IOWA WINS FOURTH PLACE IN Contest held at sprin" 's, discus, 440, 220, and 440 yard dash, Berkeley, I.; Nugent, a third in the 100 yard dash. Page, Iowa, ran for the number now engaged in the event. The 100 yard dash was won by L. Lardner, Northwestern University, and E. L. Davis, Oberlin college.

PATRIOTIC SERVICE TO BECOME NURSE Field, president of the university, advised and assisted in the decision. The plan of various independent hospitals in the country.

MUSICAL CONCERTS ARE APPRECIATED BY LARGE AUDIENCES

Edith Guillet shows Great Tenderness and Skill in His Vanishing Tones.

Schutz, Dabun and Other Solists Beethoven's Symphony Portrayed With Strength and Beauty Of Movement.

To an audience slightly depleted by the work of a countrywide war, the last man, the Minneapolis Sym- phony orchestra, presented its twelfth annual concert in Iowa City past- rector afternoon and evening. A deli- cate and felicitous handling of the ma- tериал is probably the most power- ful symphony orchestra, it appears that the course has ever been drawn to the campus.

The afternoon session, Christina Remsen, Edward L. Klein, Remsen, and Richard C. Cowen, visited the campus.

Audience Likes Schus. Schus. announced before the concert, that this was the same master of his art that had worked so well in all the other symphonies. The orchestra played by Richard Dowell, popular sketchn - danguard was brought to the public.

MANY FUND S ARE YET UNTouched BY S. U. I.

State Treasurer shows in Report That Appropriations Made at Assembly Are Unused. State Treasurer Edwin H. Hoyt, of Iowa City, has made the following honesty for the month ending April 30, that there are hundreds of thousands of dollars of the S. U. I. Funds that have not been left untouched.

There are outstanding capital out- put certificates, totaling $175,000, but no other outstanding obli- gations. The amount of the million dollar fund is about $256,000 has been used. The legislature appropriated, $554,000 for two annuities, one at Ames and one in Iowa City, and this fund has been so appropriated by the state educational board. State that the buildings cannot be built for that at the University $315,000 for equip- ment of buildings, $554,000 for the purchase of lands and $14,000 for have not been used.

There is also a $160,000 building fund for the University left over from the appropriations of the third general assembly. There is $72,000 fund for the animal house, but the legislatures and $35,000 for the appropriated made at the assembly.

WARNS PUBLIC NOT TO BUY HONOR FLAGS

Government Provides Flags Free—Agents Not Authorized to Sell Buttons

Honor flags are not purchasable but are furnished free by the gov- ernment to Iowa communites. There are no honor flags, and the assurance of the law that anyone who sells honor flags, purchasers' buttons, and other knickknacks, shall be removed from the premises.

Dollars, cent of money sold shall be removed from the premises.

Twelve honors, twenty-five cents, are worth in a honor flag shall be removed from the premises.

NEW ANNEX FOR GIRLS HOMES

The Tudor house, west of Currier Hall, which was purchased by the university, will be extended by four rooms for the use of the University women's dormitory.

The University hospital, like most of the homes in this city, has an abundance of old furniture. The building will be used for the purpose of storing the old furniture.
The French minister of finances at Paris in February has ex-

timated the public debt of France in 1918 at $1,831,-

268,000,000 francs ($22,297,000,000). The public debt of Italy at the end of 1917 was estimated at $1,000,

000,000,000 lire ($471,000,000). The debt of the Federal United

Nations is estimated as follows: $23,600,000,000 sterling; $25,400,000,000 lire; $45,900,000,000 lire; $23,600,000,000 francs; $11,200,000,000 francs.

The public debt of Italy is now reduced to about $30,000,000,000, but more than half of this amount has been leased or sold. It is estimated that it will not exceed the United States for any period of five years. We are advancing our advances to Italy, more than could be, will be deferred by taxation.

Contemporary Opinion

The slacker (Overall Daily) is a man who is a hob- waltz, patriot, and calls himself "American," the man who publicly criticizes the government and attacks America's soldiers; the man who, when America is in need, does not help the United States; the man who maintains neutrality on world questions unless it concerns his very grievous interest; the man who has broken or broken with the war; the man who has no friends in the struggle, and who succeeds in reducing the morale of others; the man who lives by himself; the man who is self-sufficient and selfish; the man who does not realize what it means to have a country.

The slacker is a man who refuses sacrifices, to save the future for us, and the future for the future. The slacker, the indifference, the lack of self-sacrifice, the lack of social responsibility, the lack of thought of our country, the lack of love for our country, the lack of patriotism, the lack of national feeling, the lack of love for our nation, the lack of love for our country.

The Slacker is a man who, when decisions by Harney netted the army and the American public, was more than that of the Adren Cardinals, Healy worthy, but when one is hidden away and concealed, it is not only all-American, but in the end, all-American, and it is only the result of a song with a steady, hot flame.

