SUSPEND EXERCISES OF INSTITUTION FOR OBSERVANCE OF DAY

Flag Raising Exercises on Campus Will Commemorate Day of S. A. T. C. Organization

MEMEN TO TAKE OATH OF ALLEGIANCE

Celebration Will Take Place on Campus West of Liberal Arts Building

For a single hour, 10:30 to 11:30, today, the machinery of the University will stop, and Iowa simultaneously with 500 American colleges will pause to celebrate the greatest innovation of the century in institutions of higher learning.

S. A. T. C. men including those who expect to be in the corps will assemble at 10:30 east of the Physics Hall and there on the prettiest spot of the campus the stars and stripes will be run up a white pole, while the cadet band plays the national anthem and more than two thousand student soldiers stand at attention.

Will Swear Allegiance

At this time, S. A. T. C. men will take the oath of allegiance to the flag repeating after the commandant, Capt George W. Robertson these words: "I pledge allegiance to my flag and the Republic for which it stands; one nation, indivisible with Liberty and Justice for all."

1. S. A. T. C. and others assemble.
2. Band: Patriotic Air
3. Flag Raising

Star Spangled Banner:

S. U. I. Band

4. Oath of Allegiance by S. A. T. C. Commandant leading.
5. Reading Orders of the Day: Adjutant or Commandant.
6. Address: President of University.
7. Dismissal. Commandant presiding.

The civilian audience will stand just west of the liberal arts building during the ceremonies. All members of the faculty and students will be present.

Officers At Kappa Sig House

At the conclusion of the exercises the first official count of the men in the S. A. T. C. will be made. All men will be checked off.

During the day yesterday, S. A. T. C. men were assigned to their barracks, and the first meal was served this morning in the mess hall at the University armory. The officers of the University commands have rented the Kappa Sigma house on Dubuque street and are fitting it up for their quarters.

STEFANSSON, EXPLORER TO VISIT UNIVERSITY

Vilhjalmr Stefansson, famous arctic explorer and alumnus of the University, is on his way to this country and has been invited to stop at the University on his way east. Dr. Henry Albert received a telegram from Stefansson sent from Ketchikan, Alaska.

Stefansson discovered the "blonde eskimos" in the arctic regions, a heretofore unknown race supposedly descended from a lost tribe of Norwegians. He has made three or four trips to the far north and has been reported dead a number of times. He has been on this latest trip for four years.

Iota Xi Epsilon sorority at 120 N. Dubuque announces its organization.

AN OPEN LETTER

I advise students and instructors of the University to subscribe for The Daily Iowan. The Iowan is a University publication and in this critical year it not only will contain the news which every member of the University should know, but it will be made the regular medium for official notices.

CANTONMENT Y. HUT OPENED AT SCHOOL OF MUSIC BUILDING

Large Reading Rooms and Other Facilities are Being Arranged

CANTEEN WILL BE IN THE BASEMENT

LeSourd, New Director Formerly At Camp Sherman and Wisconsin

"Although not in full running order the army Y. M. C. A. at the University is open," says Mr. Howard M. Le Sourd, "and S. A. T. C. men are welcome." A real cantonment Y. hut is to be made out of the old school of music building with a canteen, moving pictures, camp library, and ladies' rest room.

The Knights of Columbus, Jewish welfare board, and the war camp community service, and student pastors will all have rooms in the basement of the old school of music hall. They with the Y. M. C. A. will have the upper floor of the building also. Social affairs, athletics, and programs will be handled in cooperation with University and city organization.

Canteen in Basement

The canteen in the basement will supply the men with coffee, sandwiches, ice cream, smokes, and other (continued on page 3)

PRIVATE DESERTS FROM UNIVERSITY VOCATIONAL UNIT

Captured at Lone Tree After Student Soldiers Give Hot Chase

IS NOW AWAITING COURT MARTIAL

Escape From Armory Made Through Forging of Military Pass

Private Ben F. Jones of Green Bay, Wisconsin, attached to army vocational school of the University escaped from the guard house in the University armory Sunday and was captured three hours later in the vicinity of Lone Tree. He is held on the charge of desertion and is awaiting court martial.

The young soldier is said to have had some trouble with an officer and was held under guard. He had some blank passes and forged a pass from his superior officer. The escape was discovered at once and search begun. Capt Robertson was notified. Details were stationed on all roads leading from the city. All automobiles were stopped and railroad stations were carefully guarded. Telephone calls were sent to nearby towns.

Shortly after 9 o'clock word came from Lone Tree that a soldier answering Jones' description was in that neighborhood. A detail was sent to Lone Tree and the deserter was brought back to the city.

