AMERICA'S ENTRANCE IN WAR HAS OPENED NEW HISTORY EPOCH

Relationship Has Never Been Fully Understood Between the Two Countries.

SOURCE OF HELP FROM AMERICANS

Industry Transformed, Army Has Expanded and Great Reform Bill Passed.

"Upon the declaration of your country entering the war last spring a new epoch in the worlds history was opened," declared S. K. Ratcliffe, the noted English journalist who spoke at the last vesper service of the year Sunday afternoon.

"Nothing could have ever been the same if neutrality had been retained.

Countries Have Not Understood.

"At this time the question of the future must have been brought to every conscious person. It brought to us the existing terms of relationship between our country and yours, that it was not what it should have been. The reason for this has been the wrong presentation of the American history, encouragement of the antagonistic recognition toward the mother country, and the mutual relationship of ignorance between the two peoples. The newspapers which are supposed to depict the life of the people have possibly been the least efficient organization of modern life. The movie films have also reflected untrue situations of the average conditions of national life in your country.

"Intelligence must be organized through the eyes and reality will be understood in this war," stated Mr. Ratcliffe. The interpretation of American life has been depicted through a small element of the wealthy business men who have not been in a position to understand the vital developing power of your nation. But when "Sammy" stops for training in our country during this great struggle and when he is nursed in our great hospitals it will be for the first time that our countries will have truly understood each other.

Leadership Sought.

Your soldiers will see England's previous condition of social life, her present situation and also the quick and complete adjustment of her economic life. Our army has been expanded, industry has been transformed and the greatest reform bill of all times has been enacted and when the very principles of democracy were shaking.

Our countries might have shown the world what heritage meant. However, at the time when your president, the great voice and mind of your nation, signified America's entrance into the war our country was seeking leadership. Now our countries will go hand in hand for greater victory to secure enduring peace.

MILITARY NOTICE

All men who are to be inoculated for typhoid and para-typhoid before going to the camp at Fort Sheridan should report to Dr. Hamilton, third floor medical building this (Tuesday) afternoon between 3 and 4:30 o'clock. The first inoculation will be given at this time. The fee of fifty cents to cover the cost of the vaccine is payable at this time.

By order of the Commandant.

TRUMAN WILL GO TO SEE ECLIPSE

Mathematics Instructor Asked to Join Lowell Observatory

O. H. Truman, instructor in mathematics, has been asked to join the Lowell observatory camp at Syracuse, Kansas, to watch the eclipse of the sun. He will leave here about May 29th for the camp, which will be established a little distance from the town. Although the actual eclipse will not take place until June 8, it will only about eighty seconds, and it is therefore necessary that everything be in readiness for the event. Each man is to be drilled in his particular part in order that he may know just what to do when the time comes, and the instruments are to be set up and adjusted beforehand, a process which takes some time.

Several other observation groups will form camps at other places; it is probable that there will be camps in Washington and Colorado also, in order that at least one camp may be able to observe the eclipse in fair weather.

From Syracuse, Mr. Truman will go to Flagstaff, Arizona, to spend the summer at the Lowell observatary there.

HAWKEYE EXECUTIVES WILL BE ELECTED

Board Meets Monday to Decide Upon Editor and Business Manager for 1918.

The business manager and editor of the Hawkeye for next year will be elected at the first meeting of the new board next Monday evening.

The editor and business manager are elected by the board. Other positions are subject to the approval of the board. Candidates for these positions must present their applications to the chairman of the committee on or before Monday, May 27. There is no special form for the petitions. They may be merely letters of application for one or the other of these positions.

It is essential that any person applying for either of these positions be a member of the present sophomore class. Preference will be given to those who have had previous experience.

The salary for both the editor and business manager is $200 with a percentage if the income exceeds a certain amount. Details as to the salaries and positions can be found in the by-laws.

The new board which will hold the first meeting Monday night consists of C. H. Weller, chairman, Frank Thayer and H. F. Goodrich as faculty members; Miriam Brueckner, Eugene Murray, Fred A Steiner and George Killinger. The old Hawkeye will go out of being at the completion of this year's business.

