Offer Such a Course of Instruction—No Fees Will be Charged

Education by wireless telegraphy is the latest thing in the world of learning, and the University is probably the first school in the world to offer such a course.

Time was when the only way to acquire knowledge, except by personal endeavor, was to sit at the feet of some man of extraordinary wisdom and listen to his discourses. The making of books and the establishment of libraries and schools lightened the work of becoming cultured. Next came extension courses through which learning was carried to the people by the educators.

#### Now Comes by Wireless

Now man may go to school by setting up a wireless outfit, learning the code, and listening at stated times. There is no tuition, no registration, laboratory, gymnasium, or graduation fee—in fact none of the cost usually incident to attending school.

Hereafter on Tuesdays and Thursdays at 8:15 the University radio station will send lessons of about 300 words each designed to give amateurs a practical and technical course in wireless telegraphy. The speed of sending will be ten to twelve words a minute. The course will include from fifty to seventy-five lessons, continuing throughout the winter.

To overcome any difficulties which may arise from inability to include pictures or diagrams in the lessons, Prof. A. H. Ford will answer by mail any inquiries which the amateur wireless operators send to him on points not perfectly understood.

The first lesson was sent last night and was probably heard 700 miles, according to the operator. It dealt with the simple features of the wireless system and outlined briefly the course.

#### First Wireless 300 B. C.

The next two lessons will give the history of wireless communication from 300 B. C., when the Greeks used systems of lights to signal between points, to the modern times, including something of Macroni and his work. Other lessons will explain the methods of obtaining high efficiency, coding of wave lengths, use of wave meter in timing, theoretical principles of operation, use and construction of parts of receiving and sending apparatus for damped and undamped waves, and different types of connections and their advantages. A lesson will also be given concerning the laws governing wireless stations.

When the course was announced a few days ago one Iowa editor immediately wrote to Professor Ford for more information and several inquiries were sent by wireless by amateurs. The Wednesday night news service of the station will be discontinued but the Saturday night bulletins will continue as before.

### NO SATURDAY CLASSES

It has been officially announced from the president's office that there will be no classes or laboratories Saturday, November 25 on account of homecoming.

### ORIGINAL CYCLONES ARE GIVEN A SPILL

Iowa's victory over the Aggies last Saturday not only overwhelmed the Cyclone team of today, but had also a toppling effect on the original Cyclones.

Between the halves of the game Ames' famous team of 1894, better known as the "Original Cyclones," was being carried around the field on a large wagon. Just as the wagon turned to allow the moving picture camera to focus on them it went over, spilling the entire team.

### BRAVED MANY DANGERS IN REACHING AMERICA

Prof. G. T. W. Patrick recently received a letter from his sister, Dr. Mary Mills Patrick, telling of her arrival in New York City. She made the trip on the Scandinavian liner, "Hellig Olaf" which sailed from Constantinople. The voyage lasted a month. She passed through the mines of the North Sea at night and during a dense fog which made it very dangerous.

Miss Patrick is in this country to raise \$5,000,000. She wishes to raise \$2,000,000 for a military hospital at Constantinople in connection with her school for girls, \$2,000,000 for an endowment fund for the college, and \$1,000,000 for a preparatory school.

### PROFS. CONTINUING POWER LINE TESTS

#### FORD HOPES TO COMPLETE SOLUTION OF THE PROBLEM IN NEAR FUTURE

Prof. A. H. Ford and Theodore Schou spent last Saturday at Elkader where tests are being made and information gathered concerning the interference of high power lines with telephone lines.

Mr. Ford spent most of last summer making the same kind of tests, and he says that he hopes to have solved the problem in the near future. According to Mr. Ford, interference between two lines has caused much trouble. The constant buzzing heard in a telephone comes from the interference.

A metallic system of two wires, as found in most cities, does away with interference. In the country the metallic system is not used and the ground is used as a return line. When this is the case the interference is very noticeable even though the lines may be on opposite sides of the road.

"I hope to work out some means," said Mr. Ford, "where the metallic system may still be used but where the interference will be done away with."

