DANCE FLOOR? SAY BOY, 8000 SQUARE FEET FOR THE 4000 TO TICKLE TOE ON

By Ellen Galvin

Conferees of representatives of various organizations and Prof. CHARLES S. WELKER of the University of Iowa, who are at present working on the plans for the new building, have drawn up a bill to the effect that the ballroom will be 12,000 square feet, and have estimated that 5000 to 15,000 people will use the ballroom each month.

The floor will be divided into two sections, one for men and one for women, and will be large enough to accommodate the entire student body. The floor will be designed to provide seating for 2000 people, with a seating capacity of 2200. The floor will also have a stage area large enough to accommodate a full orchestra and a dance floor, with a seating capacity of 1000 people.

The floor will be constructed of the finest materials, with a special focus on durability and easy maintenance. The floor will be regularly cleaned and maintained to ensure its longevity and to prevent any damage or wear and tear.

Making good on the job

You've planned to make good, of course, but have you decided what kind of job it'll be?

In general, it should be something big; something that you can throw yourself into with heart and soul; something with only a sky as a limit.

There is such a field in this organization for a limited number of forward looking college men.

If you can meet our requirements; if you're a clean-cut man of the go-getter type, ambitious, energetic, dependable; if you'll go right on learning after you leave college-

There's another opportunity for you—for an opportunity as big as you want to make it.