The penalty for desertion is serious and in case the officers chose to deal severely with Jones, it is likely he would be sent to the federal penitentiary.

All old members of the Girls' Glee Club are asked to report some time today at the office of the school of music in the Dey building above the University book store.

URGE GIRLS TO TAKE COURSE

Women students are urged by the faculty not to overlook the importance of War Issues, the biggest single course ever offered at the institution. More than forty instructors will collaborate to give the lectures scheduled. Since the government has considered it of sufficient importance to require it as a part of the curriculum of every man in the S. A. T. C., University officials feel no hesitancy in urging every woman to register for the work.

MANY APPLICATIONS FOR NAVAL SECTION OF THE S. A. T. C.

Eighty-two Passed the Physical Examination—a Number of Freshmen Eligible

UPPER CLASSMEN ARE PREFERRED

Regular Barracks Are in Women's Gymnasium for the Present

Officers of the Naval recruiting office of the S. A. T. C. in the Women's Gymnasium, report that eighty two of the hundred men required have made application and passed the physical examination. Sixty-five of these have been definitely accepted, and seventeen are classified as eligible. All of these sixty-five are upperclassmen, thirty-eight of them from the college of applied science, and twenty-seven from the college of liberal arts. The list of eligible freshmen who may be accepted includes twenty-seven engineers and four liberal arts men. Many more men than can be accepted in the University's quota have applied for admission, but the unusually rigid physical examination has greatly reduced the number.

HAWKEYES BEGIN PRACTICE FOR GAME WITH CORNHUSKERS

Large Squad Takes Field For Practice After Great Lakes Battle

NEW HIGH SCHOOL STARS REPORT

Team in Fine Shape for Nebraska Battle—Sykes and Belding Look Promising

Nearly three full teams trotted out on Iowa Field last night for the first drill after Saturday's combat. Although the sailors' game ended in a defeat for Iowa, the entire squad entered into the work with a spirit and pep that marked their play in the initial battle.

Several new and promising line-men appeared for practice yesterday and all ran signals with some team or other. The varsity line saw Greenwood, Reed, Belding, Block, Slater, Hunzelman and Smith as a forward wall. These men ran signals with the backfield of Kelly, Scott, Sykes and Meadows finding weak spots. Other very good varsity men who worked out last night were Voegel, Lohman, and Scanlon. Iowa's line looked to be a real one, according to dopesters as several high school stars appeared promising in their first try, Belding of Mason City and Sykes of Emmetsburg, in particular.

War conditions seemed to bring out a vast quantity of good material, a cheerful fact to Coach Jones as he had been woefully shy in earlier practices on athletes. Sykes, Berrien, Justin, Worth, Meadows, and Belding put in their appearance at yesterday's practice.

Nearly every candidate of prominence on the line appeared to weigh at least 175. Coach Jones believes he has a faster line than he has had for many seasons. With a line squad of twenty men to pick from, the Varsity ought to make considerable showing among the Big Ten teams. The ever growing squad of half backs indicates that there will be a merry race for positions in the Hawkeye backfield. Coach Jones assures every man a fair trial.

WAR ISSUES COURSE IS NOW OUTLINED

A course of "War Issues" has been outlined at the University by Prof. C. H. Weller, chairman of the committee, and others, as follows:

1. Immediate causes of the war.
2. Responsibility for the war; diplomacy of 1914.
3. Economic and commercial rivalry.
4. Pan-Germanism and world domination.
5. German theory of the state and of war.
6. Russia and the Orient.
7. Why America entered the war.
8. Mobilization of American resources.
9. American democracy and ideals.
10. Our Allies—what they bring us and we them.
11. Peace terms of Central Powers and of Allies.

The period will be from Oct. 7 to Dec. 21.

Adelaide Nash, Kappa Kappa Gamma, who attended Minnesota University last year is enrolled here again.

"I have never had a policy. I have simply tried to do what seemed best each day as each day came."—Lincoln.

THE FIRST OF OCTOBER

This day, October 1, 1918, will long be remembered in the history of the American nation. Children yet unborn will learn from fathers, grandfathers, and school books to associate the date with this occasion. A revolutionary event in an epoch of things revolutionary is to occur.

Simultaneously in more than five hundred colleges, one hundred and fifty thousand men, a great reservoir of officer material, will dedicate their manhood and their lives to the honor and defense of their country. The organization of a unique and potential force of fighting men, the students' army training corps, will be effected.

The colleges, through this students' army training corps, have a deep obligation resting upon them. From the first day of the war they have proved their worthiness for this responsibility by the thousands of men they have furnished the nation. This new plan to supply the American armies with office material and trained specialists is the supreme test of their ability, as well as a reward for their former accomplishments.

