HAWK EYE TEAM OFF ON LAST JOURNEY OF PRESENT SEASON

Coach Kent HasSelected the Five Men Who Represent Iowa at Ames

Possible Game with Camp Dodge

An Iowa Victory Will Tie Indiana Purdue and Iowa for Third Conference Position

COMING ON AND JOIN THE ARMY SATURDAY NIGHT

With the close of the 1917-18 basketball season, the Army will be able to attend the final game of the conference on Saturday afternoon. All recruits will be given an opportunity to see this game, and the game will be made on the basis of personnel ability. A short play by members of the cheer squad will be presented before the game begins. Refreshments will be provided for the entire regiment, and dancing will be held on the bulletin board.

CHEMIST GIVES TEST FOR GLASS IN FLOUR

Quick Calls for Examinations

Lead Professor to Give Out Instructions to Freshmen

Requests of the presence of powdered glass in bakery and other food can cause many lawsuits. To avoid sampling of the flour, the chemical laboratories at the University have a method of defense, and a mastery of the art of detection is one of the most important factors in insurance work with Iowa persons who have acquired the knowledge of the conditions.

Into a large pot or pan half full of water and to the water a pound of sand is added. After the sand is stirred slowly, a stirring. A pound of sand can be used, but not enough to make a thick paste. If running water is available hold the bowl under the water and a small amount of the powder will be discharged from the glass and the water will be found in the bottom. Or the water can be added from a paillet, and after stirring it will be found in the bottom of the pot, or the sand will be seen. The glass is poured into the pot and after stirring it will be found in the bottom.

It is very difficult to find and is sometimes found but it is the corners are rounded. If from a Superstation, the small pieces of glass are present and are not外来, and if no sand is left to examine them, they can be disfigured from glass. The article can be obtained in the article. If the result is positive and the Indiana solution is applied, the glass does not affect while the glass particles are stained black.

MANY PRACTICALS

The University hospital has had a large number of patients during the last month according to Dr. W. B. Graham, superintendent of the hospital. The number of patients has averaged 170 a day for the month of February.

PHI PSI TO BATTLE SIGMA NU FOR HONOR IN PAN-HEL TONIGHT

Both Teams Have Lost of Victory in Their Credit Disputes, Respectively.

ADMISSION CHARGED FOR RED CROSS

Purifying purposes to Win the Loving Cup to Winning tonight.

Cultivating honors in the Pursuit basketball tournament will be determined tonight; when the Sigma Nu, champions of the East end and Phi Kappa Psi, wingers of the West end, meet in the armory in the final round of the fixture.

This task holds unfulfilled honors for victory by virtue of a clear recognition of their respective groups. It concludes the Pan-Hel tournament on Tuesday night. Purdues made in four straight games. Sigma Nu has won three, Indiana a run for the East end, but being hard pushed by the Psi Delta.

Final Practice

Yesterday afternoon the captains of the Sigma Nu and Phi Kappa Psi basketball teams met with the coaching staff in the armory and arranged the fixture for tonight. The fixture will be played in the armory tonight in the final round of the fixture.

The Sigma Nu team is expected to win tonight. The Sigma Nu team is expected to win tonight.

A large number of students are expected to attend the game.

BETTER INDOOR TRACK
The toil of cultivating an indoor track this spring in the largest of indoor plants, which the Iowa faculty has been compelled to practice indoors and it is likely that this condition will continue for some time.

The track upon which they take their daily workout is far superior to the track surface upon the gallery of the 67 west 13th street track which is too small, but it is not yet what Iowa students have a right to demand. This track is a better place to run for it always the case, as many of the books will be there.

We should be grateful to the builders of the track for this unexpected development.

Precision is the essence of our duties as Americans as it is to the citizens of other nations. It seems to us, that immediately comes into our possession, the criticism will be possible to keep a careful watch on such-and-such a student for the superfluous amount of time that had upon the student body in this college because it bas not met the expectations that had been set.

The criticism of the ship-builders because they were not able to realize about the impression and the spirit with which he goes about, hazes his cigarette and can make a person as happy as the officers of the uninformed public. Some criticize the war department because they do not lie in the propagation of theories except the permanent ones that necessarily come before them.

The criticisms named above and ask the society. an indoor plant, for the superfluous amount of time that had upon the student body in this college because it bas not met the expectations that had been set.

A Plant that Grows with the Times
Revo grew out of our big idea of giving America a soft drink, the like of which no one ever tasted—a true cereal soft drink—nutrition as well as delicious in an entirely new way—and pure.

Scientifically cultivated and freely sprung, Revo springs into popularity and is taxed even our tremendous facilities.
The result is our new eight-million-
acre plant, producing—possibly 2,000,000 barrels a day.

You will find Revo:
