Clothes for real Americans

Here are three serious minded youngsters. It’s hard telling which one’s luckiest.

And each one’s “doing his bit.” Father’s doing it by keeping the “pot boiling” at home. He’s making every dollar do its duty; looking twice at what he spends and twice at what he buys. And he buys

Hart Schaffner & Marx
all-wool clothes

You ought to buy them, too, and buy them here; because they’ll last you a long time and will cost you much less in the end.

And all the while you’re wearing them your satisfaction’s guaranteed and the guarantee is as broad as you care to make it.

**ADDITIONS HAVE BEEN MADE TO THE LAW LIBRARY**

Collection Increased By The Latest Reports, Statutes, and Text Books.

---

**ADULT ROBES NOW AVAILABLE**

Increased Appropriations Enables The Directors To Make The Library One Of The Best.

The library of the college, of law which already contains about 19,000 volumes, is being much enlarged this year. The appropriations hereafter have been more than adequate to keep up continuations and to keep abreast of current publications, through from time to time substantial

additions have been made. Hereafter more adequate funds will be available. This additions this year are of three classes, (1) Ameri-

can reports, (2) statutes of the va-

ried states, (3) Books.

American Reports Added.
**The American reports now be-

ing added the library will contain, with a very few exceptions, all the de-

scriptions hereafter to the present. The few exceptions to the for A

have ever been published in Iowa, and they are now in process of being

to include duties published newspapers and law journals. The first example to be the for-

are, (1) the following sets, to-

and two volumes not at present given in the market, Lebiste's District Court (CALL) 2 vols, MILL (6th Car., 1847) 18 vols, Sheriff's Law (5th Car.) 4, 5 and 6 (VII.) Patent Johnson and brothers, court of appeals (VII.) books. There is New York (6th Car.) 1 reports may of some of the inferior Pennsylvania

be noted that the library contains the published re-

ports of all American inferior courts of any of the superior courts, with, the exceptions just noted.

Purchase Complishments. At to statutory law the law school has not now attempted to get all the

modern law, or even the legisla-

of all the states but instead is working for work that state the last

of the year in more. The latest compiled statistics, instead volumes of each state, will be supplementation by subsequent

creative acts of the legislatures so that the law school has a knowledge of what if any statute now in force in any of our states. The present compilation is

but not completely accompli-

sicked this. The compiled laws of a state have not been purchased because new compilations are in im-

mediate progress.

Keystones completed Thrus-

day afternoon which is too be in honor of their national grand secretary, Mrs. Lily King, as a guest at the library house this week.
