DUNLAP QUALITY SERVICE

THE DAILY IOWAN

OWNED AND CONTROLLED BY THE STUDENTS OF THE UNIVERSITY OF IOWA

VOL. XVI—NEW SERIES, VOL. I. IOWA CITY, IOWA, TUESDAY, MAY 28, 1917. NUMBER 197

COMMENCEMENT TO BE THE BEST EVER DESPITE THE WAR

President Appoints Committee of Fifteen Members to Arrange Details for Event.

CLASS OF 1892 WELL REPRESENTED

Graduate of 1862 is Coming Clear from Bessimer, Alabama—Bush Heads Committee.

A bigger and better commencement than ever before, in spite of any difficulties that may come up, is the plan of President Walter A. Jessup for the closing days of this school year. A committee of fifteen faculty members and students has been appointed to arrange the details of the six days of festivities, and it is already at work planning not only the events, but the entertainment of the great crowd of homecomers and other friends which is expected.

The impression that little interest will be taken in commencement events this year, and that alumni and others will not come back on account of the war and because so many seniors have left school, is erroneous, according to Theodore Wanerus, secretary of the University of Iowa association. Although about ninety seniors have gone, more than 400 are yet in school, he says,—enough to make one of the largest classes ever graduated from the University.

The alumni are coming back. Mr. Wanerus is receiving many letters from all over the country giving evidence of that fact. William H. H. Judson, who was graduated from the normal department of the University in 1862 and is now editor of the Bessimer Weekly, at Bessimer, Alabama, has written that he and his wife will come back to Iowa for commencement this year.

From reports received from F. J. Cochran of Iowa City, president of the law class of 1892, it is evident that his class is going after the silver loving cup which will be awarded to the class with the best representation at the anniversary celebration. Of this class the Hon. M. J. Wade of the federal branch and Prof. Eugene Mambaugh of the Harvard Law school are to be here. Among others who are planning to be on hand if possible are H. H. Baker of the Chicago Daily News, H. C. Weaver of Wapello, Robert G. Ficke of Davenport, Mayor Baker of Boone, and Ralph P. Bolton of Des Moines. "This is the class that started some of the faculty on the way to fame," said President Cochran in an interview, "and they have gathered much of it for their very own. As the war does not begin until after this reunion the returns indicate that 1892 Law will make another big showing in this, their twenty-fiftn reunion. There may be others coming, but 1892 Law is on the way right now and will have a full table."

The committee appointed to work out commencement plans is as follows: Prof. Stephen H. Bush, chairman, Theodore Wanerus, Clara May Daley, M. Aleeth Willard, Keith Hamill, Captain Morton C. Mumma, and Profs. E. M. McEwen, R. A. Kuever, A. W. Bryan, C. H. Weller, E. H. Lauer, J. H. Dunlap, W. E. Hays, C. A. Cumming, and H. F. Goodrich.

GRADUATE OF LAST YEAR IS DEAD

Dr. Walter Cardell Succumbs After Long Sickness in Hospital.

Dr. Walter Cardell, graduate of the college of dentistry last year, died at the University hospital a little before 11 o'clock Friday evening. He had been ill at the hospital father's bedside.

Dr. Cardell was graduated from the college of liberal arts in 1912 and then entered the law college. After the first semester h gav up his legal studies to enter the college of dentistry. Since his graduation Dr. Cardell practiced in Lone Tree until his health failed when he was brought to the University hospital for treatment.

While here Cardall was very active in University affairs, being connected for some time with the athletic department of which he was once assistant manager. A year ago he married Anna Densler, also a graduate of the University.

The funeral was held yesterday afternoon at his home in Lone Tree.

MORE CHEM COURSES FOR SUMMER SCHOOL

Great Need For Chemists Shown by War Leads to Increased Number of Courses.

Because of the great war and the demands for efficient chemists, the department of chemistry in the University is offering a larger number of courses than usual for the summer session and will cover the ground more completely than in former years.