POSTPONE IRVING-PHILO GAME

The baseball game which was to have been played this afternoon by the Irving and Philomathean literary societies has been postponed indefinitely, according to an announcement by a member of the Philo team.

All girls who wish to enter the women's tennis tournament must sign up at the gym before tonight. The drawings will be made and posted Wednesday morning. The first set of games are to be played before Sunday.

MARINE MAJOR TO BE HERE TOMORROW

Will Speak in L. A. Hall at 3 O'Clock to Men Interested in Enlisting.

Major H. W. Stone of the marine corps will speak to the men who are interested in enlistment at the liberal arts auditorium on Wednesday, May 22, at 3 o'clock. Major Stone is reporting at the Overseas Training camp as soon as he has finished his work at Ames where he is a student. He has been sent by the government to speak at the State University of Iowa so that the young men who are considering enlisting soon may know about the marine branch of service, and the advantages which it offers.

The Marine corps is the oldest branch of the tUnited States service and the corps has been more than doubled by recent legislation. There are over a thousand vacancies for commissions, it is reported, which must be filled at once. It is because of this fact that the marines are making a wide c.lal

Major Stone is a native Iowan, having been born at Burlington. He attended Iowa State college prior to his entry into service. His sister, Mrs. C. F. McClintock, formerly Miss Pearl Stone, is a graduate of the State University. The men of the University should hear Major Stone.

FINE ARTS ASSOCIATION GIVES ANNUAL CONCERT

The annual concert given by the music study section of the Iowa City Fine Arts association to the members of the association will be given at the natural science auditorium on Wednesday evening, May 22, at 8 o'clock.

Invitations this year are not only to the members of the association, but extended to all music lovers. The club is fortunate in securing Grace Seiberling of Chicago who will play two groups from French composers, and Ruth Greene of Cedar Rapids, who will assist with two local numbers. The remainder of the program will be given by members of the Music Study club. The program is as follows:

Skylark, Pretty Rover, Handel; Lullaby, Scott; So Sweet a Rose, Bruning—Miss Greene.

Minuet, Ravel; La Fill aux cheveux de lin, Debussy; Les Collines d'anacapri, Debussy—Miss Seiberling.

Eu Beteau, Debussy; Minuet, Debussy—Mr. John Parsons.

Aria, Vision Fugitive from Herodiah, Massenet—Mr. Ingalls Swisher.

Le Cygne, Saint Saens; Seranade, Pierne; Chanson de Berceau, Renard; Dause dela Cour, Louis XIII (of France)—Miss Lucille Franchere.

Romance, Debussy; La Letter (Poenis de Silence) Moret; Chanson Indone, Panisky-Korsaken; Begire Legere, Old French—Miss Greene.

Danse Sacre, Debussy; Dause Profane, Debussy—Miss Seiberling.

(Orchestra accompaniment on second piano).

TO LECTURE ON GEOLOGY

Dean G. F. Kay will give an illustrated lecture on geology Tuesday evening, May 21, at 7 o'clock in old science hall, room 108. All students who are now taking or have taken a course in geology are invited, as well as others who may be interested.

DEMANDS FOR CHEMISTS INCREASE

Du Pont de Nemours Company Has Three Soliciting Agents

"There has never been such a list of positions vacant," said O. H. Pierce, instructor in metallurgical chemistry, as he indicated a two page "Men Wanted" section in a chemical magazine.

The du Pont de Nemours company has three road agents, going to the different universities to pick up chemists. The government is offering summer jobs to University men in many departments, as forestry, and bureau of mines. The salaries range from $60 a month up.

"Experience is not necessary to get these positions," Mr. Pierce says, "for the demand is so great that it is difficult to obtain trained men. A general knowledge of chemistry, with special work in quantitative and qualitative analysis, are the prerequisites."

"For the beginner, the work is nearly all routine. But as the men show special aptitude in various lines, they are promoted."

IOWA WINS FOURTH STATE CHAMPIONSHIP

Hawkeyes Place in Fourteen Events and Take Annual Classic.

Iowa added a fourth state championship to her victories when she won a hard fought first in the state track meet at the Drake stadium Saturday. The well-balanced Hawkeye team, although winning only three firsts, placed in fourteen of the fifteen different events, ended Iowa State college's long string of track victories, and won first honors for the first time since 1905.

