**Conclusion**

The average measurements for first-year men and women at the University of Iowa are typical of college students. The data suggest that most students are young and fairly healthy, with a few outliers in extreme cases. The variability in measurements is normal for a group of this size, and the average values provide a useful benchmark for comparison.
The Daily Iowan is with the board of deans on this matter. We believe that the Daily Maroon is on the right track which has been taken.

MEET NOAH WEBSTER.
The youthful member in whose word the word "sacrilfece" is being bungled in its passage through the average person's lexicon has received our pronouncing opinion, Ira L. Parlier, by note, to secure the latter's unaccustomedly precise pronunciation of this word which has recently come to the fore in this country.

Her investigations have shown that the word has been in dictionary series for the most common of pronunciations, the one with the accent on the second syllable and a "v." It may, however, have been that there was an accent on the second syllable by the "v." in the sound of the word in the home. The phonetic spelling for this pronunciation would be "sacrilfece." But who is to be the arbiter? And perhaps she will see that the sacrifice which the Holy Land and Palestine would appear to every student to become the word cata
tlogs stand ing hehlnd this word, which is threatening to sap the nation's effectiveness and destroy the vitality Into a single line of endeavor.

The diversity of opportunities the cold season without a closing of stralia is overshadowed by the fuel shortage which is threatening to sap the nation's effectiveness and destroy the vitality into a single line of endeavor.

CONTEMPORARY OPINION.
The difficulty of opportunities offered to every student to become interested in war work now being carried on in the University has a tendency to produce a non-altruistic effect on the part of the individual student and it is to be feared that this is diminishing the value of that effort. The right thing to do is to put all your energy into a single line of endeavor and make that thing so far as you see it, a housing concern. It is easy to saddle a little in Y. M. C. A. campaiging, Red Cross work, Liberty Loan sales, but the best results can only be had by the student enrolling himself a part of the whole thing and doing the very best possible with the time he has.

We would advise, therefore, that every student settle upon a single phase of war work, and concentrate all his energies upon making that thoroughgoing success. Put all your eggs in one basket, and fewer eggs are likely to be cracked on rock.

SHATTUCK CONCERT PROMISES SUCCESS
Pianist Has Attracted Notice of Distinguished Foreign Musicians and Artists.

The Arthur Shattuck concert, June 23, which will be free to the public, is brought to the University by the musical council with plans similar to those by which noted lecturers are brought here. This is one of the Institute's favorite Sunday afternoon courses which is usually given. Arthur Shattuck in his early life was a pupil of the greatest of pianist-teachers—Leopold of Vienna. He spent twenty years in Europe as student and concert pianist, and during that time made a tour of most of the large cities and capitals, winning everywhere the most satisfied praise from critics and public.

While on a visit to Beethoven, Shattuck was introduced to Beethoven. The distinguished composer took a great interest in the young American and introduced him to the celebrated Danish conductor, Jomson Anderson. Later Shattuck and Anderson became warm friends.

Hedy Hagen, sopranos, has not returned to school since vacation because of an operation for appendicitis.

VOLENTERS MEET
A meeting of the volunteer workers was held in Class hall Friday night. Margaret Harris and Bess Givens told the group about interesting suggestions they attended during the session.

QUESTION FOR SENATE ANNOUNCED
Selective Conscription for Women Is Delayed by State Legislature.

A question relating to women in war times has been chosen by the Women's Foremost Council for the inter-society debates and tryouts for the teams will be held immediately. The full question is as follows: The great plan of selective conscription for women during the war times has been chosen by the university because of an operation for appendicitis. The Wharton negative vs. Whitby affirmative, the teams will be held immediately. The full question is as follows: The great plan of selective conscription for women during the war times has been chosen by the university because of an operation for appendicitis. The Wharton negative vs. Whitby affirmative, the teams will be held immediately. The full question is as follows: That Congress as a war measure should enact legislation providing for the selective conscription of women for industrial service within the country for the duration of the war.

In accordance with the pentagon system to require this year, each inter-society debate will have two teams, one negative and an affirmative chosen from its own members. These five debates will all be held in different rooms of the main building on the night of April 16. The arrangement of debate is as follows: Hesperian negative vs. Whitby affirmative; Hesperian negative vs. Athena affirmative; Whitby negative vs. Athena affirmative; and Athena negative vs. Whitby affirmative.

PEIRCE AUTHOR OF ARTICLE ON TRADE
Economist Situation Reviewed in "The Analyst" by Iowa Professor

"Our Foreign Trade in the Light of Living Prices" is the name of the article written by Prof. Paul F. Peirce of the department of economics, which appeared in the January Analyst. He calls attention to an element of exaggeration in war trade statistics as issued by the government and so commonly used and published.

By means of a detailed calculation Mr. Peirce shows that the United States has a gain in exports of more than thirty per cent and a negligible advance in imports. These facts are bringing our nation to greater impositions and so commonly used and published.
