LORADO TAFT WILL PAY SECOND VISIT TO IOWA THIS WEEK

Noted Sculptor Will Lecture on "The Processes of Sculpture" Wednesday Evening.

TAFT IS AUTHORITY ON SCULPTURE

America's leading sculptor, and probably her foremost exponent of fine arts in general, will visit the University of Iowa this week as a special guest of President Edward M. Coke. Mr. Taft will lecture on "The Processes of Sculpture," and will discuss the work of his contemporaries and his own success as an artist. Expect to make this a West Coast appearance.

Among his friends in the land he will visit are former President Grover Cleveland, who will attend a reception in his honor. Colorado Governor John Love, who will be present to welcome Taft, and University President Edward M. Coke, who will attend the reception.

The evening lecture will be given in the auditorium at 8 o'clock. Professor Coke will introduce Taft and will preside at the reception.

Physical Training Course Now Given

Intended to Train Teachers and Supervisors for Physical Education Work.

Opportunity for Vocational Training of Women at the University of Iowa has been enlarged by the introduction of a special course for the training of teachers and supervisors in department of physical education. In the future it will be open to women who want to teach physical education in public schools.

The department of physical education now offers a course on the principle of which the degree of bach-elor of arts is given. It will be granted to those who satisfactorily complete the course and gain a thorough knowledge of certain special and professional subjects.

In addition to fulfilling the course in physical education, the students must attend one additional lecture in the theory and science of painting.

WILLERS GIVES Art LECTURES

Shows Effect of Bombs on French Cathedrals at Rhemius, Anamosa.

Architectural sketches of the French cathedrals and the epic fire of the railroads in France will be presented by Prof. C. H. Weller, in his lecture on Saturday evening. Prof. Weller has carefully selected a few of the finest domes of the world and has prepared slides of those cathedrals which he desires to have reproduced. He is a man of great ability and has spent many years in the study of architecture.

As the first lecture of the course, he will give a brief survey of the history of architecture, and then proceed to a discussion of the dome of the cathedral of Notre Dame at Paris. He will show slides of the cathedral, and will compare it with other domes of the world. He will also discuss the dome of the cathedral of Chartres, and will show slides of that cathedral, which is considered one of the finest in the world.

The second lecture will be devoted to the dome of the cathedral of Rheims, which is considered one of the finest in the world. Prof. Weller will show slides of the cathedral, and will discuss its history and architecture. He will also compare it with other domes of the world, and will show slides of other cathedrals, such as those at Amiens, Tours, and Chartres.

The third lecture will be devoted to the dome of the cathedral of Chartres, which is considered one of the finest in the world. Prof. Weller will show slides of the cathedral, and will discuss its history and architecture. He will also compare it with other domes of the world, and will show slides of other cathedrals, such as those at Amiens, Tours, and Chartres.

The fourth lecture will be devoted to the dome of the cathedral of Rheims, which is considered one of the finest in the world. Prof. Weller will show slides of the cathedral, and will discuss its history and architecture. He will also compare it with other domes of the world, and will show slides of other cathedrals, such as those at Amiens, Tours, and Chartres.

The fifth lecture will be devoted to the dome of the cathedral of Chartres, which is considered one of the finest in the world. Prof. Weller will show slides of the cathedral, and will discuss its history and architecture. He will also compare it with other domes of the world, and will show slides of other cathedrals, such as those at Amiens, Tours, and Chartres.

The sixth lecture will be devoted to the dome of the cathedral of Rheims, which is considered one of the finest in the world. Prof. Weller will show slides of the cathedral, and will discuss its history and architecture. He will also compare it with other domes of the world, and will show slides of other cathedrals, such as those at Amiens, Tours, and Chartres.

The seventh lecture will be devoted to the dome of the cathedral of Chartres, which is considered one of the finest in the world. Prof. Weller will show slides of the cathedral, and will discuss its history and architecture. He will also compare it with other domes of the world, and will show slides of other cathedrals, such as those at Amiens, Tours, and Chartres.

The eighth lecture will be devoted to the dome of the cathedral of Rheims, which is considered one of the finest in the world. Prof. Weller will show slides of the cathedral, and will discuss its history and architecture. He will also compare it with other domes of the world, and will show slides of other cathedrals, such as those at Amiens, Tours, and Chartres.

The ninth lecture will be devoted to the dome of the cathedral of Chartres, which is considered one of the finest in the world. Prof. Weller will show slides of the cathedral, and will discuss its history and architecture. He will also compare it with other domes of the world, and will show slides of other cathedrals, such as those at Amiens, Tours, and Chartres.