Trainer Jack Watson declares that he has never coached a more enthusiastic and harder working squad of runners since he has been at Iowa. Many of the men were new, but individual hard work and persistence has built up a creditable squad.

There were no stars on the Iowa track team. No single man won more than eight points and no Iowa man took first in any of the runs. The team, however, won seventeen places, mostly seconds, thirds, and fourths, which in all totaled 43 points.

Greenwood, Justin and Brigham showed up well Saturday. Greenwood won the discus, Brigham the high jump, and Justin pushed Howard Drew of Drake hard in the hundred yard, finishing only a yard behind that world champion sprinter.

Captain Nugent, Berrien, Paige, and Prudhon grabbed several points in the jumps and middle distance runs. Richard Young again met the crack distance crew from Ames and beat Reed out of third in the two mile.

Summary of college events:

120-yard high hurdles—Hendrickson (Simpson) first, Stock (Grinnell) second, Anderson (Ames) third, Briggs (Iowa) fourth. Time, 16 2-5.

Mile run—Hawthorn (Ames) first, Cromer (Ames) second, Burrows (Coe) third, Cresap (Drake) fourth. Time, 4:32 3-5. (New record, old record 4.33 held by Barker of Ames).

100-yard dash— Drew (Drake) first, Justin (Iowa) second, Cowden (Grinnell) third, McDowell (Iowa) Time, 10 1-5.

(Continued on page 3.)

WOLVERINE DEFEAT RUINS IOWA'S HOPES FOR CHAMPIONSHIP

Kent Gives Men First Rest of Season After Strenuous Trip Back East.

GAME AT NOTRE DAME A THRILLER

Michigan Clash Was Pitcher's Battle—Ruzicka Has Better of the Argument.

Varsity baseball men rested yesterday afternoon for the first time this season, Coach Kent deciding to give the players a little vacation after their strenuous trip last week.

Although the setback at the hands of Michigan put the Hawkeyes out of the running for the conference championship, the trip can hardly be called disastrous for the strong Notre Dame team was turned back after a thrilling battle. The Hawkeyes showed brilliantly in the field in this game, breaking up three Notre Dame rallies with fast double plays.

Belding pitched in the best form that he has shown this year, and his teammates hit behind him when hits meant runs. The Iowa runs were scored in the sixth and seventh innings. In the sixth, Belding grounded out to the shortstop. Layton doubled to left center, and scored on Ehred's single to the same place. In the seventh, Hamilton was safe on Philbin's error at first. Olson doubled, scoring Hamilton, but was caught at third when he tried to stretch the hit into a triple.

The Michigan game was a pitcher's battle between Ruzicka and Hamilton, with the Wolverine twirler having a little the best of the argument. Every attack of the Hawkeye batsmen was turned back in masterly fashion, Brown and Ehred being the only Iowa men to get hits, while twelve of the team struck out. Hamilton held the Wolverines to five hits, and kept them well scattered except in the fifth inning when a single followed by a triple netted a run. The other run came as the result of an error by Layton.

Because of the defeat by Michigan, the Hawkeyes were shoved into a tie for fourth place in the conference standing.

LAST Y. W. MEETING

The Y. W. C. A. will hold its last meeting of the year, Wednesday at 4:30 in Close hall. Prof. E. N. S. Thompson of the English department will talk on "The Literature of the Bible." All women of the University are invited.

MILITARY NOTICE

The field exercise to day will commence at 4:30 and continue until completed. It might be well for the men to have something to eat before starting.

By order of Andrew C. Wright
Commandant of Cadets.

JUDGE US BY HIM

"He has been going to school in Iowa and a Hoosier naturally takes to Iowa. Any man born in Indiana knows what "just folks" are and in Iowa we have many of the same kind of folks that they have in Indiana. And these folks have come to know President Jessup. He is no longer an abstraction for any of them, some one presiding in a long coat and a long face. He is to them flesh and blood, a man of like thoughts and feelings with them, a man who understands them and their boys and girls who may become the University students."