For the exercises that have been planned as a fitting observance of the day, every class, every office in the University should be closed. When our men stand at attention to pledge their lives and honor to the cause of democracy, every student of the institution should be there to witness and to vow similar devotion in their own hearts. Old Glory will be hoisted on our campus with emotions hitherto unknown and with burning patriotism.

WHAT OTHERS THINK

Editor, The Daily Iowan: With the changing of the old schedule at the University, many forms of student activity will necessarily be suspended until the end of the war. But there are certain activities that should be continued, and it would seem that the publishing of the annual is one of them.

Already many students in the Junior class are wondering what is the prospect for the Hawkeye. Both the editor, Fred Steiner, and the manager, George Killinger, were commissioned at the second Fort Sheridan camp and, of course, will not be at Iowa this year. And it is generally conceded that the men students will be very busy while they are in the University, and camps at various times throughout the year.

Consequently, it would seem that the logical solution of the problem would be for the Hawkeye to be edited and managed this year by women students. Indeed they have already "taken command" of The Daily Iowan and other duties will be theirs as the weeks go by. The management of the Hawkeye should remain in the same hands throughout the year and the editor should be selected very soon.

We are convinced that the Hawkeye should be edited and managed by the Junior girls this year.

Member Hawkeye Staff, '18.

SCHOOL STARTS FOR CRIPPLED CHILDREN

There are now 45 students enrolled in the school for crippled children. The new director is Miss Mame Rose Prosser, of Omaha, a gifted Nebraska girl, who was a graduate student here, last year. She will succeed Miss Jane Howarth.

Miss Maude Lane and Helen S. Foss (a physical training expert) and Mrs. Carrie R. Irish, will assist.

LIEUT. HARRY E. WEBB VISITS AT MARION

Lieut. Harry E. Webb, who is in the infantry branch of service at Camp Pike, Ark. has recently had a short furlough with his parents at Marion. Mr. Webb was former business manager of The Daily Iowan for three years. He was also middle weight wrestling champion in 1913. Lieut. Webb was formerly a member of The Cedar Rapids Republican staff.

SOCIAL FRATERNITIES SUSPENDED UNDER MILITARY RULES

Four Houses Will Give Residence To More Than One Hundred Women

Social fraternities at the University have suspended all rushing, pledging and initiation during the period of "military occupation."

The exit of the social Greek letter organizations which was decided upon at a recent meeting of fraternity delegates with Robert Reinow, advisor of men, has been followed by an invasion of women students of the University, at many of the fraternity houses.

Fraternity Homes Taken

The following houses have been taken over by the University, and are being remodelled and in some instances refurnished, for immediate occupancy: Theta Xi, Phi Kappa Psi, Sigma Chi, Sigma Nu, and Acacia.

The four national fraternity chapter houses will give residence to more than one hundred women, the Phi Kappa Psi house receiving thirty three. The Acacia house will be, to some extent, under supervision of private interests.

Following the same move of University authorities, it is probable that the Phi Delta Theta and the Psi Omega houses will be taken over for women. Other fraternities will rent or discontinue occupancy of their chapter houses. The Delta Chi house will be used by the University military authorities as barracks for men under 18 years of age.

Rienow Approves Action

Mr. Reinow is pleased with the action of the social fraternities in connection with the new military rule here, and has pronounced it "the only course" to be taken. "Fraternity representatives," he says, "have shown themselves as directly in accordance with the wishes of the faculty, and have undergone many inconveniences without complaint, in order that the military program may be continued with the least possible confusion."

Practically the only remodeling to be done at most houses will be the converting of dining rooms, which will not be used, into dormitory and study rooms.

Professional fraternities will continue their houses as in former years.

M. C. A. work is handled there in connection with the S. A. T. C. Anne Marie Glasgow is secretary of the association rooms, and Ray Wycoff is assisting Mr. LeSourd in the work.

fers upper classmen, especially students of engineering, but that upper classmen of the college of liberal arts and freshman engineers are eligible. Liberal arts freshmen with special qualifications may be accepted. Freshman engineers will probably be kept in training for a period of two years, and upperclassmen and liberal arts men will be called within six months or a year, as they become qualified and are needed in active service.

Quarters in Gymnasium

Members of the naval training section will be quartered in the two gymnasiums and the engineering building, but regular barracks will be erected for their use later. Naval headquarters are in an office at the Women's gymnasium. The former

drawing room is used for physical examinations. Dormitories have been provided for by second story floors built in the physical training rooms and above the swimming pool, and another floor built over the pool itself. It is not certain where the mess hall will be yet. All barracks in the women's gymnasium are only temporary, and physical training for women will continue as usual throughout the year.
