What's new for spring?

A NY number of men and young men have asked us that question about the spring clothes. There never has been so much interest before and never so many good styles to be interested in. Because so many men want authentic information, we're publishing these fashion notes.

There's the "erect, shoulders back and chest out" influence of this war that is evident in all the new models. The waist lines are more marked; the buttons spaced closer together; military backs and pockets are the thing.

Above you see four young men's styles from Hart Schaffner & Marx

1. At the extreme left is the new two button sack with patch pockets. Notice the straight hanging front and the body tracing lines at the waist.
2. Next you see a double breasted suit; they're going to be worn more than ever this spring. They'll make a pleasing change for many men. Notice the buttons—two only are buttoned. The lapels are semi-peaked.
3. The third suit from the left is one of the liveliest of the sport styles. There's a seam at the waistline; a military back and slanting slash pockets. Those are small plaits above the waist seam.
4. This suit at the right is another sport style—and an especially good one. The pockets have double rows of stitching and buttons and buttonholes.

We'll be glad to show you some of the other new ones; every suit is all wool for long wear. The value you get for your money makes these the lowest priced clothes you can buy.

No Seats Reserved.

Letters From Our Soldiers

February 16, 1918
Dear Mother:

Starting an ambulance here is like a mission kind of warfare I ever hope to see. Of course, one learns and sees guns and if the enemy were ever to turn themselves loose we might be in a tight place, but as it is there is absolutely nothing to this job. I feel more advised to be at it than any thing else. Well I will tell you my experiences.

Yesterday afternoon I went out to...