### READER'S CLUB TO MEET

The Readers' club will meet Thursday evening in the Readers' room. Prof. E. N. S. Thompson will have a paper on "Ibsens Saga Dramas."

Among the guests at the Alpha Xi Delta house who will attend the marriage of Miss Marjorie Denton to Ensign Myron J. Walker this evening are Alice and Pauline Cotter of Winfield, Ethel Winterfield of Radcliffe, Anita Griggs and Helen Dear-dorf of Tipton, Lucile Jaspas of Newton and Mrs. Lucile McDade Coulter of Chicago.

George E. Grier, president of the prison relief fund organization at Iowa, has mailed a check for \$1,000 to H. H. Francher of New York City, treasurer for the entire fund. Secretary Guy V. Aldrich is anxious to have the balance of \$860 paid in as quickly as possible.

## JONES WARNS MEN OF DANGERS FROM OVER-CONFIDENCE

### CITES MINNESOTA'S GAME AS EXAMPLE OF WHAT IT USUALLY DOES

#### Says That Saturday's Game Will Be Hardest on the Schedule and That Nebraska Will Only Be Spurred On By Recent Defeats

Listless work by the Iowa varsity yesterday afternoon was the occasion for Coach Jones to give his squad a severe verbal drubbing for the attitude which the men were taking regarding the Nebraska game. The light scrimmage practice in which the regulars and scrubs indulged for a few minutes was rather a discouraging affair, and Jones went after his squad for apparently believing that they already had the Nebraska game in hand.

#### Jones Tramples Overconfidence

The Iowa coach told his men that because Kansas had beaten Nebraska and Iowa had beaten Ames it did not follow in any sense that the Jawkeys would trounce the Cornhuskers. "Never in any season," he said, "as in this one has it been demonstrated so many times that the eleven which constantly plays football will be the one to come out on top," and Jones cited the Minnesota-Illinois game and the Chicago-Illinois game as horrible examples of what will happen to the team that goes into a game overconfident.

Coach Jones believes that the Nebraska game will be one of the hardest on the Iowa schedule, and the rest of the coaching staff share his opinion. Scouts who have seen Nebraska in action declare that the Cornhuskers have an eleven practically on a par with their championship teams of the last three or four years and say that with the sting of a defeat at the hands of Kansas to spur them on the Nebraskans will play their best game of the season next Saturday. If scrimmage practice is held again this week there will be no loafing in the work as was apparent yesterday.

#### Mendenhall in Scrimmage

Tuesday's drill was encouraging, however, from the standpoint of individuals. Mendenhall participated in the scrimmage, the first rough work which he has done in more than three weeks. Davis was out and in the game once more after his brainning experiences in the clash with the Cyclones. Scott, fullback, came on the field in street clothes, but was unable to participate. His head and neck have now about fully recovered, but he is bothered with an infection on his leg. However, it is expected that he will go in against the Cornhuskers and be able to perform at his usual clip.

#### Try Bannick at Halfback

The day's work found Triplett and McKee alternating at left tackle. Bannick was tried out for a time at left halfback and it is possible that Jones will use him at this position for a time Saturday in the homecoming game. Both Laun and Von Laekum were tried out at right end, and Nugent saw action at right half in place of Davis for a time.

### THREE GOSPEL TEAMS TO GO OUT CHRISTMAS

The Y. M. C. A. has made plans to send out three gospel teams during the Christmas holidays, from December 27, to 31 inclusive. The work will be led by Alfred G. Brown, Ralph Fritz, and Ray Wycoff. Tentative arrangements have already been made to send teams to Oxford, Cologne, and West Branch. Possibly another will be organized to visit Centerdale.

STAYS OUT OF TOWN

A. risco will address the chapter of the American Bankers Association on Friday, November 25, on the subject, "Is the World in Danger?" On the subject, Dr. N. R. Whitney, the bankers of Water- drafts in Iowa banks."

SENIORS AND FINAL EXAMS

Students at the University of Illinois are preparing petitions to be presented to the Senate or Council of Administration. Students thus affected are being requested to think seriously on the matter before making a final decision and placing their names on the petition. A portion of an editorial in the Daily Illini reads: "Naturally, most of the members of the class will fall over themselves to get their names on petitions—because it looks as if they were going to get out of some work. But there are a number of senior men and women who realize that there is a whole lot of sound logic and good reasoning back of the petition and any number of good reasons why it should be passed.

