RESPECT OUR LAWS

Few parents, two men and three women, have been expelled from the University this year. Only a few have suffered punishment but few penalties as severe have been inflicted.

There are those who will declare the punishment to be too severe; others to be too lenient. The verdict is sure. It should be. A petty punishment for a violation of University statutes would be folly. It would only tend to flirt with misdemeanor. A stern penalty commands respect.

Five suspensions should be a re­ 

minder that we still have University regulations and that these are for the purpose of establishing a high stan­

dard of social order on the campus. We are not always securely advanced in society as set to need government. A lax university would mean a lax society. No better advertisement can go over the state that the University has ideals and regulations which it upholds.

Students of Iowa enjoy considerable freedom. We are exempt from many less civil rules in effect in other co­

lleges. Others may be a little more lenient than Iowa. The University endeavors to hit a central course, fair to the student, itself, and the parents. As citizens in a University community we should be less ready to take undue advantage of the fre­

dom given us and of the trust im­

posed in us. When we disobey regula­

tions we risk the possibility of being expelled. This number divided into preliminaries and a final. Following this will be the same men on Iowa river, in which each college will have representatives.

SUING TO BE TALL

The good feeling which has character­

ized the victory of the University different colleges is expected to be blown to thunder in this event and the Student Council as a last to prevent the casualties which are promised in Preliminary.

In an interview given out yesterday E. Roll Hines, president of Student Council during the past year, gave the following statement: "I wash my hands of all responsibility in the fair. Constant clashes between the different colleges is quite a part of our activity. The only trick we have confirmed us that the Irish question is child's play anymore.

After the war of the colleges has antagonized the members of the class of 1920 to the breaking point an opportunity of reconciliation will be of­

tered with dancing at Reichardt's pavilion. This event will close the day of conflict.

SILENT DISCOURSE

A stern penalty commands respect, says the committee, to two events in which the Captain Kinks of the class will have a chance to try their hands at navigating a pool in the shortest possible time. This number will be divided into preliminaries and a final. Following this will be the same men on Iowa river, in which each college will have representatives.