Besides the courses for beginners, high school teachers and undergraduates, advance courses in special fields will allow the student to prepare for research or to undertake the investigation of chemical problems. Younger instructors in colleges may engage in such study under the direction of the chemical staff. Facilities are also offered to more advanced chemists in the University laboratories and libraries.

The chemistry committee of the National Research council sent a letter to Prof. E. W. Rockwood of the chemistry department emphasizing the need for chemists. The council urges that chemists should not do what others can do equally well and declares that there are ten men who can become officers to one who can do advanced chemical work. It calls attention to England's action in recalling 128,000 men from trenches to the industrial army at home, and suggests that he who doubts that a military organization is a by-product of industrial efficiency may well compare ermany and China for evidence.

CHEMISTRY CLUB HOLDS FIRST OPEN MEETING

Efforts to bring public attention to the possibilities for professional chemists and the various fields in which they may work featured the first open meeting of the chemist club. About eighty guests were present. The great demand for chemists, the fancy salaries, and the scarcity of men to fill the increasing number of positions were spoken of as inducements to enter work of this kind.

The speakers of the evening were Prof. A. W. Hixson, Prof. W. J. Karslake, Dr. E. W. Rockwood, and S. D. Marquis.

OFFICIAL NOTICE

At four-thirty this afternoon a mass meeting for women will be held in the Natural Science Auditorium. The purpose of the meeting is the discussion of possible forms of service by University women in connection with the war. Addresses will be made by several prominent University people. All women are urged to attend.

W. A. JESSUP.

RED GROSS WORK WILL GO FORWARD WITH NEW EFFORT

Aim is to Get a Membership of 1,500 Members—Already More Than Four Hundred.

BIG CAMPAIGN HAS ALREADY BEGUN

Local Branch of Society to Stage Benefit Program at Englert Theater Tomorrow Night.

With a present membership of more than 425 the Iowa City branch of the Red Cross will conduct a livelier campaign for members during the next few days than ever before Their aim is 1500 members and the campaign will not be closed until everyone in Iowa City has been seen.

Yesterday members were stationed at all down-town corners and in the banks to solicit membership. In the evening the town was thoroughly canvassed by persons in automobiles The receipts of a canteen supper in the home economics building under the direction of Miss Helen Donovan of the home economics building were turned over to the Red Cross organization.

No definite figures are yet attainable as to the exact amount the membership campaign has netted. Half the money is to be used here for the purchasing of materials and the rest is to be sent to Washington to cover the expenses of sterilizing.

Tomorrow night the local branch of the society will put on a benefit program at the Englert. The program will include a movie, Marie Doro in "Oliver Twist," and a home talent vaudeville.

Up to this time more than forty women have received training at the local headquarters in the city hall in the making of bandages, drains pajamas, hospital bed-shirts. More than $250 has been spent on supplies up to this time. Aside from this the Red Cross rooms have been newly furnished.

NOTICE TO SENIOR DENTS

Senior dental students desiring to apply for state board examinations will meet W. H. Bates, secretary of the University ,and a notary public Saturday, June 2 at 9.45 a. m. Applicants must appear before a notary public to legalize the application for examination, according to Dr. F. T. Breene.

Friends of Dr. and Mrs. Lorin Stukey will be grieved to learn of the death of Mrs. Stuckey's father, John Buchanan Ashton, May 16 at Zanesville, Ohio. Mr. Ashton's mother was a direct descendant of James Buchanan, 16th Pres. of the U. S. Two sons, James, at Los Angeles, Cal. and Roy at Riverside, Cal., were unable to be at the funeral.

IOWA SUMMER SESSION AMONG BEST

No Other School Offers So Great a Variety of Education Work.

No other school in the United States is offering in its summer session such advantages in professional education as is the University this year. Most of the larger institutions are offering only a fraction as many courses and have not half so many persons on the staff of instruction.

In psychology fifteen different courses are to be given during the session. The staff includes Professors Starbuck, Patrick, Faris and Williams and Dr. Wallin, Mrs. Gaw, and M. Bunch. Dr. Wallin is a specialist in school hygiene in the public schools in St. Louis.