"One of the glaring defects of our present system of instruction and credits is that a student may loaf along through an entire semester then by a terrific spurt at the end, very often the night before the final, bring his grade up to a passing mark. But he doesn't know the subject; he has the credit all right, and it counts toward graduation—but his knowledge of the course vanishes in thin air the moment he leaves the examination room. The realization that they will have no opportunity to redeem past failures by a good final examination should encourage the seniors to do consistent work throughout the semester, putting in their best lies every day and not waiting until the home stretch is reached before starting their spurt.

"We should like to urge, however, that the man and women involved think about this proposition, and then if it seems to them to be just, affix their names to a petition and support the cause with all the power at their command."

WHO'S WHO AND WHY

The last edition of Who's Who in America contains 17,546 names. These are the names of men, who, judging by the ordinary standards, have won success. They are men eminent in all lines—politics, literature, law, medicine, agriculture, inventions, and church work. It is interesting, therefore, to investigate the influences which have contributed to their success. Are they college men or "self-made" men? A careful report on the education of these men who have won fame has been made by the publishers of Who's Who. Excluding those furnishing no educational data and also those privately taught, there are 15,518 whose educational records are known. Of these 11,034 or 71.10 per cent, attended college. In other words, three out of four men who win success are college men; or, if you attend college, your chances of success are tripled. Furthermore, of the 11,034 suc-

cessful men who attended college, 8,529 were graduates. It looks, therefore, as if success depended not only on college training, but on finishing the course, on a well rounded college career; for graduation implies the doing well of a man's first life job and having behind him the prestige of an institution.—Whitman College Pioneer.

KELLY WILL RETURN

H. E. Kelley of Chicago, Ill., graduate of 1892, instructor in English in 1897-8, writes that he expects to return for homecoming this year. After leaving the University Mr. Kelley was a member of the general assembly of Colorado and for several years United States district attorney from that state. He has recently been employed as counsel of the United States Commerce commission. Since the beginning of this year he has been a member of the law firm of Cassidy, Butler, Lamb, and Foster of Chicago.

HORN TO SPEAK IN WEST

Dr. Ernest Horn leaves next Tuesday for Cheyenne, Wyo., where he will address the Wyoming State Teachers association on Wednesday, Thursday and Friday. Miss Jessie Hotz, an Iowa graduate and teacher of the Iowa City public schools, will give an address at the same meeting. Dr. Horn will also visit the Colorado State Teachers college at Greeley.

GETTING FAT ON DAILY

FIFTEEN HOURS' WORK George T. Hemmingson, '16, who is doing Y. M. C. A. work at army headquarters at San Antonio, Texas, writes that he has been working fifteen hours a day for the last month. "And I seem to be getting fat on it too," he adds.

The fifteen hours are filled with the work of conducting two Bible classes, acting as janitor for the extensive Y. M. C. A. building there, visiting the sick, arranging moving picture shows, and selling such luxuries as postal cards, stamps and the like.

William G. Crane and Cyril Upham, the two University men who took the Rhodes Scholarship examinations this fall, both failed to pass, according to word received yesterday by University authorities. They were the only men in the state who took the examinations this year.

O. E. Klingaman of the extension division spoke in Des Moines last night before the Credit Men's association on "Systematizing Accounts." He will return to Iowa City Thursday.

Ernest J. Ashbaugh of the extension division has gone to Woodbine where he will speak tomorrow on "Looking for Results." This is the first of a series of lectures which the division is putting on at that place.

Miss Bessie McClenahan spent Monday in Newton, conferring with Ralph G. Grassfield, secretary of the Commercial club, regarding a social survey of the town.

President Walter A. Jessup left Tuesday night for Urbana Illinois to attend an educational conference. He will return Thursday.

Margaret Sawyer, instructor in home economics, will demonstrate methods in the determination of urea and uric acid in the blood at the meeting of the Iowa division of the American Chemical society which meets here Friday and Saturday.

Mrs. W. D. Cannon entertained the Kappas and their alumni yesterday afternoon and at dinner last evening.

Prof. Sherman M. Woodward of the engineering faculty, and his wife have returned to Dayton, Ohio, where he is working on the conservation project. Professor Woodward will return to the University for the last quarter of the present school year.

Volume Two, number four of the Iowa Law bulletin is out today. Work will begin at once on the next edition which will appear in January.

### NATION WILL PROFIT IN END BY PRESENT CONDITIONS--PEIRCE

THERE WILL BE DISILLUSION-  
 MENT BUT MUCH WILL HAVE  
 BEEN LEARNED

Prof. Peirce Discusses Probable Outcome of Present Unusual Expenditures of Capital, Energy, and Talent in Developing Foreign Trade.

Prof. Paul S. Peirce read a paper Monday evening at the Political Science club meeting on "American Trade-Promoting Industries." He traced the evidences of the recent awakening interest in foreign trade relations and the reasons for the awakening. He outlined the organization, and the work of the chief public and private trade-promoting institutions. He discussed the probable outcome of the present unusual expenditure of capital, energy, and talent in the development of foreign trade.

"It is obvious this extraordinary enthusiasm is born of the present war," he said, "and with the return of peace there will doubtless come much disillusionment and a subsidence of present feverish conditions. The nation will have profited, however, by its sustained attention to trade problems during the war. Through legislative and private initiative it will have secured, more promptly than in normal times, improved banking arrangements, more efficient government trade-promoting service, added experience in co-operation among exporting interests, a firmer grasp of the requirements for successful trading and a more intimate knowledge of trade conditions, especially in the less industrial countries of the world. All this should strengthen us for post-bellum competition, fit us perchance to be peace-makers instead of peace-keepers as we have been in the past."

The next meeting of the club will be held December 4 at the home of Mr. and Mrs. Jacob Van der Zee, at 116 Dodge street.

### FIRST BAND CONCERT NEXT TUESDAY NIGHT

PROGRAM WILL INCLUDE SOLOS  
 BY BERTHA A. COOPER,  
 TEACHER OF VOICE

The first band concert of the season's four will be given in the natural science auditorium at 8:15 next Tuesday evening. Holders of the season tickets, which are sold at a dollar apiece, will go in on these tickets. Others will pay 50 cents admission.

The program has not yet been definitely settled. However, it is known that Bertha A. Cooper, teacher of voice, will appear as soloist. Miss Cooper has been well received in chautauqua.

Fifty-five pieces will be included in the band—about fifteen more than last year.

At the first concert last year the attendance overflowed the seating space, and would-be patrons were actually turned away. The second concert also was a pronounced success.

WANTED—Stenographic work of any kind. Work guaranteed—Call Red 1241 after 6 P. M. 54-75

FOR RENT—I large room and 1 single room, close in. Price \$5.50. Red 1363. 53-3

Dr. C. H. Weller left Tuesday evening for Chicago to spend several days transacting business.

Lucille Everett of Iowa Falls has been visiting her friend Genevieve Buck, freshman in liberal arts.

C. G. Hover of Colon, Panama, who is watch inspector of the government railway in Panama will spend the week end with his friend J. B. Clyde, a graduate student.

Irving J. Barron will be one of the speakers at the Y. M. C. A. conference for high school boys to be held at Beloit, Wisconsin on December 2.

Edith McGrew of Burlington, who entered the liberal arts college as a sophomore last year and was obliged to discontinue her work, has re-entered the University.

Marion R. Lyons of the physical training department has been unable to teach her classes the past few days on account of illness but will resume her work on Wednesday.

Dr. and Mrs. M. B. Call of Greene will visit in Iowa City for homecoming. Dr. Call was a member of the S. A. E. frat while in school here, and Mrs. Call was active in Tri Delta.

ADAMSON RECOVERING

Neil Adamson, who is with the troops at Brownsville, has just been released from the hospital after an attack of malarial fever. Although he is gaining rapidly, Adamson will not be able to resume his work for some time.