PYROLYTE burns with a steady, hot flame. PYROLYTE leaves little ash. PYROLYTE holds the fire well. PYROLYTE does not deteriorate. PYROLYTE is moderate in price. PYROLYTE is well cleaned. PYROLYTE is free from clinker.

Letters From Our Soldiers

Edition, Daily Iowa: One member of Uncle Sam's crew was very happy in the inn. The name of his gigantic pet monkey was "Hickory Dickory Dock," a name which penetrated into the state, and was made to feel at home in its within its reach. It seemed like being back in the old school, to read of adventures, and events taking place on the campus. Here's having a drink on the Iowa every day must not be realized in terms of work, but when one is hidden away in a northern town he realizes how much the paper means.

Since leaving school in March it has seemed like the echo of March's echoes. The name of his gigantic pet monkey was "Hickory Dickory Dock," a name which penetrated into the state, and was made to feel at home in its within its reach. It seemed like being back in the old school, to read of adventures, and events taking place on the campus. Here's having a drink on the Iowa every day must not be realized in terms of work, but when one is hidden away in a northern town he realizes how much the paper means.

When decisions by Harney netted the army and the American public, was more than that of the Adren Cardinals, Healy worthy, but when one is hidden away and concealed, it is not only all-American, but in the end, all-American, and it is only the result of a song with a steady, hot flame.
MILITARY TRAINING FOR STUDENTS IN PHARMACY

(By R. A. Knowler)

Two years ago the faculty of the College of Pharmacy voted unanimously to make military training a prerequisite for graduation. Prior to that time, it was elective and few students availed themselves of the opportunity to learn the fundamentals of first aid and the duties of men in hospital and sanitary units. Now the training is accepted as a part of the regular work and while not intensive a student must answer questions in it as he learns it, nevertheless realizes the advantages and benefits of being under the newly organized, 'efficient Rosser Officers Training Corp.'

The College Regiment has a sanitary detachment, composed of pharmaceutical and medical students. During the 16th month of the military hospital, it has given lectures and demonstrations relating to the duties of the detachment. It is taught the principles of sanitary conditions for army camps and their service that are doing a very effective work. It is probable that these units shall be in charge of graduate pharmacists who shall be commissioned officers in the United States Army and shall have complete control of providing, preserving and dispensing medical and surgical supplies.

The College of Pharmacy of the State University has established a separate military training for the students of five institutions of pharmaceutical training in the United States at which military training is required. Many of the graduates are serving in hospital and sanitary units now and because their training is so good, are able to give a better service.

A CHIEVEMENT

Twenty-five years ago the General Electric Company was founded. Since then, electricity has not developed through the whole structure of life.

Rager to turn wheels, to lift and carry, to burnish gold, to gather heat, to boil water and strengthen space, to give the world new tools for its work—electricity has been to work.

Throughout this period the General Electric Company has held the great responsibility and high ideals of leadership.

It has set the spirit of research.

It has given tangible form to invention, in apparatus of absolute precision and greatest power.

It has set the pace for research.

It is the right stuff to meet the needs of society, to provide for the new forms of thought, and to provide power.

NEWSPAPER AD

Practical, Easy-Selling

There will be innaund Wednes-

day noon for all graduation, faculty

and members and visitors at the Wil-

son gymnasium. This is an annual

affair which is going to be made less

elaborate and more democratic this

year. The price per place will be

lowered so that a greater number

may attend. Last year there were

seven hundred who were present at

the Commencement dinner, many be-

ing absent lack for class reunions.

ENROLLMENT LARGE

DESPITE THE WAR

Registration at S. U. This Year

Exceeded Only Once in History.

In spite of the excitement of many

of last year’s events, in the

branch of war work, the total regis-

tration of students at the Univer-

sity for the present year will be greater

than in any previous year, excepting

in the history of the institution.

This is due partly, however, to the

fact that the summer session last

year was supported by a wide in-

crease in the enrollment in previous

summer sessions.

Since the beginning of the in-

ternment’s session last fall, about one

hundred and twenty-five men have

dropped their books for the service.

Almost half this number have left in

the present semester. A total of

2,410 students registered for the sec-

ond semester, which number is ap-

proximately the same as in the pre-

vious semester. The registration is di-

vided among the major colleges of the

University as follows: Liberal Arts,

1,384; law; medicine; 182; dent-

istry 153; pharmacy 45; applied arts

144; graduate college 146; school

for nurses 161. The total regis-

tration for the fall session of the sum-

mer session, is 3,296. This number

includes 1,713 women.

Because a large part of the men

in the Liberal arts colleges are not in-

volved in military service and because

the government has prohibited through

enlisted reserve corps for a continuation

of courses by students in engineering,

medicine, dentistry, and nursing it is be-

lieved that the attendance will drop

this year from the figure during the

period of the war.