Fifteen courses will also be given in education. Director Courtis of the research department in the Detroit public schools, is one of the most distinguished of the instructional staff. Others are, Professors Lewis, Horne, King, and Stewart and Dr. Wallin, Mr. Riley, and Dr. Woody.

NEGRO OFFICERS TO TRAIN AT CAPITAL

Captain Mumma Receives Notice of Establishment of Special Camp at Fort Des Moines.

A training camp for negro applicants to the Reserve Officers' Training corps is to be established at Fort Des Moines, according to a letter from the war department received by Captain Morton C. Mumma this week.

The letter advises all regular officers of the infantry, cavalry, field artillery, coast artillery, and engineer corps in the central department that each is authorized to act as a board for the purpose of examining colored applicants as candidates for commissions in the officers' reserve corps to attend the training camp at Fort Des Moines, Iowa. Candidates who are accepted will be given the grade A. B. or C, as denoting the highest degree of suitability, average suitability, or mere suitability. If a man passes, he is informed as to his rating and notified to remain at home until he is notified by the camp commander to report at the camp.

The qualifications governing the acceptance of negro applicants are the same as they have been in the case of white applicants. That is, they must have the equivalent of a high school education or a business education, must meet certain physical requirements, and must, above all, be of good reputation.

Captain Mumma states that he will be ready to examine applicants during office hours at his office in room 104, Old Capitol. Examinations will continue until June 5, when the camp will be opened.

IOWA PROFESSSOR TAKES CALIFORNIA POSITION

Dr. A. L. Grover, assistant professor of pathology and bacteriology, has accepted a professorship in the University of Southern California.

Dr. Grover will leave for New York City June 2 to attend the convention of the American Medical association. From there he will go to Portland, Me., to spend the summer with his parents. He will start for the west sometime in August.

AMBULANCE UNITS WILL TRAIN SOON AT ALLENTOWN, PA.

Application Blanks Now Ready to Be Signed for Service in France.

NEED MORE MEN FOR LOCAL UNITS

Adjutant T. A. Wanerus Receives Notice from Military Headquarters.

With the establishment of a camp for the ambulance units at Allentown, Pa., this week, it is promised that a recruiting officer will soon be detailed to the University to enlist men here waiting to join the service for duty in France.

T. A. Wanerus, adjutant for the Intercollegiate Intelligence Bureau at the University, is already in receipt of advance blanks for registering the men, anl all who have indicated a desire to join the service are directered to call at his office in the Old Capitol building at once and give information relative to themselves which is wanted by the army ambulance corps, which has now assumed a more direct interest in the unit following the first moves to enroll men taken by the Intelligence bureau.

Official word has reached Adjutant Wanerus to the effect that a recruiting officer is now to be detailed "at the *earliest possible date.*" *Delay* in securing a camp site has apparently slower up the enlisting of men, but with the selection of the Allentown, fair grounds the organization, mobilization, and equipment of the ambulance units is now expected to proceed rapidly.

More men are wanted to join the University units. There are at the present time eighty-four applicants for seventy-two positions, but parental objections will prevent some from going and it is not believed that all will be able to pass the physical examination. Some are withdrawing their applications in order to enter other forms of service. Students in the University and alumni of the institution particularly are urged to apply to Mr. Wanerus at once if they wish to join the ambulance units. This University has been asked to furnish two units rather than one, and it is very much desired that the entire complement of seventy-two men be enlisted here and sent to the mobilization camp when called for.

LIBRARY CLOSED WEDNESDAY

The University library will be closed Wednesday, Memorial day, except from 8 until 12.

TO FORM CLUB

There will be a meeting on Tuesday, May 29, at 5 o'clock in room 213, liberal arts, of the women of the faculty, clerical staff, and graduate department, to discuss the formation of a club. The question of qualification for membership will be taken up. All interested are urged to attend.