This is an excerpt from an editorial printed in Thursday's Cedar Rapids Republican which was highly complimentary to the head of our institution. It was written as a result of President Jessup's address before the business men of the city Wednesday night.

What the editor of the Republican says in the paragraph which the Iowan is printing above and the numerous other things which he says in praise of our president are not idle flattery. Dr. Jessup's untiring efforts to mobilize the state's resources to help win the war and the impresscion which he is making in this through his unaffected and business-like ways and his good fellowship is demonstrating to the state of Iowa that the head of its educational system, the University, is patriotic and efficient to the core. We are glad to have our president held up as a concrete example of the institution's basic firmness.

OUR ATHLETIC SUCCESS

Saturday's track victory stands as the culmination of one of the most successful athletic years in the history of the University. Four state titles have come to us and in Big Ten circles Iowa's teams have made themselves respected, although we have not held a conference championship.

In football last fall Iowa met a snag in Grinnell, but the Iowa team which was defeated by Grinnell in the fore part of October was not the team which downed Ames in the Homecoming game. It took a season for Coach Jones to develop a machine which would give Iowa her maximum strength.

In basketball, baseball, and track, however, Iowa's teams have finished on top. Our rifle team has won us a national championship, and in wrestling and gymnasium we have been represented by teams which would have done us credit, had they been given the opportunity through a schedule of contests.

What is responsible for Iowa's athletic renaissance? We have had good coaches, good trainers, good schedules, and good athletic equipment the past year. But so have we had these items in previous years.

The Daily Iowan would ascribe our success this year to one factor—an interest in athletics on the part of the student body which has never been present before. And for the development of this interest the constructive policy of the new athletic board, aided by the athletic department, is responsible more than all other forces.

No one will question the existence of the new interest. It has shown itself at every turn. Its most tangible effect on the raising of our athletic standards has been in increasing the field of competition, the number of candidates, in every branch of intercollegiate sport.

Let us observe just what it has done for Iowa in track. In previous years Jack Watson has worked with a mere handful of men, scarcely enough to permit him to find a man for the different events. This year there has been men a-plenty, no individual stars but enough good men to enable Iowa to place in every event save one at the state meet Saturday. Give our coaches men and they will continue to turn out good athletic teams.

While many of our neighboring institutions are complaining of an athletic decadence, Iowa is experiencing her hey-day. We are just now at the close of a year which for its uniform success stands as a beacon in Iowa's athletic annals. And prospects for a continuance, if, indeed, not a bettering, of this year's athletic status next year are bright.

"HAPPINESS" SCORES BIG HIT

Play by Dramatic Class Given Yesterday Afternoon in N. S.

There is a big lesson taught in the little playlet "Happiness" by J. Hartly Manners presented before a fair sized audience by the class in educational dramatics in the natural science auditorium yesterday at 4 o'clock. The play concerns Mrs. Chrystal Pole, a blase, wealthy, young Englishwoman who is tired and disgusted with life, and her consequent rejuvenation by Jennie, a poor shop girl, who though she has none of the world's goods, still has enthusiasm and life, the happiness which Mrs. Pole craves.

Marjory Heberling, as Mrs. Pole, played this rather difficult role with the proper amount of sophistication. The change of her attitude from that of boredom to sympathy showed marked ability.

Helen Laub as the naive shop girl scored a humorous hit, and though the audience appreciated the laughable bits of her conversation and costume, they lost none of the pathetic touches in her character.

Fred Steiner as Fritz Scowcroft, was excellent as the blustering direct father of Mrs. Pole, while Francis Foley as Philip Chandos, the equally tired-of-life son of a hard-working money-getting father, served to bring out Mrs. Poles' character.

This play is one of a series given under the auspices of the public speaking department Monday afternoons at 4 o'clock.

PRELIMINARY BALLOT FOR WOMEN'S LEAGUE OFFICERS

Today the preliminary balloting for Women's league officers takes place. Every member of the Women's league is asked to vote this morning in liberal arts building. The four juniors receiving the highest number of votes will be nominated for president and vice-president.

The four sophomores receiving the highest number of votes will be nominated for secretary and treasurer. Formal elections will be held Thursday. Every member should vote today and also on the finals.