The tenth lecture will be devoted to the dome of the cathedral of Rheims, which is considered one of the finest in the world. Prof. Weller will show slides of the cathedral, and will discuss its history and architecture. He will also compare it with other domes of the world, and will show slides of other cathedrals, such as those at Amiens, Tours, and Chartres.
The College World

No room for "fire-sell." The library at the State University is in danger of being burned because there is no fire extinguisher.

Girls enrolled in business courses.

NOTING TO DO.

The girls who want to do work Saturday nights at Ames, says the State Student. The movies are not always good, the street cars are in poor shape. An occasional Friday night dance when there is no college the following evening has been suggested. Dancing from $2 to $3 should not be a strenuous enough task to lure anyone, even though they did work until late the night before.

PENSING THE GAMES.

This season should bring the taking away of the blanket, but the freshman who takes a date to a football game in violation of the non-participation of the non-participation standard shall not find it easy to remain at the University of Kansas. Dancing at the football games has again been unpopular at that institution, and according to the University Daily Kansas, the student still has much celebrity and when completed the "T" still stands for students. Stipes along the edge of the "T" stand for 110 members.

Engineers enthrall Iowa.

An unusual form of amusement was afforded Co. E. at Engineers at Y. M. C. A. headquarters in Des Moines yesterday by sending out masses from the student homes in Marion. Sergeant Elmer Wilson had his old home town that he carried through the civil war. Hill Hall and Walter Jones brought their mare down with which in the battle of Chicago they stood on as a unit on the edge of the crowd, and without等到 the parade of horses sold went by. The best part was John Gifford who had his mare which he is慣れ used on the long march from Atlanta to the sea. Together they gave a realistic war scene for the benefit of the student body.

Engineers are entertained.

**You Buy Shoe Service Here**

No matter what you pay for Sela Shoes, you get more for your money.

The cost of extra repairs on inferior shoes will often offset the difference in price of a pair of Sela shoes.

Don't forget that, after all, you buy shoe service—not shoes.

Someone said shoes ought to be sold on a mileage basis. We subscribe to it. We offer you new soles and tips of the kind that keep your poor feet.

The good shine on the outside and poor quality which will turn you into decline—just rap off.

**PROFESSOR DILL PERFECTS**

**PRESENTATION METHODS**

Prof. H. B. Dill of the science department has perfected some valuable new methods for the making of artificial accessories to be used in the science group work.

Formerly each portion of the plant specimen has been cut separately and assembled by hand requiring a great deal of time and expense. In the system now employed he is able to cut an entire plant or group of plants at a time. The great difficulty which has interfered with the work in the past is the cost of skilled labor is eliminated.

Professor Dill has also made the discovery of a certain wax composition to be used in the casting by which the plant becomes as permanent as glass. Clear Lake to Tom Gillespie, Phi Delta Chi, took place Wednesday evening at the English Lutheran church. Mrs. Gillespie has returned to her home in Clear Lake for the present. Mr. Gillespie is a senior in the college of pharmacy and will continue his work here.

Mr. Cahill of Cedar Rapids is the bride of his sister Adeline Cahill, Alpha Chi Omega.

Grace Roberts of Williamsburg is spending the weekend at the Alpha Chi Omega homes.

Mariette Abell, who is teaching at Keokuk, has arrived late at the Alpha Delta Pi house.

Mrs. J. Pearson Treat, grand president of the Delta Gamma sorority, will arrive Sunday for a few days rest at the chapter house.

Bob Poli will hold open house from four till six this afternoon.

Bide Winterfield, who is teaching at Indianola, and Ada Vorder, teaching at Galena, are weekend guests at the Alpha Xi Delta house.

Alpha Xi Delta announces the pletion of Less May Parsons.

CORNELL LEAD OVERCOME
BY HAWKEYE ELEVEN

On the line, Jewett's work sparked.

When he was returned to the Iowa 45-yard line, in a spectacular play, Vincent, Lackman, in the first play, kicked to Cornell's 25-yard line. The half passed and for the greater part of the first half the Cornhuskers had the ball across the Iowa line.

Then Iowa started toward the victories goal by consistent strides of short gains. Vincent, who injured himself in the second quarter, returned the kickoff to the Iowa 15-yard line.

In the closing minutes of the first half, Vincent gained five yards for a first down and then went through the opposing line to throw forty yard smash for a touchdown. This was the last quarter. The remainder of the second quarter was rather featureless. It ended with the ball in possession of the Purple and White at about the center of the field.

Elsie, the visiting fullback, with the wind at his back, kicked the ball toward the end zone. The ball was returned to the Iowa 25-yard line for a first down and the Cornhuskers gained five yards on the next play. Elsie, returning the kickoff shot at the end of the second quarter, with the wind in his face, was returned behind the Iowa five-yard line.

The rest of the second quarter was rather featureless. It ended with the ball in possession of the Purple and White at about the center of the field.