GEORGE SCHREIBER DEAD

Word has come from Mrs. Schreiber, of Shedd, Oregon, announcing the death of George R. Schreiber on May 14 of Bright's disease. Mr. Schreiber received his master's degree in psychology from the University in July, 1910.

A few months ago a letter was received from him in which he expressed an intention of coming back to Iowa for further graduate work.

THE DAILY IOWAN

Owned and controlled by the STUDENTS AT THE UNIVERSITY OF IOWA

Published every morning except Monday by The Daily Iowan Publishing Company at 208 S. Clinton St., Iowa City, Iowa.

Entered at the post office, Iowa City, Iowa, as second class matter.

HELP THE RED CROSS

No better movement than that for the benfit of the Red Cross society is before the people of the United State at the present time. Soon the nation will be directly confronted with the Liberty Loan bonds, but at the present time the Red Cross is calling for the attention of everyone.

The Red Cross furthers a movement which has everyone's moral support. Moral support, however, does not make the work of the society possible. Now the organization seeks money to use in easing the suffering of war. It is the American Red Cross which is seeking these funds, and money given will be used for the help of American soldiers and sailors.

In peace times the Red Cross is worthy of support in order that it may minimize suffering whenever it has an opportunity. How much more, then, in this time of war is the Red Cross an institution which should be supported by everyone! Young people who will not do direct military service may help through this society; those entering military service give money for their own good and the good of their comrades in arms when they contribute; those too old for military service or unable to do fighting have an opportunity through the Red Cross to be of service.

Everyone everywhere should help the Red Cross society, and University students are called upon and should respond equally with others.

CREDIT WHERE DUE.

Students and others have kept the editors of The Daily Iowan busy receiving compliments regarding the Liars' Edition which appeared on Sunday morning.

Several students have made the remark that they read every word in the paper. One girl said she had tried to read it but they subscribed for only one paper up at her sorority and someone else had the paper every time she wanted to get it. Quite a number said they thought it the best edition of The Daily Iowan during the entire year.

If the studonts are pleased with their paper, we are always glad to know it; what we hear most is not complimentary. And even now the compliments for this issue are not for the editors, for they had, for the most part, very little to do with the material printed.

Most of the copy was concocted in the fertile imaginations of H. C. Hines and eGorge Emerson Davis, both respected students in the department of education. If you appreciated the Liars' Edition of The Daily Iowan, these are the men to whom the credit is due, not to the editors of the paper.

CONFERS WITH ENGINEERS

Dean C. E. Seashore of the graduate college will confer with the faculty of the applied science college at its weekly luncheon in Dean Raymond's office next Wednesday on graduate work for the applied science students.

CARRIE CARSON'S COLUMN

Nelson A. Kellogg, director of athletics, was recently doing picket duty at Ft. Snelling, In the quiet of night a man approached Kellogg very stealthily. In a voice which could be heard in Minneapolis, Kellogg cried:

"Who goes there?"

"A friend with a bottle," answered the man.

"Halt bottle. Pass friend," said Kel.

Local military authorities are encouraging the enlistment of all men employed as clerks in local stores. They will be used in resisting counter-attacks.

O, I can hear the noise
And the yelling of the boys,
As I linger in my room in meditation:
And this yelling of the geeks
Is because there's just two weeks
Till we wander home to spend a long vacation.

First Girl: Why didn't you persuade Red Schiff to go to Fort Snelling?

Second Girl: I didn't want to make Red Cross.

Sorority: They say she is awfully sarcastic.

Sister: Sarcastic? Why, her tongue is so sharp she can pick her teeth with it.

If we said what we think:

No, I'll not be busy but I don't want a date with you.

You should be running a pawnshop, not a clothing store.

I'm feeling rotten and don't care to hear your insane lecture today.

Young man, your father must have been an anthropoid ape.

Where thell 'dshe get that outfit?

If you were a man I'd knock that sarcastic tongue out o' your head.

We're frat brothers now but you wouldn't agot in if I'd had my way.

