NUMBER 62

IOWA WILL STAGE MEET FOR HONORS IN PREP BASKETBALL

Athletic Board Decides to Open Tournament To All High Schools of State

PLAY GAMES MARCH 18-20

Most Stupendous Undertaking Ever Attempted in This Section of Country—No School Barred—Plan to Pay Expenses of Teams Which Rank High

The University of Iowa will stage a high school basketball tournament for the state championship next spring that will surpass anything ever held in this section of the country. This action was decided at an important meeting of the athletic board held Wednesday night.

The classic will be open to every high school in the state and it is planned to make it an annual affair. Just how this stupendous undertaking will be handled has not been definitely decided but a committee is now working out the plans for the arranging of the games and the accommodation of the scores of athletes and coaches.

Set Dates For Classic

It has been decided by the board to hold the tournament each year on the third week in March. The dates for the 1920 championship are March 18, 19, and 20. They are a little late for the basketball season but this was done in order not to conflict with the other basketball schedules. Most of the regular scheduled games of the prep schools are over by the middle of the month but the event follows quickly enough after this time that the men will not be out of training.

Prep fives were left without any means to decide the honors when the
(Continued on page 4)

MIXER TO BOOST TRACK ACTIVITIES

Athletic Board Arranging Program With Many Events for Next Wednesday

An athletic mixer, for the purpose of arousing interest in track work, will be held at the Armory next Wednesday evening, according to announcement made yesterday by the athletic board, under whose auspices the meeting will take place.

"Efforts will be made to attract every available track man in school to the mixer," said a member of the board yesterday. "We are anxious to make an early start in this branch of athletic activity and are taking this method of getting a preliminary lineup of our potential material. Two years ago such a mixer was held with the result that nearly 100 men came out for track and Iowa won the state championship."

Four committees have been named and they are already at work on plans for the mixer. Many athletic stunts will feature the program, while a few lively speakers will attempt to inject enthusiasm into the meeting with short, but snappy talks.

Chairmen named on the committees are: Louis Pelzer, speakers; Dr. J. J. Lambert, refreshments; E. G. Schroeder, entertainment, and Coach Howard H. Jones, invitations.

BACONIAN SOCIETY WILL MEET TONIGHT

The Baconian society will resume its regular meetings tonight in the physics lecture room. At this time Prof. A. C. Trowbridge of the department of geology, will narrate his experiences along the Mexican border during the last summer as assistant geologist of the United States Geological Survey. The region covered was part of the Gulf coastal plain in the country which is being tested for oil and gas.

The specific title of the lecture is "Government Geologist on the American Border." The lecture will begin at 7:30 in the physics lecture room.

BANKERS CLOSE SUCCESSFUL SESSION

Convention Directed By O. E. Klingaman of University Extension Division

"The biggest work the Extension Division has ever accomplished" was the comment which Mr. O. E. Klingaman, head of that division, made relative to the bankers short course on Income Tax problems held here Tuesday, Wednesday, and Thursday, closing with a meeting which lasted until three o'clock yesterday afternoon.

In order to get through with all the necessary business it was found advisable to hold a Wednesday evening meeting and open at 8 o'clock Thursday instead of at nine. The bankers were in constant meeting from the early hour until three o'clock with the exception of a short intermission at noon.

"In my opinion, President Jessup gave the finest speech of the entire convention," Mr. Klingaman stated, "in a fifteen minutes talk on 'The Type of Education Which a Banker Should Be Interested In'."

President Jessup said, "The program for Americanization depends as always upon the public school and it is the responsibility of the banker to see that proper teachers are engaged for the schools and, when engaged, retained."

Delegates from Lyon County hold the record for traveling the longest distance, 300 miles, to attend the meeting. Nine delegates were registered from that county. Omaha was represented by 2 delegates and 1 banker claimed South Dakota as his state.

With the exception of five, every person at the meeting was representing a bank. According to Mr. Frank Warner, secretary of the Iowa Bankers association the enrollment of 602 equalled the attendance at the state meetings.

VARSITY WRESTLERS MEET

Varsity wrestlers are requested by E. O. Schroeder, director of physical training, to meet at his office this afternoon at 5 o'clock. A new captain will be elected for the coming term and the schedule for the remainder of the year will be announced to the class. Discussions upon training will be given by Mr. Schroeder and work for the term will be talked upon by the men interested in wrestling this year. Mr. Schroeder says it is important that all men interested in wrestling be present at this meeting in order to get a check of the number to take part in this work.

