LIBERTY LOAN TOTALS
REACH $100,000 MARK
FRESHMAN LEAD IN L. A. COLLEGE BY REACHING $10,000
All College Make Final Sput And Net Large Returns at the Finish.

FACULTY SUBSCRIPTIONS $50,100
Scrupulous Returns Hold Minute Report Until the Latter
Part of the Year.

The Liberty loan campaign among the students and faculty at the Uni-
versity of Iowa has reached the $140,000 mark. Receipts last night
drove the total to $140,000, and a number of subscriptions are yet
to be turned in. The students are close to the $50,000 goal, but the faculty have a few hundred to spare.

The final reports are necessarily still tentative, and it will not be possible to publish exact statements until the last of this week. From the reports already in, however, there can be little doubt that the University of Iowa is a loyal, a faithful, and the entire student body did its full share in the Liberty Loan drive.

The Liberal Arts college is now at the largest subscription, total-
ly over $25,000. The freshmen have raised $10,000 of this, a mark turn-
over which their leader, John C. W. Banke, and his several teams
have pushed all during the campaign, but was not until yesterday, how-
ever, that the drive was finished in this mark. Over 150 individual teachers of this class have purchased bonds.

But once the juniors, with over $5,000 raised by the several teams
under the presidency of their president, G. Harold Piper, had just been first in the Liberal Arts group, the seniors stepped on Monday, when the freshmen passed by a slight margin.

The sophomores rank third with over $3,000 less than the seniors. Ely Ross and Yoel and his team have been working constantly all during the campaign, and made an exceptional show yesterday.

The seniors, after missing last week, made very good gains yesterday, and surely did their full share, in proportion to the size of their class.

History Subscription Large.
The Medical School in the lead of the other colleges. All four classes of the Medical school have turned in under $5,000, and it is believed that this college has the largest percentage of its students subscribing.

The pharmacies, although they gave the best enrollment in the University, are not keeping in proportion to their numbers, as shown by the return of their campaign. Their total was "1 per cent only.

Dents Finish Strong.
One class in the Dental school mot-
y was when about 8 o'clock last night the senior dentists, who up to that time had been the "sleepers," were called to order. They announced, brought in a good supply of subscriptions, and turned in $1,500, all signed. Soon after the junior dentists brought in a stack just a little larger.

Away off at the Rockeys meeting at the foot of Lookout mountain, up above the rocks, lay the famous Phi Beta Kappa. The famous Phi Beta Kappa, built on a rock, on a cliff, on a peak, was the focal point of one of the main aislesides cut out of the mountains. But this day not only was it in stone in which Iowa's college is interested. At this point is located the Colorado School of Mines. Athletic have not enjoyed any particular success there this year. On the contrary, the last two years have been particularly disap-
pointing. Not until this fall was the team in a position to be a factor in the game.

Barack Leak, who is in charge of the football situation, has been working hard for several weeks. Millikan, the head coach, has been successful in bringing in a large number of the extra ticket holders.

Spend Your Christmas.

The country is suffering a great sugar shortage. One-third of our sugar is exported to the people of Belgium and France. Who has no room for gifts for girls? This year let your University to day contribute a few of their little personal pleasures to the gift parties.

It is a well-known fact that most college girls are very fond of candy and the students of the University are no exception. Our and others in France are not plentifully supplied with many little sweet delicacies for them to indulge in. It is a great luxury for them to have a little candy in their tempting quality and is a great luxury to receive such a present.

These are only a few of the simple yet most thoughtful things that can be done to make a college girl happy during this Christmas season. A simple gesture of kindness is often the one that will bring a smile to the face of a college girl who is away from home.

The place most commonly used for this purpose is the Women's Union, but we do not recommend that the gift be left there. It would be better to deliver it personally. The girls in the Women's Union are very busy at this time of year and cannot always find time to write long, personal letters.

The work of food administration this year has the food administration — offers an opportunity for service in the war which is open to every individual who may serve humanity.

The work has been conducted on a large scale and the men involved have been divided into township camps. In the camps, by signing a signifying their desire to cooperate in the successful methods of combating insects such as mosquitoes, flies and lice. Those individuals who have not yet signed are invited to do so.

Forty girls are invited to join the food administration, the newspaper reports.

Not that it is desirable to have girls in the army but it is possible that they may be of service. Colonel H. C. Waller, the chairman of the general committee, said that he had not yet been able to assure a sub-license and no meeting will be held tonight. Another meeting may be held Saturday at which only President W. A. Scipio, who has started several campaigns against the lice, will be present.

One of the great problems in the new movement is the control of insects. Colonel Scipio, who has been working to prevent the spread of lice, will be present at the meeting.

The great opportunity for women to help in the war is through food conservation," declared Dr. H. S. Whitehead, chairman of the food administration for Johnson County.

This quarter will mark a real change in the work of the first classes of military students. From now on all that will be regular army

With the snow all over the ground, Coach Howard Jones said the boys and girls had to practice in the same way they have to practice in all day yesterday afternoon, and everybody went into the basement of the gymnasium. The team did not come running to practice in a group [like they do on the field in a football game], but the men came streaming along. The men who came out first did not receive any rest but went right to work. Finally when all the players had come, one of the players, the coach picked off three of them, snapped their fingers, and they started right up. Just about that time the boys seemed to be afraid of him, and the coach talked very gently to another one who was watching the practice. The boys do not see all at once changed by the defeat last Saturday, but everybody is working hard for the game next Saturday against the great Lakes training school. Boys do not realize how hard the players have to practice in every game, if some of the girls would go down and see, say, once a week, and learn how the boys practice, and how hard they would work, they would probably have a better team the rest of the season.
