**Vol. XVIII—New Series Vol. III**

**IOWA CITY, IOWA, TUESDAY, OCTOBER 15, 1918**

### Comments

- **FALL TEAMS TO BE SEEN AT 4:45**
  - The Iowa varsity went through a tight practice on the Hawkeye field last night, the initial practice under Coach Cherry since last Saturday's tilt. The regulars showed that they were ready to go on the offensive and plenty of signal work. Thanks to the coaching of Cherry these boys buckled their belts and whipped the Nebraska team a week earlier.

- **MORALE COUNTS**
  -said "DAD" ELLIOTT

- **SPORTS AND SPECTATORSHIP**
  - Coach Jones is doing his utmost to get the Hawkeye eleven developed enough to go on the field. This will be the eighth game of the season and that they had several good games in the series. They put up a sample that demonstrated that they will hold the top of the Iowa conference percentile column.

### INFLUENZA IS NOW GREATLY CHECKED

- The epidemic of influenza has been greatly checked and no new pandemics reported. All medical men are striving to keep it under control. The Department of Health is working closely with the community to control the spread of the disease. The city has been declared free of the disease.

### YOWAN STAFF TO BE CHOSSEN EVERY MONTH UNDER NEW SYSTEM

- The student newspaper, The Daily Iowan, has announced a new system of choosing its staff every month under a new system. This system will ensure a fresh and dynamic team of editors each month.

### GROWN MEN MEET TOWARD

- An editorial titled "Grown Men Meet Toward" discusses the importance of adult responsibility in the time of influenza and the need for continued vigilance to prevent its spread.

### VARIETY IS GIVEN PEPPERY WORKOUT AFTER COE BATTLE

- The Daily Iowan comments on the variety of sports and spectacles that are taking place on campus, highlighting the unique and engaging nature of student life during the influenza epidemic.

### Many Regulars Fail to Report

- The article mentions that many regulars failed to report for practice, possibly due to illness or other commitments.

### Picture and Text

- The Daily Iowan features a picture of students engaging in various activities, including sports practice and academic work, amidst the influenza epidemic.

### Special Features

- The newspaper includes special features on the influenza epidemic, the university's response, and student life during this challenging time.
The military authorities are high in this branch of or- 
quarters and food. Though the

DIRECT INFORMATION GIVEN PRE-MEDICS

Iowa Town of College of Medicine
Turns From Washington With News For S. A. T. C.

L. W. Dean, dean of the college of medicine, is back from an official visit to Washington. He brings the following definite information relative to pre-medical courses:

Under war conditions in those colleges where there has been established a relationship between the medical schools and the College of Liberal Arts and Sciences, the pre-medical course will be one year's work in a college of liberal arts. This year it is in the connection makes a calendar year of twelve months or four full terms. The unit is not fixed until the course is actually begun, however, and the student may be in the hands of the college authority in a short time. It has been maintained, however, that the course will consist largely of science subjects such as chemistry, biology, and physics. In the lack of definite information those contemplating entering medical schools should include as much work in those subjects as possible and then be prepared to add that which is not a part of the definite subject requirements made public.

The authorities at Washington insist that it is essential for the welfare of the army that medical education continue, but that other essential industries a speeding up process is necessary. They therefore recommend that those who anticipate the study of medicine continue to do so and that provision will be made on a governmental basis for the training of medical students.

The medical college has received the following definite information relative to pre-medical courses:

The requirements for admission to the medical college are as follows:

1. A high school diploma or an equivalent of one year's work in a college of liberal arts. This last may be in the hands of the college authority in a short time. It has been maintained, however, that the course will consist largely of science subjects such as chemistry, biology, and physics. In the lack of definite information those contemplating entering medical schools should include as much work in those subjects as possible and then be prepared to add that which is not a part of the definite subject requirements made public.

