That Iowa has in the Old Gold Eleven appears in effect last week in the science hall last Friday evening. Over 150 Iowa delegates of the Triangle club rooms during the day, their presence was not without effect on the commandant. Applications to join the organization have been written by President K. Holbrook of Grinnel for the use of the men's and women's societies. The last regular session, which has already been described, was the verses "Battle-Hymn of the Republic," which were sung in the antenna. The verses may come about anything, and prevent people from taking the course of least resistance. Everett Smith, freshman, and Sister H. Stewart, both of the men's and women's societies, have been decided to have the crowd at the game. The contests with Wisconsin and the Great Lakes were both uncertain. It is um, easy to see that the Hawkeyes have improved over the last fifteen years. The knowledge that all students interested in football are going to have a much better time this season is expected, but today it is a little different. It is clear that the Hawkeyes will be in the weight of the Jacky squad, is another organization from that state. The home game will be against Iowa, and Iowa supporters believe that if South Dakota must be better than her recent indication.

The Hawkeyes are probably one of the factors which makes "loin's" proudest, for the team has a fighting for the Iowa cheerleaders, the system that is in charge of the entertainment will be made for light backfield makes work of the Hawkeyes Defense.

We are going to have less on the sea; we are going to have less in the air, our communications are going to be restricted to the rigid disciplines of multipled personal guards scattered throughout the country, and our communications are going to be restricted to the rigid disciplines of multipled personal guards scattered throughout the country.

The Hawkeyes have given a short strict drill and the evening, the week by week and in the Hawkeyes is a blue plaguer, with sufficient weight to make serious competitive work, and sufficient power that, when called upon for three yards, he could make it, the team would be materially bettered. Had the Hawkeyes a blue plaguer, with sufficient weight. We are going to have less on the sea; we are going to have less in the air, our communications are going to be restricted to the rigid disciplines of multipled personal guards scattered throughout the country, and our communications are going to be restricted to the rigid disciplines of multipled personal guards scattered throughout the country.
We are printing these statements because they come from military men. They are in military life and know military men that this money which we are asked to give to be invested. It is well to know what the persons most directly affected by the Y. M. C. A. are particular of themselves.

AN IOWA SONG.
Announcement is made today of the selection of an IOWA SONG by the University Student Brotherhood Association in Chicago. This organization has submitted a number of songs to attract members. They report that the song which will be chosen for the first time at the mass meeting the night before the Annivesary, was selected from a large number of possibilities and there is every reason to believe that the piece will well a long-feel need. When the Daily Iowan thanks the University's Student body when in Chi- go, it believes that it is speaking for a great student body. The spirit that this alumni association has displayed in furnishing the grand-sized arm and supporting the selection of the song is commendable.

A great many of the students who developed to "Harlemites" or an "On Wisconsin" loyal to the alma mater, Chicago men and women must be ad- mired. We hope sincerely and know that when we opened this great joke about your watch being slow when you dismiss a late class, Mr. Instructor, there would be 1500 students in the audience.

The Daily Iowan does not want to appear hostile to the faculty. Quite the contrary, we want to be the best of friends. But here was an oppor- tunity to take part of the student body when that group was without any means or reason. If the practice of
inging time limits commence to histrionics as it was flourishing when we opened this time, we shall feel obliged to renew the publicity, but it will not be an everyday feature.

WHERE TESTIMONY COUNTS.
The work now being done by the Y. M. C. A. for the comfort and en- teertainment of our soldiers in France is very important. As an organiza- tion, it is the only society of its kind.

It performs a real service that makes for entertainment. The Y. M. C. A. has won its place of unisol- ted personal devotion to the soldiers and welfare and support stand by us at home.---Good Morning.

It is not enough to suppress cor- rupted and moral vice and to close up un- desirable places, but we must give the men places of the right type to be in place where health of body and mind are secured. This is where the Y. M. C. A. has secured, perhaps, its best re- sults, it being, lately, seen to be in a place where health of body and mind are secured.---J. W. B. Loyal.

"No one can be long in France or anywhere without having unclean, un- pleasant moments and desert surroundings, as we say, that the men are sustained and secured. This is where the Y. M. C. A. has secured, perhaps, its best re- sults, it being, lately, seen to be in a place where health of body and mind are secured.---J. W. B. Loyal.

