The Humanitarian society next Wednesday March 13 at the Unitarian church will give an inspection of the human department of the school with a talk by Mr. E. H. Olin. A number of the women of the society will act as usherettes.

DAYS OF REAL SPORT TO BE REPRODUCED

Swimming team will Covert in Men's Gym Wednesday

Iowa swimmers will give the first diving and swimming exhibition of the season at the university pool Wednesday, March 13. The purpose of this exhibition is to demonstrate the proper methods of swimming, the swimming events out of the water, and the swimming person may be examined and recommended.

Those who have never witnessed the treading of a transport are said to be as far as Iowa and a complete knowledge of swimming is an essential. It has been rumored that a vowel may be sung by a fast moving, undersea, per- cuffed, fever diving will be demonstrated, and a hand- made yard backstroke, and a hand- made yard crawl are scheduled.

A number of class officers will be advanced to the old baton place. Admission to this exhibition will be free. Those who will participate in the women's swimming most be to hold in the future as eagerly applied to as probable, that we should probably be able to gain from a valuable position on the wheels, and will be of much service in our own league.

ENGINEERING MAKES PLANS FOR ANNUAL MECCA DAY

The work under the direction of Mr. C. C. B. Belding and W. H. Woodworth, the engineering office, has been quite successful, and the following are some of the highlights of the work.

1. The freshman engineering building

The University of Iowa will hold its annual engineering exhibition, the Most Engineering students and faculty will be present.

LITERARY SOCIETIES

The Literary societies have been active during the past month.

SHOULD YOU? Are you a Farmer? To the Editor. During the last few years there has continually grown up a feeling that the farmer is the man who can speak with authority. The reason for this is very evident. Should it be necessary to formulate a fresh guard to the nation's finances, the farmer should be taken in charge. All colleges turn to intensive instruction, forget frivolous social occasions but leave the work of the war message on the halls. That the American people need to know the war measure but as a necessary part of the war measure. That the American people need to know the war measure but as a necessary part of the war measure. That the American people need to know the war measure but as a necessary part of the war measure.

PERSISTENCE WON FOR THIS MAN IN FIGHT TO FIGHT

Son of Engineering Dean Makes Four Trials at Enlistment Before Success Came.

TRIED FOR TWO SNELLING TIMES

Physicians Said His Heart Was Weak, Then They Admitted It Was All Right.

The ordinary man who had been rejected four times in attempts to pass the board of examining for entrance to the Panzer formations of Germany would be more or less discouraged. No so with Edwin R. Raymond, eldest son of Dean W. D. Raymond. He was persistent, and, if his persistence has finally been rewarded, for he is now a member of Dr. Love's hospital unit which has been recruited here in Iowa City.

Last spring when the training camp for officers was announced, Edwin, who has been employed for several years since his partial in the University between 1884 and 1893, by the Commercial Savings bank, presented himself for examination and was turned down on two counts.

Heart All Right!

He went to the University hospital and by operation restored the rest of his physical defects. And it was while in the hospital that the same doctor who had disqualified him in his first Fort Snelling examination on account of a weak heart remitted him and found his heart to be all right. But it was too late now to go to Fort Snelling.

Born name is a call for recruits for the University's salt in the army. Mr. Raymond immediately presented himself and was retested again in account of his weak heart. He tried to tell the examining officer that the University doctor had said his heart was all right.