Your home-town girl is homlier than a mud fence, judging from that picture.

Your eyes are beautiful. Furthermore, I love you, dear.

First Stewed: What luck, matey? Did she give you an answer last night?

Second Stewed: (gloomily) Yes, I got an answer all right. But it was about as satisfactory as a drink out of a liberal arts fountain.

Minnie: What was that trouble between Art Kroppach and that drunken clairvoyant?

Mum: I'm not sure, but I think Art was arrested for striking a happy medium.

Half: Is the Iowa baseball team any good at running bases this year?

Wit: Good? Why, they had to put policemen on all the sacks to arrest the progress of the players.

First Sailor: What do you think of the Secretary's order for sewing in the navy?

Second Sailor: No kick coming. My wife is doing her bit by learning to tatt, so I guess I can tattoo.

WHY NOT?

The following dialogue took place between a cadet and a member of one of the sororities, who evidently is not familiar with the methods of procedure in a military examination:

He—I have been rejected for military service because I lacked three pounds of the required weight.

She—Couldn't you put a couple of stones in your pocket?

He—Well, not very well!

HIKES IN ORDER AT FT. SNELLING

Practice Marching Starts With Two-Hour Tramps Under Full Packs.

BY L. L. LEIGHTON

Ft. Snelling, Minn., May 23—The first real "hike"—or almost real—comes tomorrow when every company takes a two hour view of the surrounding scenery under full packs.

This is merely the beginning of many practice marches to be given the future officers of the conscripted army of the United States. The condition of the men now is very good, but it is hard to surmise how they will feel tomorrow night. Besides the marching scheduled there are five hours of instruction work, so it is easily understood how the day is taken up in military fashion.

"Non-Coms" in Charge.

The first set of non-commissioned officers have been relieved after a weeks duty by the second appointments. It is the policy of all company commanders to give each one a chance as a squad leader or as a sergeant in order that the experience of commanding a small unit be well distributed through the companies. Those Iowa City war representatives of Company Five who were relieved are:

Sergeants Chas. Simons, Lewis L. Leighton; Corporals F. O. West, Lloyd Howell, V. M. Morton, G. N. Spinden.

No others from Iowa City received appointments at this time but no doubt there will be some at the next week's designations. Thoroughness of drill and accurate execution are the watchwords of the camp and each instructor aims to impress this effectively on every member of the Reserve Officers' Training Camp.

Cornhusker is Chief.

Capt. Parker, former commandant of the University of Nebraska cadets, has been designated instructor of the Fifth company. He is well-liked and above all is an efficient instructor.

Under his excellent guidance theh "Fifth" hopes to be represented superior to any other company in the quota of officers chosen at the close of the three months' training. It is the spirit in which the men have undertaken the training that makes their instruction very easy.

Col. Sage, commanding officer of the camp, and Major Enochs, chief instructor, expressed their agreeable surprise in the results of the first week"s work.

Competition is keen and it is up to every man to be on the jump at all times.

Athletic Activities, Too.

Outside indoor baseball is the chief sport at present among the men of the camp. Company teams have been organized anr inter-company games are the order during the hours not drilling.

It is unfortunate that Le Grand Byington, son of Senator O. A. Byington, is confined to the hospital with tonsilitis. Nothing serious is expected only his being sent to the hospital is a matter of precaution always followed in army circles. The work missed is valuable to all and no doubt he regrets it more from that standpoint that from the suffering involved.

Fight Typhoid in Time.

The second inoculation against typhoid fever was given today to those who were subjected to the first ten days ago. Therefore, many sore arms exist throughout the camp tonight.—Iowa City Daily Press.

GIVE RECITAL TONIGHT

Genevieve Tinley assisted by Mabel Moore Maloney, soprano, and Ruth Wilkins, accompanist, will give a piano recital tonight at 8 o'clock in the school of music.

Society and Personal

Grace Crim and Sadie Devine, spent the week end in Cedar Rapids.

