MASS MEETING AT SEVEN TONIGHT. BACK THE TEAM!

Square Dance Will Feature Big Mass Meeting Program

Great Crowd Expected at Monster Pep Meeting at Natural Science Auditorium

Hawkeye Team to be on Platform

Dean Toots Will Precede and Mary Kincaud and "Bill" Folsker Give Talks.

Everything is in readiness for the mass meeting in natural sciences auditorium at 7:15 Monday evening. The program will be announced by yesterday's Iowa will emote before, calling that the committee in charge has decided that the quarter note which was planned would be out of place as a marking of this sort.

By eliminating this feature of the program it will be possible to concentrate more on a shorter program and emphasize the square dances and the open air part of the evening's entertainment. This plan, of course, will enable the meeting in natural sciences auditorium to plan to help this new feature. The committee in charge of arrangements promises that everything will be in good time for men to take their little Dykes dates, under the usual translation of the many New Year's joy circles. Your services are greatly appreciated by many girls who don't bring boys and if you girls don't bring men.

Here are the facts that the student should know about the mass meeting tonight.

The meeting will begin at 7:15 o'clock.

The first part of the meeting will be held in natural sciences auditorium.

Every loyal student with two cues of the school to be chosen.

Dean W. J. Toots, president, speech—Mary Kincaud, Secretary—"Bill" Folsker, Speech—Mr. X.

When the regular program is over, the band will wind out of the auditorium before the audience. Led by the band the square dance will begin at the natural sciences building and file the way the block to Clinton street at a rapid trot. The square dancing will begin, the band, however, will be in the center of the street in regular formation.

The line of cars from Iowa avenue to Clinton street is as follows: Fourth on Clinton to College street; next on College street to Linn street; then one block north to Iowa avenue; west on Iowa avenue to the steps of the Old Capitol, which will be in all.

Wilson makes Liberty

Loan proclamation.

Washington, D. C., Oct. 14—(Special)—The President's Liberty loan proclamation, issued today, fol-

lowed:

By the President of the United States of America, a Proclamation:

The second Liberty loan gives the people of the United States another opportunity to lend their funds to their government to sustain their country at war. The might of the United States is being mobilized and organized to strike a mortal blow at autocracy in defense of enslaved American rights and of the cause of liberty. Billions of dollars are required to arm, feed, and clothe the brave men who are going forth to fight the country's battles and to assist the nations with whom we are making common cause against a common foe. To subscribe to the Liberty loan is to perform a service of patriotism.

Now, therefore, I, Woodrow Wilson, president of the United States of America, do appoint Wednesday, the 14th of October, as Liberty Day.

NINE SCIENTISTS WILL DISCUSS WAR

Dean G. F. Kay will give First Lecture on the Relation of Science to the War.

"The Relation of Science to National Welfare and the Great War," is to be discussed by lecturers in the symposium, the schedule for which was announced Wednesday. Nine prominent scientists have been selected to give this course of lectures in the University.

"Certainly there is opportunity here for the students of Iowa to do something for preparedness. It is the patriotic duty of every loyal Ameri-

can to know how we can make the most of our future as a nation," Prof. G. L. Hawes of the department of animal biology, declares.

"The progress of the great war will be characterized by patriotism as a struggle between the wife of scien-
tist-men, Professor Hawes con-

cluded. "Germany was certainly right in all the science she had. Not un-
til the Allies took possession of their men of science, could there be hope for democracy.

But Dr. Hawes asserts that effec-
tive scientific warfare is not the aim of science. "The real goal of science is the uplift of mankind. Science provided the basis for the progress of civilization before the war began, his hope to make the world a better place to live in after the war is over."

Dean G. F. Kay will give the first lecture of the course a work from seven to eight at 7:30.

GIRLS CELEBRATE BIRTHDAYS

METHODOIST GIRLS INSTALL CHAPTER

First Chapter of Kappa Phi Club Organized at Iowa for Girls of Methodist Preferences.

A new club for Methodist girls was organized last year and Wednesday evening was installed as the Beta chapter of the Kappa Phi club. Mrs. Thompson and Mrs. Kent, both of this community, and president of Alpha chapter at Kansas University, were in Iowa City and installed the chapter.

Kappa Phi is a club which has been organized to promote friendship among Methodist girls and to give the women in a Iowa university the advantages that women have at a sectarian college. Its aim is to bring Methodist girls together. Membership is limited to women who either belong to the Methodist church or prefer that church while in the University, and show an interest in the work of the club. All phases of church life will be studied and women prepared for the church of tomorrow. Besides this there is a distinct social side which will bring the girls of one class to know each other as Methodists.

Eleven girls were initiated as charter members. The following officers have been elected: Ruth Season, president; Rosalee Bush, vice-president; Emily Fisher, secretary; Raitz Holaday, treas.; Laura Sager, chairman of membership committee; George Wise, chairman of program committee; Agnes Duesen, librarian; Jeannette Parrott, chairman of religious committee; Katharine Dayton, religious education committee; Gladys Snyder, social committee; Claire Horath, handbook; and patroon, Mrs. L. F. Townsend, Mrs. W. F. Ober, Mrs. Nettie A. Austin and Dr. Mary Kirk, heating.

QUEEN MARIE'S LAST MEETING

Grace May, Queen of Queen Marie's last meeting, presented Rose Tubbs, classmate, a bouquet of roses and an autographed photograph of herself.

WORK OF THE RESTORING

Psalms and Wonders

With the passage of another holiday, the ladies of Queen Marie have been busy with their various duties, with their organizations, and their various activities. The organization of the semi-annual meetings of Queen Marie will be held on our campus in the coming week.

An initiative will be made by the editors and Augustus Ward, and the abilities of all students, that our ladies of the college are always on the lookout for their student friends, and have been trying to bring them to the church.

The meeting of the Queen Marie organization will be held on Thursday afternoon, and the rest of the week will be spent in practising.

Preliminary plans are being made for the annual banquet, which is to be held on Friday evening, and which will be attended by the whole college.