UNIVERSITY PLAYERS WILL GIVE "NOTHING BUT THE TRUTH" FEB. 8

Leading Roles Will Be Played by John Schneider and Jean Birdsall

SELECT ELEVEN PLAYERS

Play Three Act Comedy Written by James Montgomery—Verne R. Foley of New York City Will Coach—Twenty Per Cent of Profits Go to Memorial Union

Eleven members of the University Players have been selected by try-outs before a committee composed of Mrs. Elizabeth Parker Hunt of the department of public speaking, Miss Nina R. Shaffer, and Miss Jane E. Roberts of the Library, to appear in "Nothing But The Truth," a three act comedy by James Montgomery, which will be presented at the Englert Theatre, February 5.

The cast is given in the order of the importance of the acting parts. Bob—John Schneider, Iowa City Gwen—Jean Birdsall, Waterloo Mr. Ralston—Henry Ruwe, Marathon Dick—Gilbert Goos, Davenport Van Dusen—Mark Tapscott, Lamon Bishop—Hugh Rosson, Des Moines Mrs Ralston—Margaret Dolliver, Ft. Dodge

Ethel—Marjorie Gailey, Iowa City Mabel—Edna Price, Monte Vista, Col. Sabel—Winson Cray, Grundy Center Butler—Robert L. Block, Davenport

Mr. Verne R. Foley of New York, City is to coach the play. According to information obtained from Mr. John Schneider, president of the University Players, Mr. Foley graduated from the liberal arts college of this University in 1915. He was a prominent member of the Dramatic Club and appeared in several of their productions. Later he attended the American Academy of Dramatic Art in New York for one year. At the present time Mr. Foley is practicing law with a New York firm. "The University Players feel very fortunate in obtaining the services of Mr. (Continued on page 4)

YOUNG LOCHINVAR IS STILL ALIVE, CUPID DECLARES

By Cupid
That the ghost of "Young Lochinvar" is still alive and kicking vigorously is evidenced by a situation arising recently in University social circles.

It is well known that on December 27, Mary Rice, senior in the liberal arts college, was married to Raymond Underwood, a junior in the college of law at the University of South Dakota, but it is not so well known that on that same day, Robert Cunningham, a young lawyer of Janesville, Wis., was in Flandreau, South Dakota, the home of Miss Rice, expecting to that day claim her as his bride.

The acquaintance of Mr. Underwood and Miss Rice dates from their childhood, but her engagement to Mr. Cunningham was widely announced and the unexpected turn of affairs was almost as great a surprise to her friends as to the young man who with his mother had journeyed from Janesville, Wisconsin to Flandreau, South Dakota, to assume the responsibilities of a husband.

Well, anyway, you can't tell a speck about them.

MILLER REPRESENTS IOWA IN UNIVERSITY UNION

Melville Miller, freshman in the college of law and assistant in the department of romance languages, has been appointed by Pres. Walter A. Jessup as representative of the State University of Iowa in the "American University Union in Europe." Mr. Miller was recommended to President Jessup by Prof. Stephen H. Bush, head of the department of romance languages, and who was in touch with the movement when it was organized last spring in Paris. Mr. Miller's new position will be in connection with the University of Iowa in giving information and assistance to French students in this locality, and to American students who wish to study in France.

SOUTHWICK TO READ FROM MANY AUTHORS

President of Emerson College of Oratory Will Speak Saturday Night in N. S. Auditorium

Henry Lawrence Southwick, a distinguished classic teacher orator and artist, will deliver an interpreted recital at the natural science auditorium Saturday evening, January 10, at 8 o'clock. Mr. Southwick comes under the auspices of the University lecture course and the recital is open to the public. His subject is "An Evening of Miscellaneous Readings" and consists of selections from Sheridan, Murray, Shelley, Edwards, and Dickens.

Mr. Southwick is president of the Emerson College of Oratory at Boston and is a prominent and brilliant figure on the lyceum platform, first gaining the attention of scholars and thinkers by his interpretative work on Shakespears. His lectures are of high type of literary performance, critics say.

On two former occasions Mr. Southwick has appeared before an audience at the University and each time was greeted by a large audience. Prof. Glenn N. Merry, head of the department of public speaking, said last evening that most of the students enrolled in the public speaking classes had signified their intention of attending the recital.