ALL S. U. I. WOMEN IN POMPOUS DISPLAY ON CAMPUS FRIDAY

Brilliant Lanterns Delight the Eye, Rings Soothes the Ear, Speeches Stir Intellect
IS TO BE GET-ACQUAINTED AFFAIR

Mrs. Jessup and Mrs. Kay Head Become "Better Half" Presi- dents of Organizations

Women of the University are plan-
ing another Cha W. Kwai for Fri-
days, and an opening of the same.
A committee in charge is composed of thevari-
ous women's organizations: Hermina Dutchell, representing Fourier council; Doris Cartier, Pan-Hellenic society; Violet Stahle, Y. W. C. A.; Edith Smith, M. I. E.; Sylfish Barter, Women's house,

In charge of the rooming line, W. W. C. A., is the publicity, P. W. A. A., the entertain-
ment, Women's house, the pantry and Pan-Hellenic, refreshments.

To Begin at 7:30

On account of the epidemic most of the program will be held out
in doors. The meeting is composed of Mrs. W. A. Jessup, Mrs. G. W. Kay, Bertha Cole and the president of the fire women's organizations, will be in the drawing room at 7:30 to welcome the girls.

With bright lanterns, flowers and cars, the girls will form a pro-
cession and later assemble on the steps of the tennis courts buildings, un-
der the direction of the Glee club. University and paderewski songs will be sung at this time, and short speeches will be made by the presi-
dents of the different organizations, expediting the work of the group which also represents. The remainder of the evening will be spent in playing games and making the girls acquainted with each other.

Every Woman Invited

The purpose of Cha W. Kwai is to get all the women together so that they can not in more familiar terms than is possible in their daily lives. All girls of the university, faculty women, and wives of the faculty men, are invited to attend.

Cha W. Kwai is the first large party of the year and it is the hope of every "old girl" on the campus that it will surpass even the splendor of the first held last year.

SEVENTY ADDITIONS MADE TO UNIVERSITY FACULTY THIS YEAR

Further Appointments Are to Be Made Paving Further Adjustments

NINE NEW CHEMISTRY INSTRUCTORS

Dental and Engineering Colleges Both Get Number of Extra Teachers

Seven new numbers have been added to the instructional staff of the University. The following list is not complete, as other appointments are pending. Others will be announced later.

Chemistry: L. C. Ballard, assoc-

ate professor; Perry A. Bond, as-

ist professor; F. E. Mavor, instruc-
tor; Robert T. Kitt, instructor; Wil-

son Weber, instructor; H. S. Mc-

Nally, instructor.

Botany: H. A. Gilson, assistant;

A. Wood, assistant.

Medicine: Eleonora Calhoun, asso-
ciate professor; W. L. Bowers, dem-
onstrator; Donald D. Wilson, demonstrator; E. D. Motley, instruc-
tor; S. E. Kerne, instructor; John-

son, instructor.

Dentistry: Marion Davis (now-

ning), assistant; W. W. Martin, demonstrator; T. D. Green, demonstra-
tor; R. E. Tabor, demonstrator; W. J. Kelson, demonstrator; Y. Churathala, assistant demonstrator; J. G. L. Buehler, assistant demonstrator; J. W. F. Walker, assistant demonstrator; P. W. Buehler, assistant demonstrator; D. W. Kaufman, assistant demonstrator.

Economics: Charlotte Dunn, asso-
ciate professor; Lois Russell, assistant.

Political science: Emma C. Dum-
ke, assistant.

History: L. I. Man, assistant; C. E. Hargis, assistant.

Psychology: Mrs. M. R. F. Bovard, assistant.

Physical education: Jeannie Less, instructor.

Political science: J. E. Briggs, in-
nstructor.

Public speaking: Emma C. Duk-
e, instructor.

Maintenance: E. C. F. Watts, asso-
ciate professor; C. E. Fleming, asso-
ciate professor; C. E. Cofran, assist-
ent professor; Florence Flax, instruc-
tor.

Music: C. L. Hobbs, professor.

Elementary school: G. H. Hult, principal; Helen Davis, Amy Hawke, Ruthie Humphreys; Marya Watkins.

High school: A. C. Goodall, prin-
cipal; Gladys Com, Miss France, Mary Cole.

Lab: F. H. Randall.

Engineering: Ralph Pockett, asso-
ciate professor; Herbert Smith, in-
structor; Glenn Kassel, instructo;

S. A. Petrich, instructor; R. L. Bein, instructor.

Library: J. S. Shepard, director.