Mary Gates, Alpha Chi Omega, spent the week end at Ames and attended the Sigma Chi party.

George Scott and Dora Saylor of Cedar Rapids have been visiting at the Delta Delta Delta house this week.

Audrey Eastburn of Sigourney is a guest at the Delta Delta Delta house.

Florence Billingsley of Des Moines visited Yetive Taake at the Tri Delt house yesterday.

Gretchen Heath of Des Moines is a guest at the Pi Phi house.

Mrs. Holster of Orange City is visiting her daughter, Winifred, at the Pi Phi house.

Grace Dyden, Alpha Chi Omega from Simpson was a guest at the local chapter house last week end.

Florence Rock of Williamsburg is a guest at the Alpha Chi house.

Mrs. George Woodart, of West Union is visiting is visiting her son, George, in this city.

Kathryn Taylor is entertaining her guest, Elizabeth Baily of Sac City, at the Alpha Chi house.

C. L. Drain, Delta Sigma Delta, is spending the week end at Victor visiting friends.

Virginia Klenne of Grinnell is spending the week end at the Alpha Delta Pi house visiting Gladys Coon.

Grace Wylie of Marshalltown is spending the week end with Florence Joeckel at the Pi Beta Phi house.

Lucile and Marion Metcalf, Pi Beta Phi, are spending the week end at a house party in Davenport.

Lorine Leo of Dysart is spending the week end with her sister June at the Alpha Delta Pi house.

Edith Dixon, Delta Gamma, is spending the week end at Davenport attending a house party.

Margaret O'Keefe, Alpha Xi Delta, is spending the week end at Denison visiting friends.

Ada Yoder, Alpha Xi Delta, is spending the week end at her home in Kalona.

Ruth Wilkins, Alpha Xi Delta, is spending the week end at Cedar Rapids visiting friends.

Mr. Pfannebaker, Phi Delta Theta pledge from Sigourney, is spending a few days at the chapter house.

Cortland Cunningham of Cedar Rapids is spending the week end at the Sigma Alpha Epsilon house.

Byron Hill, senior civil engineer, has left the University to take up arsenal work at Rock Island.

Carl G. F. Franzen, who has been visiting the training schools at Minnesota, Wisconsin, and Chicago universities, will return Sunday evening.

The South Dakota state board of dental examiners will hold examinations at Sioux Falls on June 4 instead of June 8 as was previously announced. Volunteers for dental surgeons of the army and navy will be given first consideration, according to Robert Jasman, secretary of the dental board.

THE NEW LIFE INS. WAR CLAUSE VERY RIGID.

The new war clause which will be adopted by all life insurance companies on June 1st reserves the right for the companies to charge any amount extra, which they deem necessary. It will pay you to buy of the Phoenix on or before June 1st. No clause for war service within U. S. E. W. DeNio, 401 Johnson County Bank Building, Phone R 1471.

WRIGLEY'S gives us a wholesome, antiseptic, refreshing confection to take the place of the cave man's pebble.

We help teeth, breath, appetite, digestion and deliciously soothe mouth and throat with this welcome sweetmeat.

WHEN you hear the front-door knocker it means that somebody that's out is tryin' t' get in. An' same way with most other knockers.

No need to "knock" where your product's right. Just tell the facts. Every bit of VELVET is naturally aged two years to make it the smoothest smoking tobacco.

Velvet Joe.

POET CALLS COLORADO "THE ROCK RIBBED STATE OF GRANDEUR"

After seeing the colossal works of Nature in Colorado; scaling the heights of Pike's Peak, and visiting the wonders of the new Rocky Mountain National Park (Estes), an eastern poet described Colorado as "The Rock-Ribbed State of Grandeur."

Probably it would be hard to find a more fitting title for America's Vacation-Land. At any rate it conveys in vivid fashion something of the tremendous impression made by Colorado on the thousands of tourists who behold its glories every year.