GYM TEAM MEETS TODAY

The varsity gymnasium team is to meet at the gymnasium this afternoon at 5 o'clock, according to N. J. Sharp, who has charge of the varsity gymnasium work this year. Plans for the following year will be made and he requests all men interested in this work to be present at this meeting. The gymnasium team will meet every day from 5 o'clock to 6 o'clock and if men enrolled in this work do not appear they will be marked off the roll for the coming term.

CHANGE DENTAL COURSE

Five Years Work Will Be Required of 1921 Entrants

Beginning with the opening of the school year in the fall of 1921, all freshman dental students will be required to pass one full year of liberal arts work before being admitted to the college of dentistry, according to H. C. Dorcas, registrar.

The present requirements call for only fifteen units of high school work, and make dentistry a four year course, while under the new system, five years of work will be necessary to secure the degree.

HAWKEYES BATTLE GOPHERS TONIGHT AT MINNEAPOLIS

Clash With Fast Maroon Quintet In Windy City On Same Trip

EXPECT TWO HARD GAMES

Few Men Sure of Starting—Captain Nicolaus and Shimek Only Ones Certain of Positions—All Others Likely to See Service Before Team Returns

Coach Ashmore and nine Iowa basket tossers left last night for Minneapolis where the Hawkeyes will meet Minnesota tonight in the second conference basketball game of the season. The Iowa team consisted of Captain Nicolaus, Worth, Shimek, Aubrey Devine, Frohwein, Finlayson, Kaufman, Lohman and McConnell.

No more home games occur on the Iowa card until Jan. 23 when the Ames quintet will come to Iowa City for the annual tussle with the Hawkeyes. This contest promises to be a battle royal for the Aggies recently trounced Coe college 23 to 12, after the latter had broken even with Iowa in this city last week.

Meet Two Fast Teams

Following the game with the Gophers tonight, the Hawkeyes will make a quick jump to Chicago where they will engage the strong Maroon team Saturday night. These two bruising frays will complete a most strenuous week for Ashmore's men who started against Wisconsin here Monday. Minnesota defeated Northwestern recently, 19 to 12, and the Gophers are reputed to be out after the conference championship. It is the opinion on the campus, however, that the Iowa team stands a better chance of licking the northmen than of reducing Pat Page's Chicago veterans.

Lineup Still Uncertain
It is not certain who will start the
(Continued on page 4)

ENGINEERS ORGANIZE BASKETBALL TEAMS

Twenty-one Games on Card Gives Every Man Chance to Make First String

Allan Wallin, athletic director of the students of applied science, has formulated a plan by which every man in the engineering college can be seen in action on the basketball floor, in an effort to win the inter-department basketball championship, and thus keep up the high standard set by the engineers of other days.

Director Wallin has organized a series of twenty-one games, the first of which was played last night. These are to continue until January 22nd, by which time twenty games will have been played.

The elimination tournament which is to be played first, has been divided in the following manner; eight freshmen sections, three sophomore sections and two sections each from the juniors and seniors.

"In this way," said director Wallin, "every man will have played in at least one game and we can thereby form a correct estimate as to his worth on the team, which is to represent the engineers in the inter-department league."

"I believe we have room for but one soul loyalty, and that is loyalty to the American people."
—Theodore Roosevelt

LOWDEN FOR PRESIDENT

Governor Lowden's reply to Senator Lodge's pert questions on his stand in regard to the peace treaty places him in the "America first" group of presidential candidates. He is for the league of nations with reservations, fixed by the senate, he told Senator Lodge, but first of all he wants "Americanism" written across the face of the document. He desires that the American flag shall go into every port of the world and adds, "but nationalism and not internationalism must still be our dominant note."

Governor Lowden's presidential boom, like those of his opponents, is still in its incipency. Except for the various "Lowden for President" clubs that have formed recently, the Illinois executive has received no official backing. No state has yet made clear that it will support him, with the possible exception of Illinois. His answer to Senator Lodge, however, is sure to raise him in the estimation of the young voters and they will influence the state delegations to a great extent in this race. By young voters is meant those sturdy five million men who recently made up the greatest army in the world.

Mr. Lowden's candidacy has long been discussed and apparently he is a popular choice just now. His backers are cognizant of the virility of the boom of General Wood and they realize they must win many of the military leader's followers before they can go into the Chicago convention next June with any great hope of annexing the nomination plum. They base their greatest hope on the fact that many people do not want an army man in the White House. If such is the opinion of the people, General Wood and General Pershing will be counted out before the June gathering of republicans is held.

