The Grinnell girls who wanted to "form" would not then be able to conduct with city boys; they could not have all the ground they wanted at the form. The dancing hall management, however, would be able to pin down this unlimited quantity of milk and other similar products which have been stuck in the open market.

College farms are unusually supplied with milk, but there is no market for the cream. They do not run for profit, but for the convenience of the dinner-room management. The reason of this is, that the cream from these farms gives a better quality to the coffee and tea at the tables. The cream is used with the milk for making milk shakes, etc.

The plans which have been adopted for the future are as follows:

1. The dining halls will be supplied with milk, cream, butter, eggs, and other dairy products.
2. The gardens will be tended with all possible care.
3. The students will be encouraged to use the gardens and to care for them.
4. All surplus produce will be sold to the college or to the neighboring community.
5. The college will purchase the necessary equipment and tools for the gardens.
6. The students will be given instruction in gardening and horticulture.

What Others Think

The Daily Iowan will gladly print any letter which is sent to us, so long as it is respectful, truthful, and does not exceed the space limits.

To the Editor:

Why doesn't someone pester all who are not loyal to our U.S. army and navy, and ask them why they don't do their part? Why don't they all go into the army, and be willing to fight for their country? Why do they allow this country to be in a state of war, when we have the men and means to protect ourselves?

What good does it do to buy these stores on the basis of overpopulation? We have been told by our leaders that we must: 1) have the farms, 2) have the money, and 3) have the factories. We must have all these things, and it is up to us to make them happen.

Sincerely yours,

NOW ALL VALUES IS
SHOWN IN TRENCHES.

Accounts are numerious of the
 enormous deeds performed by the
officers of the Allies on the West
Front; but here on our own campus
value is shown and courage is of-
ten exhibited.

While lightiing to make a house
for his little ones, a fat red breasted
wild was tearing a long piece of
string to a tree near the natural
science building.
The string caught on a branch
and the bird proceeded on its
flight, the cord caught under its
wings. There the poor bird was
fluttering and vainly struggling to
get away. Along came our
friend, John Wyjek of the Old
Capital Junction Staff. Seeing the
poor bird tied tight, he climbed the
tree and cautiously crawled out on
the tender limbs to reach the bird.
The Iowa bent low with the weight
of "Jack" and more than once did
he show that he was getting his
tooth and mashing courage. With
extreme effort he caught the bird
and took it to the ground, there
en- tered the string and releasing
Jack boarded a down draft and said
if he had his way he would not
want to climb trees for a living.

College World

The university girls of Black are
planning for the session of a lib-
ty theatre. The fund has been
started toward the movement for a
little playhouse which shall have
a modern auditorium and seats
large enough for ambitious produc-
tions. The building is expected to
add much to the dramatic art of the
institution.

A call for 5,000 contagion masks to
protect physicians and nurses from
contracting the disease of their
patients has been sent to the Med-
ical chapter of the Red Cross. The
girls of the University under the
pledge of the Red Gauze, an or-
ganization whose members must
work at least one half hour each
week for the Red Cross will re-
semble their energies to fulfill the or-
der.

The One College Girl's Glee club is
touring the state this week. They
will hold concerts at Independence,
Waterloo, Decorah, Marshalltown and
other Iowa cities.

Lend Him a Hand

Your hand—my hand—
Every hand in the land stretched out to help him to VICTORY! That is the way that America is going to win this war. It is the only way she can win it.

We are fighting a United German people. Until every American is backing the boys in the trenches, until every hand in the land is stretched out to help, we cannot expect our army to defeat the German armies strengthened by the toil and sacrifice of the one hundred and fifty million people of Germany and her allies.

This is a war of national resources, and every one must add his share to America’s fighting strength if we are to make our superior resources count. Every hand in the land must be stretched out to help our boys if we would send them over the top to early and certain victory.

Save for the Third Liberty Loan. Invest in the Third Liberty Loan. That is the way to lend a hand. That is the way to make a nation invincible for freedom and justice.

Every bond bought now is a direct fighting aid to this boy in the trenches in France.