More and more, Colorado is becoming recognized all over America as the ideal place for a perfect vacation. The beautiful weather all the year 'round the wonderful air that acts like a tonic and the myriad of interesting things to do and places to see make Colorado pre-eminently the place to go this summer.

Write for our special illustrated literature, showing the latest views of the wonders of Colorado, and giving you all the details about the trip, where to go, what to see and just how little you need to pay. Only $2.25 for the round trip. We will gladly help you plan your vacation.

Make sure you visit Colorado this year, and be also sure you go by the Rock Island Lines.

For tickets, reservations, literature, or information, See H. D. Breene, Iowa City, Iowa.

ENGINEERING DEAN GETS APPOINTMENT

Governor Harding Places Him on Important Railroad Evaluation Committee.

Dean W. G. Raymond of the college of applied science has been elected by Governor W. L. Harding to assist the railroad commission in making an evaluation of the state railroads, according to the Des Moines Register. Dean Raymond modestly admitted the appointment yesterday, but said that through a mistake on the part of the Des Moines reporter, the governor is quoted as giving him some extra credit.

"This is considered especially fortunate," the Register's story quotes the governor, "in view of the fact that Dean Raymond formulated the rules adopted by the interstate commerce commission for taking the physical valuation of public utilities, and probably is better informed on this subject than any other man in the United States."

Dean Raymond stated that the rules were not formulated by him at all, and that the reported misunderstood the governor. What he did do was to act on a certain national committee and to write a part of a report on a plan for physical valuation of railroads which has been pronounced by high authorities to be the best yet proposed.

The commission plans to go fully into the resources and equipment of every railroad in the state. The evaluation will have a great deal to do with future tax levies.

PROFESSOR KAY RETURNS FROM FATHER'S BEDSIDE

Dr. George F. Kay returned Saturday evening from Toronto Canada where he was called by the illness of his father. Dr. Kay spent several days there and while his father is still in a serious condition they feel that he is some better.

Dr. Kay resumed his classes in geology Monday.

SPEAKS AT LANSING, MICH.

Dr. George F. Kay left Monday afternoon for Lansing where he will deliver the high school commencement address. Several other of Dr. Kay's engagements for addresses were taken over by Prof. A. C. Trowbridge in his absence

WAR NOTICES TO SENIORS OF ALL COLLEGES.

If you owe any school debts, or if you contemplate borrowing money to start your respective vocations, phone or see E. W. De Nio at Johnson County Bank Building and buy a security life insurance policy.

The Phoenix Mutual furnishes you with credit form of security that protects your debts. At present the Proenix is writing the most liberal war clause.

After June 1st all companies adopt the uniform war clause which chrages extra premiums for war service. Any one contemplating the creation of a cash estate that furnishes them credit, a savings fund etc. should by all means look over the Phoenix *before*

Phone or write E .W. DeNio, Johnson county Bank Building. Phone Red 1471.

Y. CAMPAIGN FUND MORE THAN $7,200

Local Men Visit Nearby Towns and get Hearty Response on All Hands.

The pledging of $500 at Oxford in fifteen minutes formed the record for the over Sunday campaigns made by Y. M. C. A. committees in nearby towns as a part of the big county canvass being conducted.

Y. M. C. A. members visited most of the towns in the county and addressed mass meetings of the people. Prof. A. W. Hixson and S. K. Stevenson spoke at Lone Tree; the Rev. L. F. Townsend visited Hills; Coach Howard Jones and Prof. C. H. Weller spoke at Sharon Center; Prof. N. A. Brisco and E. E. Johnston were at Unity and Tiffin; and George Grier and Guy V. Aldrich spoke at Oxford in the afternoon, and with A. C. Howell visited North Liberty in the evening.

The community of Oxford pledged $750 altogether. Since this is the home town of Ray Clearman, president of the local Y .M. C. A., the people showed an unusual interest in the work.

A little over $7,200 has been raised up to date. Contributions are beginning to come in from the men at Fort Snelling. The mail has been delayed so that these men just heard of the campaign recently.