Here at the University of Iowa, the alma mater of Governor Lowden, a "Lowden for President" club has been formed. Among the students and alumni it will probably become a real force as the convention nears. It would be nice to have an alumnus of the University sitting in the White House during the next four years.

WORK OF THE SECRET SERVICE

As long as the United States has an organization as efficient as the present secret service bureau, we need not worry about alien enemies overthrowing our system of government. Under the direction of William J. Flynn, head of the United States secret service bureau, the reds and radicals, who had hoped to throw the United States into the same turmoil that pervades Russia, have been trapped and rounded up by a detective drag net which covers the entire country. Hundreds of unsuspecting foreign individuals quietly scattering their omnious propaganda were simultaneously seized. More than 2500 already await deportation. Every day others are added to the long list of culprits now facing charges. Such are the results of the work carried on by the bureau.

Several months ago Chief Flynn intimated that an investigation of the radical element in this country would be made. Nothing more was said, but the result of the thoroughness of the work and the precision of the detectives culminated one night at 9 o'clock when wholesale arrests were made all over the United States, and hundreds of plotters fell into the trap set for them.

The credit for the work must go to Chief Flynn. It is because of his shrewdness, foresight, and detective genius, assisted by a corps of as-

sistants, that the country is being rid of an unworthy and dangerous element. He has been head of the secret service bureau for the past twenty-three years. He is a born detective; an able official who acts quietly but effectively.

The present shake-up should be a warning to all radical elements within our boundaries as well as give promise to all Americans that there is a detective machinery which guards our liberties and our government.

Regardless of how seriously the democrats consider Mr. Bryan as presidential timber, it is to be noted that they have regard for his advice.

This being leap year it is improbable that Pan-Hellenic will have any jurisdiction over the hanging of pins.

Why not deport the Reds to Mexico? That government will soon put them out of the way if they hail from the United States.

Patent Leather Hair

HERE'S HOW—Rub a little Bandoline in the hair, comb and brush it till it lays as you want it to, and then pour a little Brilliantine in the palm of your hand and apply it to your hair. This will impart an unusual luster to the hair and keep it in place.

THE LISTENING POST

This may be Leap Year but we aren't being bothered any.

"Did you spend a pleasant vacation?" asked a pretty co-ed. "Oh very," we replied, but not wishing to stun her we failed to add that most of our pleasure came from reading "Vanity Fair."

And may we write further that we found William Makepeace Thackeray a very human being? His bit on "How to live well on nothing a year" proved timely indeed. Before many months pass we may be practising that somewhat gentle art.

The girl may not believe it but a near-great man once said that only parlor bolshevists have their hair bobbed.

A remarkable picture of General Pershing, published recently in the Des Moines Register, showed the military leader "for the first time since his return from France without his hat on." This was amusing indeed to a dignified senior.

Another senior said this would be

good for the Post: "A junior medic says the first hundred years are not the hardest."

Column contributors, you know, always mean well.

It looks like Attorney General Palmer is trying to take the red out of the Red, White and Blue.

state high school association abolished the annual state tournament under its auspices, and the action of the athletic board will again provide this competition.

Iowa Makes First Attempt

Such an open tournament has never been provided in this state and this attempt promises to be an interesting affair.

A system of graduated rebates will be worked out by the committee in charge of staging the tournament whereby a certain number of the high school teams will have their expenses paid. It is possible that many of the quintets which rank high will come under this provision. The athletic board is now working on this issue and more definite information will be given out soon.

game tonight for the Old Gold. Coach Ashmore is still experimenting with various combinations in an endeavor to find one that will work satisfactorily. Frank Shimek, who has been playing a whirl-wind of a game at forward, seems to be about the only man on the squad who feels reasonably sure of a place. In scrimmage last night, Finlayson, Frohwein and Lohman were all given opportunities at the remaining forward position while Captain Nicolaus, Worth, Kaufman and Klatt took turns exhibiting their wares at guards. McConnell is developing fast at center and looks much better than he did before vacation. He may be able to land a regular job. Karl Keppler a former Iowa City high school star, touted as a player of exceptional ability, made his first appearance on the floor Wednesday night. He may be a strong contender for a place on the regulars when he works into condition.

Next week end, the Iowa squad will make another long trip before the Ames game.