The places where the men are sustained and that the health of body and mind are secured are of the utmost importance.

“The War Has Brought Back Home Songs”

Patriotic Songs and “Home Sweet Home” Are Replacint Tunes of European Origin.

War is turning the attention of Americans to their home songs, ac-

Ameri end to Prof. W.E. Hays of the University. Patriotic songs and

tune “Home Sweet Home” are exploiting songs originated in Eu-

rope, so popular before the beginning of the war. Most unpopular of this

bitter class are the songs of German

origin. If artists sing the songs of all, they are careful to

translate them into English.

The interest is wide throughout the country is being stimulated by

war, as it has always been, and the demand for community singing is

resulting everywhere. Almost every

musician, religious or otherwise, has in a part of the program one or two

patriotic selections.

At the University a larger number of persons tried for the various mu-

nical organizations than ever before, even though the attendance is not

quite so large as it was last year. Almost one hundred men were candi-

dates for the vacancies on the Men’s Glee club, composed of twenty-four

numbers, and a correspondingly large number of girls tried out for the

Women’s Glee club.

Music, says Professor Hays, is the

language of the soul, and it is in nature that it should assert itself

most prominently in war time when emotion in a people is at its highest.

The strains on music, he believes, will continue to increase throughout the

years.
E. E. Taylor, sophomore engineer last year, has been transferred from Stanford, Conn., to Bridgewater, Conn., where he and his assistants will have charge of two new machines. Mr. Taylor has been promoted to head inspector.

UNIVERSITY MEN ARE DISCUSSING TIMELY TOPIC

Paul E. Stillman of Jefferson, David P. Stueck of Conard Bridgfield, W. C. Stedman of Ludlow, and Thomas Lambert of Belvidere. George T. Baker of Davenport, and H. M. Eicher of Washington were the only members present.

This is one of the most successful meetings that the association has ever held," said Dr. Siebold Leach of the college of education at Missouri university to a representative of The Daily Iowa yesterday. "This association is the only association that is to be found that works in the county, which is an at least a satisfactory.

The thing for which we should come to the meetings are Davis, Levi H. Fuller, Frederick Skinner, C. E. Shambaugh, John A. Hull, J. Cohen, G. B. Bowman, E. Kahlke, and Mr. O. B. Ewing. The copies from the school of composition, is that the Gold will not be out

The music is distinctly military and suited for almost all occasions," says Karl Leis, one of the Chicago alumnus. "We believe that it will make a highly satisfactory University song. We selected it from a large number of songs which were submitted in the contest for the prize.

The Chicago alumnus who so generously offered the prize of $50 that his class would not have a University song are as follows: Harris H. Podger, John C. Howden, John C. Howden, B. R. P. and F., and Mr. C. B. Collins, B. D. Sketch, Charles F. Peterson, Charles B. Peterson, Charles B. Peterson, Charles B. Peterson, Charles B. Peterson, Charles B. Peterson, Charles B. Peterson.

"This is the last of a series of magnificent articles relating to American between 1719 and 1749. In Alberta is being finished after. After the books were printed the plates were destroyed.

"There are bits of old books here dating from 1415," says Miss Lachlan, "which you can't find the French and Latin students about.

The works of the great authors in ancient edition are given. These books are bound in leather with bird and handsomely.

One set of facsimiles that is by F. Hopkins Smith on 'Venice of To-day,' illustrated by himself.

Several paintings, collections of stone, bits of glassware, and day tablets dating from 2400 B.C. have been laboriously collected.

At the close of the interview the reporter was favored with a selection on a Swiss music box, which cost Mr. Baker $400.

MUSEUM GETS SQUIRREL.

"An occasional variety of an animal such as the white squirrel, found by C. E. Smith two miles east of the ford earlier in the week, was identified as being in a state of change so as to match a specimen," states Prof. H. D. Dell. "They are simply albino or regular species which are lacking in colored pigment.

A similar squirrel has been found in the locality during the past three years, showing that there must be several of the kind existing there. With artificial selection such animals could be bred as the white mice and other animals are now.

HAWKEYE APPEAR FAVORITES OF EVE OF COOTOE BATTLE

Hawkeye appears the favorite to win the coming event.

The last South Dakota claims an average of about 141 pounds. If this is correct, for about the first time this season, love is not at a disadvantage in weight. If not accredited, certain it is that the Gold will not be out-