The state Y. M. C. A. has asked Secretary Guy V. Aldrich and B. E. Manville to tke charge of the campaign in Cedar county as they have in Johnson county.

Dr. Lorin Stuckey has been out of the city delivering commencement addresses, May 18 at Lineville, Iowa, May 23, at North English, Ia., May 24 at Decatur, Iowa, May 25 at College Springs, Iowa, May 3 at Neola, Iowa.

Echoes From the Liars' Edition

PROFESSORS DECIDE TO RETIRE ALL BIG WORDS FROM SERVICE

Faculty Declare at Recent Meeting That Students Should Know What's Going On.

"GET ME, STEVE?" RECEIVES O. K.

Many Seniors Have Decided to Take Their Courses Over to Get Full Benefit.

It will come as a great relief to the student body to know that hereafter all lectures by professors in class will be delivered in simple United States and that all German and French expressions, such as "zeitgeist" and "dernier cri" will be laid on the shelf forever.

For many years college and university professors have been able to get by as having superior intelligence by the use of enormous and jaw-breaking words, but the products and by-products of our institutions of higher learning have brought the public face to face with the proposition that these graduates have been miserably directed and probably beguiled.

At a meeting of the faculty of all colleges last night it was decided to give the students a chance to know what is being professed in class. All words of two or more syllables will hereafter be pronounced slowly and distinctly, so that their true meaning may seep into the befogged brains of the meek and lowly students. For example, the work hollyhock. Pro. nounced as one work it is a botanical term; but pronounced as two words it becomes very simple. Most students know that holly is a plant to make Christmas joy out of, and any male student will at once recognize hock as a term inherited from his "Uncle." The same is true of the word "mandamus," etc. But there is some danger, however, in such a pronunciation for a work like pachyderm, as a student might interpret it "Pack o' Durham."

Prominent students, when canvassed on the subject, expressed themselves as highly gratified with this new move on the part of the faculties and som eof the seniors contemplate taking their university course over so that they may get the true spirit o fthe recitation and lecture. All lectures on "The Epistomological Physiological Psycho-physical Parralellism of the Grubworm" and such other subjects have been eliminated and each professor will follow any possibly puzzling statement with: "Get me, Steve?" or "How does that strike you?" If a student does not get it he may say "King's X" or "Time Out" until the discussion is sufficiently illuminated. Membership in the Philosophical and Baconian clubs has doubled since this movement was inaugurated and it is thought that church services on Sunday morning will come across with a triple.

WANTED—By two girls for next school year, suite of two rooms near corner of Burlington and Johnson streets. Address X care of Daily Iowan. 198-201.

LOST—Alpha Chi Omega pin. Owner's name on edge. Phone Black 242. 198-9-0

FOUND—Key ring with 3 keys. Owner may have same by paying for this ad.

Students who do things read every Iowan ad.

We are "Taking" The Boys In Uniform

Before leaving for service many of the boys have come to NEWBERG'S and were taken in their uniforms.

Why isn't this a good suggestion for you.

Leave your best picture with the folks at home. We make "faces" for a living at

NEWBERG'S

Your Mother

WILL WANT YOUR PHOTOGRAPH when you have gone to war. It may be several months before she will see you again.

Why not let us take your picture in uniform before you leave for home. Make your engagement now.

Townsend's

Build This Summer

Don't get the idea that because of the war the present is a bad time to build. The fact is, you probably will not find a more fitting time for five or ten years. Prices of building materials are somewhat higher, to be sure, but the increase has been relatively small, and money was never more abundant in the country than right now. Look this table over and draw your conclusions.

PERCENTAGE OF INCREASES IN PRICES SINCE 1914

Potatoes	154
Wheat	140
Beans	135
Corn	130
Canned goods	120
Dry goods	105
Lard	100
Shoes	63
Hogs	62
Coffee	40
Clothing	35
Oats	26
Beef	22
Mill Work	**15**
Lumber	**14**
Labor	**12**

Here is the conclusion:—Don't rent—Build now.
