SECRETARY OF WAR GIVES ENGINEERS ADDITIONAL TIME

Approved Plan Extending the Time of Enlistment To January 31.

DEAR RAYMOND RECEIVES NOTICE

Students of High Standing Will Be Drafted Will Be Allowed To Complete Course.

President Hoare of Case school of Applied Science at Cleveland wrote W. O. Raymond that the Secretary of War has approved the order for extending the time of enlistment of engineering students in Jan. 911. (See Hoare) has also made clear the plan for providing that students of high standing who are drafted will be allowed to serve in the United States or- der corps and remain in college until graduation. Each student will have the right to determine the number of years he wishes to serve.

This action is the result of a meeting of deans and presidents of the various engineering colleges over the United States. The meeting was held in New York last week and a commis- sion of men, one of whom was President Hoare, was sent to Wash- ington to confer with Mr. Baker, who received the resolution. The report of this meeting was read to the college at the last regular meeting, and the college must complete their work.

The engineering council presented the- mself to President Hoare, who said that the engineering council was made up of representatives from the American society of civil engineers, American society of mechanical engineers, American society of mechanical American Institute of Electrical engi-

PUBLICITY on the tag, "cease buying all articles which are unsatisfactory," if he be placed where he is to retire within our shells. They fail when the women who attended last Saturday fore decide which film to see at the theaters, and our amusement devices, such as at the front. They would have us believe the same thing. The extremist does not want to clamp down this hour. Why? To do all we can to aid the government in winning the war. And one thing. The extremists want to clamp down this hour. Why? To win the war. **FRANCE IS NO PLACE FOR COLLEGE WOMEN**

University Opinion Declares That Place for Women Is in the U.S.A.

Is it a woman's place to go to France to minister to the soldiers? One University girl has declared that such is her ambition. The general trend of opinion, among students and faculty women, is that it is highly indefensible for young women to go from the United States to France for war work of any kind, unless they have been regularly enrolled in some branch of service work or nursing, for which they are specially fitted by training.

The suggestions that untrained women should go to France to help the soldiers escape to me to indicate a most commendable desire to help, but an ignorance of the way in which the war relief is being carried on, was the statement of Dorothy Denore of the English department. The proposition is not feasible, according to Florence Hiller of the Romance language department, who further states that no women past the age of thirty years are being accepted for work abroad.

The idea is not popular with the great majority of University girls. "It is absurd," said one. "Leave me on the bottom shelf," says another.

"It is all book," said a professor unemotionally.

XMAS CARDS BEING SOLD BY Y. W. GIRLS

Christmas cards are being sold this week by the Y. W. C. A. in all the buildings of the University. The cards were designed by Lillian Prentice, a junior liberal arts student and have been attractively printed in red and black on gray background.

There are two different views of University buildings, both of which are entirely new. The old view is a night scene with the dome illuminated. The other view is of the entrance to natural science building. All are snow scenes. The cards bear Christmas messages and also space for personal correspondence.

"Joy to the world, the Lord is come" and "Christmas awakens the happy hope" are the general carrier of the messages.

The Y. W. C. A. have placed fliers in all of the various buildings of the University and will sell cards as work as long as the supply lasts. One dollar consists of two of the nature science building and fifteen hundred t of old capital have been printed.
