PERKINS CHILDREN PLAN EXHIBIT FOR STATE FAIR
ICK and crippled children at the children's hospital of the university are receiving medical treatment and hospital care under the provisions of the Perkins law. There will be an exhibit of exhibits at the fair at Des Moines this year. Many of the children are being taught to read, write, do their housekeeping, do needlework, work, cook, and draw. The children doing this work in the school at the hospital. About twenty-five or thirty people, many of them never before attended school, go to class at the hospital each day, although the children are constantly going and staying. All subjects taught in the school are combined and taught as a unit.

ENROLLMENT FIGURES SHOW GOOD INCREASE
Registration still keeps ahead of the previous year. The number of students for the coming year is approximately 4,000, while the enrollees for the present year are 3,500. This is an increase of 500 over the previous year.

ROBERT A. BROWN TO SWIM IN SOUTH SEAS

The two main events of the Nome swimming season will be the open race on Saturday afternoon at Nome and the open race on Sunday morning at Nome.

GEOL OGY WORK ENLARGED

Field Courses Have Big Following This Year

The new courses in geological work are being well received by the students. The courses in geological mapping and mineralogy are being well attended. The courses in the history of the earth and the history of the earth's surface are also being well attended. The courses in the history of the earth's interior are being well received. The courses in the history of the earth's atmosphere are being well attended. The courses in the history of the earth's history are being well received. The courses in the history of the earth's future are being well attended.

SALATER MAY COMPETE FOR OLYMPIC GAMES

Tryouts Will Be Held Saturday at Boys Field, Chicago

Salater, an American swimmer, has been selected by the American Olympic Committee to represent the United States in the Olympic Games to be held in Tokyo, Japan, in 1920. Salater is expected to compete in the 100-yard freestyle, the 200-yard freestyle, and the 400-yard medley relay.

WHEN IT'S TIME TO EAT

T H E THREE RESTAURANTS OF THE JEFFERSONS ARE WAITING TO OBEY YOUR EVERY COMMAND. THEY ARE UNIQUE TO EACH OTHER IN EVERYTHING—but excellence— all the food comes from the same tempting cuisine. At some time or another you'll probably use all of them.

The most beautiful and luxurious of them—and a perfect setting for any meal—is the DINNER ROOM. When your principal concern—besides, of course, a good meal—is fast service, little ceremony and much economy, the COFFEE ROOM is the answer. And for the man with only time for a hurried lunch, there's the QUICK SERVICE—which meets such an emergency quite satisfactorily.

Mrs. Terence affiliated with the Delta Delta Delta society when she was a student at the University of Iowa.

Amana Trips Promises Interest; Tour of University Scheduled for Wednesday

By D. Lambert Sisco

What do you know about the University of Iowa? Anything? Say, you do! You know that there is something called the College of Music, where you stand for several hours try
ing to register and dealing with the capacity of none in the place. There is also a liberal arts where you can go to sleep and for an hour, also a social science building where you can hang out for another hour and a physics or law building where you can hang out for another hour. Also a library which you can use for a week.

There are interesting things that you can get of and you can enjoy them in all these buildings. There are many, so like their fatherland is it in makes you weep when you leave it. Study of musical inheritance, and is every respect. They are governed by causes your conduct and look to their welfare months of study in the extreme. The party will visit Hennepin, North Dakota, and will meet with the guests.

SUMMER SESSION STUDENTS

We extend a hearty welcome to you. We have had the thirty and hot, drop in between classes and get acquainted. We have cool drinks, ice cream, candies, and a human heart drama.

MUSICAL TALENT INBORN—DR. GAV

Lectures Given Series of Tests Determining Capacities of Each

"The musical mind is the normal mind; musical talent is inheren

t and can be measured," said Dr. Elcho A. Gav. Saturday, in the first of a se\n
ries of five lectures on musical talent that are to be given by Dr. Gav.

Musical talent is inherent, secret, and the best way to learn is by the presence of musicians in families that show an inclination to music. "This cannot be taught or hastily acquired," said Mrs. Gav. while talking in the lecture room. It is a natural science building where you can hang out for another hour and a physics or law building where you can hang out for another hour. Also a library which you can use for a week.

RELIGIOUS WORKERS WILL CONFER HERE

Special Lectures Give Promise of Interesting Program
July 8 to 15

The ten-day religious conference for ministers and social and church workers which will be held at the University from July 8 to 15 gives every promise of being one of the most important features of the 1921 summer season. This is the forty-second year of the religious conference and every summer seems its scope broadened.

Details of the program are arranged partly by faculty and partly by committee. Three courses by special lecturers from other institutions will be as follows: Dr. Clyde W. Veazey, professor of philosophy in the University of Chicago, will give a course of ten lectures and studios, July 8-15, on the "Interpretation of the Sermon on the Mount."

Dr. Leonard B. Dickson, head of the department of industrial theology in the University of Chicago, will give a course of six lectures, July 16-19, on "Religious Education for Democracy" and "Education and Worship" on July 16 and 17, and a recital of the "Epic of Elijah" on Sunday, July 18.

Four special courses are offered by members of the University of Iowa faculty. Prof. Edwin D. Starbuck, president of the college, will give a course of five lectures on "The Psychology of Religion." Dr. Clarence M. Cane, associate professor of sociology, will give a course of five lectures in "Significant Factors in the Social Problem:"

Dr. George F. Kroll, dean of the department of liberal arts, a course of three lectures on "Religion and Science," in the name of Prof. Otto K. Eichling, director of the extension division, a course of three lectures on "Chapel Furrere."" Numerous single lectures by members of the Iowa faculty are included in the conference program. Visiting students for this course may live in the Quad, the dormitory for women, and board at the Quadangle, cafeteria.

MEDICS TAKE STATE BOARD EXAMINATIONS

State board medical examinations, which will be given each year to the graduates as well as the sophomores of the college of medicine, were completed Friday, June 12. Twenty graduates and eleven sophomores took the examinations. The results will not be published until the latter part of July. Members of the University of Iowa medical faculty who have charge of the examinations are: Guifford H. Sumner, M. D., George F. Bevans, M. D., Frank T. Lawson, M. D., Charles 8. Grov, M. D., and F. W. Brant, M. D., of Lafayette, Illinois, sanitary engineers.

The graduates and the sophomores of the University that took the examinations are as follows: Graduates, of 1921.

THREE'S NOT A CROWD WHEN ONE'S A Kodak

There's such a thing as living a Mid River trip over again if you take a Kodak with you. Then you have a picture story to show your friends, of breakfast at the spring, of carrying the canoe around the dam, of the beautiful scenery—it's half the fun. We can help you in a selection of Kodak or Brownie.

---

This page contains a listing of various events and activities happening at the University of Iowa. It includes the announcement of a religious conference, special lectures by university faculty, and a listing of students who completed medical examinations. The page also features a section on Kodak cameras, suggesting their use for personal photography and memories. The text is primarily in English and is formatted in paragraphs with some lists and headings. The page is part of a larger document that includes other sections like headlines, advertisements, and notices. The layout suggests it is from a university bulletin or newsletter. The content is informative and educational, providing details about university life and events.