Geneva Hanna of Luverne, a former student and a member of Delta Gamma, is the guest of her sister Consuelo Hanna at the Delta Gamma house.

Crippled children at the hospital are rejoicing over three dozen new records for their phonograph. These are the gift of Mrs. C. Yetter. The machine was given by the internes last year.

Dr. E. A. Bess and Guy V. Aldrich will attend a conference of leaders of the student pastor movement in Cleveland Thursday. There will be sixty representatives of church boards of education present. Dr. Bess will represent the student pastors of Iowa and Mr. Aldrich the Young Men's Christian association.

Delta Zeta announces the pledging of Jane Roberts of Iowa City.

Marguerite Roberts of the physical training department and Evalene Babcock, librarian of the educational library, will spend Thanksgiving vacation with Miss Marion Lyon of the physical training department at her home in Chicago.

Mrs. Irving Emery of Cedar Rapids, a graduate, will attend homecoming. Other graduates and friends of the University who have written that they will visit here during the week end are Frances Brown of Des Moines, Corrine Brown, teacher of kindergarten in Cedar Falls, Grace Phillips of Algona, and May Brinkman of Algona.

Fred Jess, freshman dent, was called to his home in Holstein Monday by the death of his cousin.

FOR RENT—Modern furnished double-room. 611 S. Clinton. Phone Red 970. 49-0

Send the Iowan home.

PLAN FOLK DANCES FOR HOMECOMING VISITORS

Should you meet a little Spanish señorita or a Hungarian peasant in a University building do not think she has escaped from Chicago's settlements. She is a University girl.

In preparation for the folk dance program to be given in the women's gymnasium Friday evening girl students and instructors are working overtime. They expect to entertain the visiting ladies and alumnae at 8:15 Friday evening, immediately after the football rally. The entire gymnasium will be thrown open to the public for inspection.

The following program will be given:

- Students of playground course, "When I was a Bachelor"
- Danish "Seven Jumps"
- Swedish "Days' Order"
- Hungarian "Slovak"
- Folk dance from the Carpathian Mountains, "Tatra"
- Spanish "Zoronto"
- Scotch "Bacca Pipes"
- German "Pied Piper"
- Dutch Villagers
- American Country Dance

Mrs. Cotton of Mason City is visiting her daughters Harriet and Elizabeth at the Pi Phi house.

Eva M. Allen of Sioux City, who was graduated from the University last June, is a guest at the Aechoth house this week and for homecoming.

Note this significant fact. In spite of unprecedented conditions, we are still filling orders for coal promptly, carefully, and at a reasonable price. The moral is—

You're sure when you buy of

S. U. I. BAND CONCERT

Tuesday, November 28

First Concert of the Series

The new plan of a season of concerts opens on the above date. It is the plan of the band to give the University and City a real treat in music this season. Last year the first concert was well attended but owing to the fact that there was an unusual amount of entertainments on for the same evening they were asked to repeat the same concert which they did some time later. This year they will give a series of concerts, four in number, and they are offering season tickets at an unusually low price of \$1.00 each. Price of admission at the door 50c. Buy season tickets and save a dollar. On sale at Wieneke's, or buy them from any band man.

THE ARTISTIC EXCELLENCE OF OUR PORTRAITS COMBINED WITH ONE OF OUR LARGE ASSORTMENT OF SUITABLE FRAMES WILL GIVE YOU A GIFT WITH WHICH TO REMEMBER YOUR FRIENDS BESIDES BEING STRICTLY INDIVIDUAL AND AT A MODERATE COST, (MAKE AN APPOINTMENT TODAY.)

THE NEXT S. U. I. DANCE

WILL BE

After Vacation

On Friday, December 8

REMEMBER THE DATE

For Good Cheer

It'll soon be time for gift-giving, boys—and for gift-getting. Don't forget to say a good word for Bradley—where it'll do you the most good.

You can't go wrong with a Bradley, because if it's a Bradley, it's right. There's style in it, there's warmth in it, there's comfort in it, and there's wear in it.

A Bradley chums with you for years. See the many styles and color combinations at the Bradley Dealer in your city.
